Re: Guidelines for the appointment of Officials for Eventing Championships and Games.

Guidelines for the appointment of Officials are published to explain the procedure applied by the Committee to appoint Ground Jury and the Foreign Technical Delegates for FEI Championships and Games.

The principles include:

- Judge from the hosting nation, if possible (experienced 3/4* Judge)
- Judge representative from the different geographical regions
- A new Official not having officiated at the highest level or the level of the championships concerned
- Balance expertise and knowledge within the overall team of officials (strong Dressage or XC background)
- Committee representation, if possible
- Avoid the same combination of Officials at several Championships in the same year
- For Continental Championships integrate an Official from another continent, if possible
- Course Designer and Foreign Technical Delegate to be of different nationality
