## LONGINES RANKINGS/JUMPING - CALCULATION FOR 2022 LISTS

### 1. Generals

The list for the Longines Rankings takes into account the points obtained by Athletes over a twelve month period beginning on 1 January and ending on 31 December. **NB: Refer to the Longines Ranking Policy for Mitigating the Impact of Covid-19, published [here](#) under the FEI Board Resolution of 1 April 2020.**

The list for the Longines Rankings is produced by the FEI Headquarters.

The list for the Longines Rankings is updated weekly but is released on the first week of each month only. The updated version during the month is not published or distributed, except for specific purposes (FEI World Cup™ invitations, selection for Top Ten Final etc).

The list for the Longines Rankings begins on 1 January each year with the carryover of the total number of points which have been accumulated during the previous year until 31 December. At the end of each month, the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list. **NB: Refer to the Longines Ranking Policy for Mitigating the Impact of Covid-19 referenced in the first paragraph above.**

Aside from other applicable provisions, Organisers of CS12\* Events that wish to include Competitions counting for the Longines Rankings must invite a minimum of 50 Athletes.

### 2. Points obtained at Games and Championships

Points obtained at Games and Championships are retained on the list depending on the frequency of the Events. If the Event is held every four years, 25% of the points obtained are dropped after one year, 50% after two years, 75% after three years and the remainder after four years. If the Event is held every two years, 50% of the points obtained are dropped after one year and the remainder after two years.<sup>1</sup>

### 3. Maternity or medical leave

Athletes may request a maternity leave or a medical leave providing the pregnancy/medical condition is certified in writing by a medical doctor; requests for maternity/medical leave must be addressed to the FEI Jumping Director. During the period which an Athlete has officially ceased to compete due to pregnancy or a medical condition, they will retain 50% of the Longines Rankings points earned from the corresponding month of the preceding year until he/she recommences competing internationally. The minimum length of time for which an Athlete may be granted a maternity/medical leave is six months; if the maternity/medical leave lasts less than six months, no points will be retained from the corresponding month of the preceding year. The maximum length of time an Athlete may benefit from a maternity/medical leave of absence at one time is twelve months. During the period in which an Athlete is on maternity/medical leave, they may not compete in international or national Competitions; the FEI will inform the Athlete's NF accordingly. The Athlete concerned must inform the FEI Jumping Director when they resume international participation.

### 4. Calculation of prize money

In order for a Competition to count for the Longines Rankings, the prize money distribution charts published in the Draft Schedules must be respected. The value of the first prize, in cash and/or in kind, may not exceed one third (rounded for calculation purposes to 33%) of the total value of prize money and prizes in kind offered for the Competition. For Competitions in which the retail value of the prize in kind for the winner **EXCEEDS** 33% of the total value of prizes offered for the Competition, only 33% of the total value of the prizes offered for the Competition is taken into consideration for 1<sup>st</sup> place for the purpose of determining whether the Competition counts for the Longines Rankings and into which point group it should be placed (AA/A/B/C/D). Therefore, the prize money provided for Athletes placed 2<sup>nd</sup> to 12<sup>th</sup> is considered to represent 67% of the total

---

<sup>1</sup> With regards to the 2020 Olympic Games only, 25% of the points obtained are dropped after one year, 50% after two years and the remainder after three years.

prizes offered for the Competition and must be distributed according to the percentages laid down in the prize money distribution Chart 2 (33% to the winner). In order to achieve this, the total value of the prizes offered for the Competition must be recalculated based on the premise that if the first prize represents 33%, the prizes provided for 2<sup>nd</sup> to 12<sup>th</sup> represent 67% of the total value of prizes offered for the Competition (100% = 33%+67%). The calculation is to be made as follows: The amount of prize money offered for Athletes placed 2<sup>nd</sup> to 12<sup>th</sup> is multiplied by 100 and divided by 67. The amount obtained through this calculation is the "recorded" value (100%) of the Competition for Longines Rankings purposes.

Example: A Competition is listed in the Schedule with a total value of prizes of CHF 97'000, of which a car with a retail value of CHF 47'000 is offered to the winner and CHF 50'000 cash is provided for Athletes placed 2<sup>nd</sup> to 12<sup>th</sup>. The recorded value (100%) of the Competition for Longines Rankings purposes is equal to the value of the prizes provided for 2<sup>nd</sup> to 12<sup>th</sup> places (50'000) multiplied by 100 and divided by 67:  $100\% = 50'000 \times 100 \div 67 = \text{CHF } 74'626.86/\text{rounded to } 74'625$  (instead of 97'000). The recorded value of the car is considered to be 33% of this amount:  $33\% \text{ of } 74'625 = 24'626.25/\text{rounded to } 24'625$  (instead of 47'000). As the recorded value of the Competition exceeds CHF 30'000 it may count for the Longines Rankings and it falls into point Group C: CHF 60'000 – 112'499. The CHF 50'000 prize money is distributed among the Athletes placed 2<sup>nd</sup> to 12<sup>th</sup> according to the percentages listed in prize money distribution Chart 2, using the recorded value of the Competition (CHF 74'625) as the basis for calculating the percentages.

**NB:** The above applies to cases in which the retail value of the prize in kind for the winner greatly exceeds 33% of the total value of prizes offered for the Competition; a certain degree of flexibility will be applied if the value of this prize in kind represents approximately 33%. Should the retail value of the prize in kind for the winner be less than 33%, additional prize money must be provided to meet the required percentage.

## 5. Point System

Competitions are divided into groups depending on their level. *Refer to Section 9.*

For Individual Competitions (see 9.1), Athletes obtain points related to their placing in the Competitions. The scale of points differs from one group to another. *Refer to Section 9.3.*

For Competitions in point groups AA and A, points will be distributed based on the number of Athletes ranked in the competition according to the following points scale:

Number of Athletes ranked in the competition	Scale of points
30 or more	100%
25-29	95%
20-24	90%
15-19	80%
10-14	70%
5-9	60%
4 or less	No points

For Nations Cup Competitions (see 9.2), Athletes obtain points related to their results. If they obtain four penalties or less in at least one of the rounds, they earn points. This also applies to Team Competitions at Championships and Games. *Refer to Section 9.4.*

For Olympic Games, FEI World Championship, Pan-American Games, European Championship (Seniors), FEI World Cup™ Final and Asian Games, the first three placed Athletes in the overall individual classification obtain bonus points in addition to the points obtained during the Competitions. *Refer to Section 10.*

The 16 best placed Athletes (plus the Athletes tying for the last place to count) will obtain points in all individual Competitions counting for the ranking. Points won by Athletes who are tied are added up and divided equally among them. Two decimals are kept. The second decimal place will be rounded up from .005 and rounded down from .004.

Athletes placed more than once in the first 16 obtain points for their best placing only.

## 6. Competitions

Competitions excluded: Special Competitions, meaning show Competitions or Competitions for which participation is based on personal invitations or for which not all Athletes at the Event have the chance to qualify (such as Top Ten, Masters, rotating Horses, Competition in Groups with Winning Round), Knock-out, Puissance, Six-bar, Relay, Top Score, Fault & Out, Hit & Hurry, Take Your Own Line and any Competition in which the number of Horses that may be entered per Athlete is not the same for all Athletes. Team Competitions other than Nations Cup are also excluded, unless the Competition is open to all Athletes at the Event, an individual classification is established for the Competition and the prize money distribution is based on the individual classification; in such cases points are distributed according to the individual classification.

There will be no limit on the number of Competitions per Event which count for the Longines Rankings provided they meet the criteria of a group. However, no Event may hold more than one Competition in point group AA. If an Organising Committee wishes to hold more than one Longines Ranking Competition with prize money of CHF 328'000 or more, only one of these Competitions may count for point group AA; the others must be placed in point group A, providing they meet the minimum height requirements of point group A. In such cases the OC must designate in the Schedule which competition is to count for point group AA. The AA Competition must be conducted either as a one or two round Competition with a jump-off or as a two-round Competition without a jump-off.

## 7. Number of results to count

- 8. The number of results to count per Athlete per year for the Longines Rankings is limited to the best 30. The number of results to count per Athlete per day is limited to one (the Competition in which the Athlete earned the most points), with an exception for the Nations Cup Competition, which may count in addition to the results of another Competition on the same day. Horse/Athlete Combination Ranking List**

In accordance with the above rules a ranking list for the Horse/Athlete Combination is established each year. If one of the two elements forming the combination changes during the year, the points start again from scratch. This list begins for each combination with zero point on 1 January and finishes on 31 December (only the points of the current year are taken into account; there is no carryover of previous championships or Games points).

## 9. Definition of Point Groups

### 9.1. Individual Competitions

The minimum height of all Competitions counting for points is 1.45 m. (NB: exception for the first and last Competitions of Regional or Continental Games or Championships as mentioned under point group E\*)

Individual Competitions counting for points must meet the minimum height requirements for the respective point groups. If the minimum height requirement for any given point group is not met, the Competition will be retrograded to the next point group providing it meets the height requirement for that group (e.g. if the prize money meets the requirements for point group A but the height of the Competition is 1.50 m., the Competition will be placed in point group B).
