

**Courses for National Coaches
According to the FEI Coach
Education Programme
Level 1 Course for Coaches**

Location: Orfú (HUN)

Date: 23-27.02.2022

FEI Tutor: Brian C. Dunn

The Hungarian National Federation hosted in Orfú (HUN) the first-ever course for endurance coaches in Hungary (23-27.02.2022). The course tutor was Mr. Brian Dunn, a tutor and endurance expert of vast knowledge and experience. His expertise, enthusiasm, humor, and tutoring skills guaranteed an interesting and gainful time.

Unfortunately, Covid-19 forced us to postpone the course, but despite the change, the course proved to be very successful and surpassingly useful with a total of 9 coaches attending. In addition to the 7 Hungarian participants, we had the privilege to welcome a Polish and a Finnish coach.

The time spent together was extremely intensive for the participants, but the knowledge gained was well worth it, and the enthusiasm of the coaches never subsided. Nor did the attention or the energy of the tutor. However, 2-3 more days would provide sufficient time to cover all aspects of the course material in depth.

The Hungarian NF hopes to organize more courses in the future. The coaches will spread the good reputation of the course and the knowledge they gained, and we hope this will have a significant effect on the standard of endurance riding in Hungary, Finland, and Poland.
