FEI PARA-EQUESTRIAN DRESSAGE WORLD TEAM RANKING LIST

Effective from 1st January 2017

The Para Equestrian Dressage World Team Ranking List takes into account the points obtained over a twelve month period beginning on 1st January and ending on 31st December. The Ranking List begins on 1st January each year with the carryover of the total number of points which have been accumulated during the previous year until 31st December. At the end of each month, the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

Para Equestrian Dressage FEI Calendar events counting for the Team Rankings are all CPEDIs3* and above. For the Team Ranking, the best total team results from a maximum of three (3) events are added together, within the above stated period.

Only National teams count for the Rankings. No country may enter more than one team in any event. For the Team results calculation, please refer to the FEI Para-Equestrian Dressage Rules.

Only athletes that are registered with the FEI for the current year, competing on horses registered with the FEI for the current year, will be included within the Rankings.

Three decimal points will be used *(if the fourth decimal is 0-4, it does not influence the third one; if it is 5-9, the third decimal is rounded up)*. In case of equality, the highest percentage per team in the Individual Championship test will be decisive.

FEI PARA-EQUESTRIAN DRESSAGE WORLD INDIVIDUAL RANKING LIST

The Para Equestrian Dressage World overall Individual Ranking List and the Individual per Grade Rankings List takes into account the points obtained over a twelve month period beginning on 1st January and ending on 31st December. The Ranking List begins on 1st January each year with the carryover of the total number of points which have been accumulated during the previous year until 31st December. At the end of each month, the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

All CPEDI3* and above Para Equestrian Dressage FEI Calendar events. An athlete may compete on more than one horse at an event but can only count the highest placed horse (best result) for points from the event.

The FEI Para-Equestrian Dressage World Individual Ranking list is a ranking list of athletes. The ranking list takes into consideration the six (6) best results/percentage scores of the athlete regardless of the horse.

The overall Rankings includes all Para Equestrian Grades, I, II, III, IV and V for the Team and Individual ~~Championship~~ tests. The results from the Team test and the Individual ~~Championships~~ test each give points according to the below table (the percentages will count with the first digit behind the comma, for example see ranking points 160-170. The second digit behind the comma does not have any influence on the calculation of the ranking points, e.g. a percentage of 66.701 or 66.799 are both awarded with 167 ranking points). The athlete gains separate points from both tests if he rides both tests. All points are added up on the ranking list.

The Rankings per Grade will be calculated the same as the overall Rankings. Points earned in a specific Grade won't moved with the athlete and will be keep in the Ranking Grade where the points were earned.

Only athletes that are registered with the FEI for the current year, competing on horses registered with the FEI for the current year, will be included within the Rankings.

Points for the Rankings are distributed according to the table below.
