To whom it may concern

Oslo, April 27th 2017

Letter of motivation regarding the FEI Nominations Committee.

Please accept my application for the vacant position in the FEI Nominations Committee.

I think this is an interesting position both for me personally and for the Norwegian Equestrian Federation.

This position give great opportunities to get to know the worldwide equestrian family, better. In addition to this, affect the development of the equestrian sports, by choosing the best people to different positions.

Despite that I have been in my professional position only 2 years (Secretary General in Norway), I have a good overview of FEI and national federations, all around the world. This because of my participating in General Assembly both in 2015 and 2016, several meetings in the European Equestrian Federation (EEF) and SportsForums in Lausanne.

I hope and think that both my professional background, my current position as a Secretary General, many years in a local ridingclub and my big passion for the equestrian sport, are important arguments to be nominated to the Nominations Committee. This in addition to my openminded, curious, unfounded and offensive personality I believe I am the right person for this position.

I will also mention that my application enjoys the full support of the EEF and the board in the Norwegian Equestrian Federation.

I hope you will consider my application and look forward to receive your positive response.

Best regards

Ellen Damhaug Scheel
