

## FEI Dressage World Ranking List Rules

Effective from 1 January 2017

### General Principles

The FEI Dressage World Ranking list is based on:

- Percentages, scored in international competitions under FEI rules.
- Each Grand Prix level result will count from each international CDI3/4/5\*/CDI-W event. Consolation Grand Prix results (which have to be clearly marked in the schedule and result lists) will not be taken into account.
- Three results per event will count from CDIOs, Olympic Games and World and Continental Championship.

### Calculation of the World Ranking List

The FEI Dressage World Ranking list is calculated over a period of one year. FEI Dressage World Ranking list begins on 1 January each year with a carrying over of the total numbers of points accumulated during the previous year (i.e. as of 31 December).

At the end of each month the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

The FEI Dressage World Ranking list is a ranking list of Horse/Rider Combination. The FEI Dressage World Ranking list takes into consideration the best results/percent scores of the Horse/Rider Combination.

### Point System

The scores obtained in a maximum of 8 tests per year will count. The points for the FEI Dressage World Ranking list are obtained by adding the 8 best scores of the last 12 months (expressed in World Ranking Points as under mentioned, the percentages will count with the first digit behind the comma, for example see World Ranking Points 160 - 170).

In the case of tie points the rider/horse combination with less counting results is in front of the other(s), if both have the same amount of counting results, the rider/horse combination with the best single result is in front of the other(s).
