Updated 28 February 2024 and 16 April 2024

CALCULATION METHOD OF THE FEI ENDURANCE RANKING LISTS

1. GENERAL

The ranking list for the FEI Endurance Rankings takes into account the points obtained by Athletes, Horses and Trainers over a twelve (12) month period over a rolling year period (the ranking always includes 12 months).

All FEI Endurance Competitions are granting points for the FEI Endurance Rankings. The ranking list for the FEI Endurance Rankings is produced by the FEI Headquarters. The ranking list for the FEI Endurance Rankings is updated monthly and published on the first week of each month only.

The ranking list for the FEI Endurance Rankings beginning on 1 January and ending 31 December each year will be declared as the "Yearly Ranking" and can be used for specific purposes.

The FEI Endurance Rankings published are the following:

- Endurance Riders World Ranking
- Endurance Horse World Ranking
- Endurance Combination World Ranking

- Endurance Junior/Young Riders World Ranking
- Endurance Junior/Young Riders Horse World Ranking
- Endurance Junior/Young Riders Combination World Ranking

- Endurance Elite Riders World Ranking

- Endurance Trainer World Ranking

2. POINTS OBTAINED AT GAMES AND CHAMPIONSHIPS

Points obtained at Continental Games and Continental and World Championships are retained on the list depending on the frequency of the Events. If the Event is held every four years, 25% of the points obtained are dropped after one year, 50% after two years, 75% after three years and the remainder after four years. If the Event is held every two years, 50% of the points obtained are dropped after one year and the remainder after two years.

For the avoidance of any doubt, the above does not apply to Regional Games and Regional Championships.

3. MEDICAL OR MATERNITY LEAVE

MEDICAL LEAVE

- 3.1 Athletes may request an official FEI medical leave provided that the medical condition is certified in writing by a medical doctor. To request the official FEI medical leave, the Athlete must submit the doctor's certificate and the completed Medical Leave Form, available on the [FEI website](#), to the FEI Endurance Department. The Athlete can choose the duration of their medical leave, with the minimum period being six (6) months and the maximum period being twelve (12) months). Applications cannot be submitted retroactively.
- 3.2 In the Medical Leave Form, the Athlete must indicate the start date and requested end date (the "**Medical Leave End Date**") of the official FEI medical leave. If the Athlete does not specify a Medical Leave End Date in the Medical Leave Form, the minimum period of six (6) months will automatically apply unless the Athlete subsequently informs the FEI Endurance Department otherwise, as per the process set out in article 3.8 below. Where an Athlete requests an official FEI medical leave, the following rules apply in relation to the Athlete's ranking points.
- 3.3 In the period during which an Athlete has officially ceased to compete due to an official FEI medical leave, they will retain 50% of the Endurance World Rankings points earned from the corresponding months of the preceding year until their Medical Leave End Date.
- 3.4 The minimum length of time for which an Athlete may be granted an official FEI medical leave is six (6) months.
- 3.5 If the Athlete returns from an official FEI medical leave after less than six (6) months, no points will be retained from the corresponding months of the preceding year and the rankings will be recalculated accordingly.
- 3.6 The maximum length of time an Athlete may benefit from an official FEI medical leave of absence at one time is twelve (12) months.
- 3.7 During the period when an Athlete is on an official FEI medical leave, they may not compete in international or national Competitions; the FEI will inform the Athlete's NF accordingly.
- 3.8 If the Athlete wants to be eligible to compete in international or national Competitions prior to the Medical Leave End Date (as stated in the Medical Leave Form), the Athlete concerned must inform the FEI Endurance Department at least four (4) weeks in advance of the date when they want their medical leave to end. The official FEI medical leave will end on that new date (provided the minimum period of six (6) months has expired). The FEI will inform the Athlete's NF accordingly and the Athlete will be eligible to compete in international and national competitions as of the new end date.

- 3.9 If the Athlete wants to prolong the official FEI medical leave beyond the period originally stated on the Medical Leave Form, the Athlete must apply to the FEI Endurance Department prior to the expiration of the original period of the official FEI medical leave and submit an updated medical certificate to justify the extension request. In no case can the overall period of the official FEI medical leave exceed 12 (twelve) months.
