

Since I almost spend whole my life with the horses and in equestrian sport , either as rider, club owner , judge or event director , I have a lot of experience in this field .

I also work as Secretary General of the Iranian NF in past 10 years and with all this background, I believe I can be useful in nominating committee of the FEI.

I also know the region and have a lot of connections with the other NFs in our area and I believe if I get elected we can have a better cooperation with the FEI and help to improve our sport in the direction the FEI wants and have a better relation in our equestrian family .

I believe having people from different countries around the world in FEI body helps us to have a better understating of the big image of our sport in the world and can be useful for better planning in the future .

Mohammad Kazemian

Secretary General

Equestrian Federation of I. R. Iran
