PREAMBLE

This booklet sets forth the detailed Rules of the FEI Jumping World Cup™, which is to be read in conjunction with the pertinent Statutes, General Regulations, Jumping Rules and Veterinary Regulations. It is acknowledged that every Eventuality cannot be provided for in these Rules. In cases where there is not a rule to deal specifically with a particular situation, or if the narrowest interpretation of a relevant rule would result in a clear injustice, it is the duty of those responsible to make a decision based on common sense, fair play and in the overall best interest of the sport, thus reflecting as nearly as possible the intention of these Rules and of the General Regulations.

Article 656 FEI JUMPING WORLD CUP™ POINTS

1. FEI Jumping World Cup™ Point System

1.1. Number of Athletes attributed points

FEI Jumping World Cup™ points are awarded to Athletes only (not Athlete/Horse combination) for each FEI Jumping World Cup™ Competition. Points are awarded to the 16 best placed Athletes.

1.2. Equality of points

Points won by Athletes who are tied are added and divided equally. Fractions of 0.5 or more are rounded up; fractions of less than 0.5 are rounded down.

1.3. Competitions with less than sixteen Athletes

If there are less than 16 Athletes starting the initial course of an FEI Jumping World Cup™ Competition, the scale of points will be reduced accordingly. Only Athletes who have completed the initial round will get points. This does not apply for the New Zealand League, for which the number of points available will be the same for all FEI Jumping World Cup™ Competitions (the column used for 16 starters), irrespective of the number of Athletes starting in the Competition.

1.4. Qualifying Competitions with less than 16 Athletes – Outside Europe

If, outside Western Europe, an Event uses a separate Competition to qualify Athletes for the FEI Jumping World Cup™ Competition on the same day and if the number of Athletes finishing the initial round in the FEI Jumping World Cup™ Competition is less than 16, the results of the previous qualifying Competition are taken into account for the allocation of the remaining FEI Jumping World Cup™ points.

Athletes participating in a Competition for FEI Jumping World Cup™ points who are placed lower than Athletes who are not participating for points will move up in the classification of the Competition for the purpose of point distribution.

3. Crossing Over of FEI Jumping World Cup™ Points from other Leagues

In principle, an Athlete competes in the League in which the Athlete is domiciled and may earn points in another League once their own League has started.

An Athlete may earn points in as many Competitions as there are FEI Jumping World Cup™ Events in their League. But an Athlete may not earn points in another League once the last Competition of their own League has been held. If an Athlete wishes to compete in more Competitions the Athlete has to declare to the show office prior to each Event if this Competition is to count or not. Failing to do so, the Competition will count, and once the number of permitted Events has been reached, the remaining Events no longer count.

An Athlete may, however, also compete in other Leagues but may only earn points in other Leagues according to Annex A (Crossover Points). To be eligible to qualify for the FEI Jumping World Cup™

Final, an Athlete must have competed in and earned one point or more at an Event in their own League or in the League in which an Athlete is domiciled; Armenian Athletes are exempted from this requirement for the 2024/2025 season. Athletes from Russia and Belarus may only compete in the FEI Jumping World Cup™ provided they fulfil the FEI Criteria for the participation of Russian and Belarusian Athletes, Horses and Officials in FEI Events accessible [here](#). Athletes who fulfil the criteria will participate as Neutral Individual Athletes in their own League, the Eurasian League, or in the League in which they are domiciled. The requirement for Athletes to earn at least one point in their own League in order to be eligible to qualify for the Final applies only to Leagues where crossover points are allowed.

If during any given season a League is not activated, i.e. the League has no FEI Jumping World Cup™ Events or has fewer than the minimum number required to run the League, Athletes from that League may earn points as extra Athletes in another League without being required to be domiciled in the other League. Such Athletes are also exempted from the requirement to compete in and earn at least one point in their own League.

3.1. North American League

No points may be transferred from other Leagues before the North American League has started. North American Athletes may earn points in all North American League Events. However, Canadian, Mexican and USA Athletes obtain World Cup points for their country of citizenship, regardless of where they are domiciled in North America (e.g. Mexican citizens residing in the USA or Canada, etc.). For the purpose of qualification for the Final, USA Athletes will be registered as East USA (USEF Zones 1-7) or West USA (USEF Zones 8-12) according to where they are domiciled. USA Athletes domiciled in eastern Canada (Ontario and east of Ontario) are considered as East USA Athletes; USA Athletes domiciled in western Canada (Manitoba and west of Manitoba) or in Mexico are considered as West USA Athletes. Should an East USA Athlete wish to be registered as a West USA Athlete or vice-versa for the purpose of qualification for the Final, the Athlete must notify the FEI Headquarters and their NF in writing prior to the first Competition in which the Athlete participates.

The best 50%, rounded up to the next whole number, of possible results count for qualification for the Final.

4. Number of Competitions counting for FEI Jumping World Cup™ Points per League per Athlete

4.1. Number of Competitions counting for points

In all the Leagues, only the best 50% of the possible results count towards the qualification for the Final, on the following scale:

Number of Competitions in the League (possible results)	Number of Results to count
20 Competitions	10 to count
19	10
18	9
17	9
16	8
15	8

12	6
11	6
10	5
9	5
8	4
7	4
6	3
5	3
4	2
3	2

4.2. Exceptions to the Competition scale of points

If in any League the number of FEI Jumping World Cup™ Competitions is six or less, the following exceptions to the scale of points to count may be authorised:

6 Competitions	3 or 4 to count
5 Competitions	3 or 4 to count
4 Competitions	2 or 3 to count
3 Competitions	2 to count

4.3. Number of Competitions to count for FEI Jumping World Cup™ points in case of Event cancellation

If, after the approval of the FEI Jumping World Cup™ calendar by the FEI Jumping Committee, an Event is cancelled, the following applies:

4.3.1. If the cancellation is known before the start of the League: the number of results to count will be adjusted if necessary;

4.3.2. If the cancellation takes place after the start of the League, the original number of results will count.

4.4. Allocation of FEI Jumping World Cup™ points for Central European Competitions

In the FEI Jumping World Cup™ Central European League, points can only be given if Athletes from at least three countries participate. In exceptional cases the FEI Jumping Committee may allow an exception.

4.5. League Finals

In Leagues outside Western Europe and North America (USA, Canada and Mexico), the League may conclude with a League Final to which the top Athletes in the point standings are invited to participate; in such cases the Event must be entered in the FEI calendar as a League Final. All Athletes competing in the Final will carry over their points (exception for the Central European League Final; see Annex E).

4.6. League Finals - Formula

The League Final may consist of one or two Competitions as follows (exception for the Central European League Final; refer to Annex E):

4.6.1. League Final as one Competition: Table A jump-off or Two Rounds (Art. 238.2.2 or Art. 273). Starting order in reverse order of League standings or according to Art. 655.4.

4.6.2. League Final with two Competitions:

- Table C over Table A course (Art. 239);
- Table A jump-off or Two Rounds (Art. 238.2.2 or Art. 273);

4.6.2.1. Starting order in the Table C Competition is according to the reverse order of League standings.

4.6.2.2. Starting order in the Table A Competition is according to the reverse order of results in the first League Final Competition.

4.7. FEI Jumping World Cup™ Points for League Final Competition(s)

4.7.1. The League Final Competition(s) to count 100 % or 150 % or double points; this information must be included in the Draft Schedule.

4.7.2. The points of the League Final Competition(s) are counted as normal FEI Jumping World Cup™ Competitions, i.e. if the number of Competitions to count has been reached prior to the League Final, there will be a drop score for the Athlete in question.

This does not apply to the defending Champion (refer to Art. 657.1.9).

Should an Athlete who has qualified for the FEI Jumping World Cup™ Final find it impossible to transport their qualified Horse to the Final due to quarantine restrictions, the FEI Jumping Committee may authorise, with a view to qualifying another Horse for this Athlete, this new pair to participate in an FEI Jumping World Cup™ Event outside the Athlete's League and after their own League has finished. Article 658 FEI JUMPING WORLD CUP™ FINAL

1. Formula

1.1. Number of Horses per Athlete

An Athlete may enter and ride two different Horses in the three Final Competitions, but only one Horse in each Final Competition.

At the FEI Jumping World Cup™ Final Athletes start with zero points.

1.2. Duration

The FEI Jumping World Cup™ Final is held over five or six days with a total of three Final Competitions. If the Final lasts five days, day four is a rest day. If the Final lasts six days, days three and five are rest days.

1.3. Competition Schedule

The Competition schedule as well as the formula for the three Final Competitions are binding and are laid down as follows:

1.3.1. First day:

Athletes must be provided with at least one opportunity to ride in the Competition arena prior to the first Final Competition. The OC has the option to hold either a training session or a warm-up Competition, or both, according to the following provisions.

Training session: A training session, with obstacles of approximately 1.40 m in height, may be held in the morning of the first day of the Final. This session is open to all Horses at the Event. There will be no time allowed, no paying audience, no prize money, no saluting and no classification.

Warm-up Competition: There may be one warm-up Competition (with paying audience) in the afternoon or evening, run according to one of the following formulas: Competition over two Phases (integrated jump-off), 1.40 m: Table A with jump-off, 1.50 m: Table A, against the clock, 1.40 m. If both a training session and a warm-up Competition are held, a Horse may compete in the training session and in the warm-up Competition. The FEI Jumping World Cup™ Horses (maximum two) are to be declared no later than 30 minutes after the end of the warm-up Competition, or if no warm-up Competition is held, no later than 30 minutes after the end of the training session. Only declared Horses may compete in the three Final Competitions. (Refer to Art. 658.1.3.7 for details relating to the substitution of the declared Horse in the third Final Competition.) Athletes are not obliged to participate in the warm-up Competition, but this Competition, if held, is part of the FEI Jumping World Cup™ Final.

1.3.2. First Final Competition - Second day

Table C over a Table A course. Art. 239 and 263. Maximum height: 1.60 m. No jump-off in case of equal time. (It is not intended that this course should have the character of a Table C "Speed and Handiness", but rather a type Table A course with bigger fences. The sole purpose for using Table C scoring is to give a skilful Athlete with an unlucky knockdown an opportunity to obtain a reasonable placing).

1.3.3. Second Final Competition - Third day

Table A, against the clock. One round against the clock and one jump-off only against the clock. Art. 238.2.2, maximum height: 1.60 m. Athletes who are eliminated or who retire in the 1st final Competition are not permitted to take part in this Competition.

1.3.4. Rest day – Fourth day

Every FEI Jumping World Cup™ Athlete who has earned points in the first two final Competitions but decides not to enter the 3rd final Competition may compete in the major Competition/Grand Prix of the fourth day.

1.3.5. Third Final Competition - Fifth day

Table A, not against the clock. Two rounds over a Grand Prix course. Maximum height: 1.60 m. The two rounds are approximately equal in the number of obstacles and length of the course, the second round having an increased level of difficulty.

There will be no jump-off for victory of the third Competition.

(For details on the FEI Jumping World Cup™ overall classification, refer to Art. 658.4.1.1.)

1.3.6. Declaration for the Third Final Competition

The Horse to compete in the third Final Competition of the FEI Jumping World Cup™ Final must be entered no later than 30 minutes after the publication of the standings after the 2nd Final Competition. It may not compete on the rest day.

1.3.7. Substitution of the declared Horse in the third Final Competition

If for veterinary reasons the Horse declared under Art. 658.1.3.6 is unable to take part in the third Final Competition, the Athlete may present their second Horse at the second Horse Inspection; if found fit to compete, this Horse may be substituted for the declared Horse in the third Final Competition, providing it does not compete on the rest day. If an Athlete's second Horse is not presented to the second Horse Inspection it may not take part in the third Final competition.

1.3.8. Eligible for the first round of the third Final Competition

The 30 best-placed Athletes (plus ties) from the provisional classification following the second Competition are allowed to compete in the first round of the third final Competition. Qualified Athletes unable to start will not be replaced.

1.3.9. Eligible for the second round of the third Final Competition

The 20 best-placed Athletes (plus ties) from the provisional classification following the first round are allowed to start in the second round of the third Final Competition.

Athletes with a clear score in the first round are allowed to start in the second round, even if their total score does not bring them into the top 20 Athletes (plus ties) allowed for the second round. However, they will compete only for the classification and prize money of the Competition itself, and their score in the second round will not be taken into consideration when calculating their position in the final overall ranking of the FEI Jumping World Cup™ Final.

1.3.10. Starting time of the third Final Competition

The third Final Competition may not start later than 15.00 hours (3pm), to end before 18.00 hours (6pm).

2. Limitation on participation of FEI Jumping World Cup™ Horse

Horses competing in an FEI Jumping World Cup™ Final Competition may only compete in one Competition on that day.

3. Point system for the FEI Jumping World Cup™ Final

3.1. First two Final Competitions

In the first two Final Competitions points are given to all Athletes having finished the initial round.

3.2. Point System

The winner of each Competition gets one point more than the number of starters in the first final Competition. The second placed gets two points less than the winner, the third placed three points less than the winner, and so on.

3.3. Athletes eliminated or retiring

Athletes who have been eliminated or have retired in the initial round of the first two Competitions do not get points.

3.4. Equality of points among Athletes

Points won by Athletes who are tied are added up and divided equally. Fractions of 0, 5 and more are rounded up; fractions of less than 0, 5 are rounded down.

3.5. Transformation of points to penalties

After the second Final Competition, FEI Jumping World Cup™ points are transformed into penalties. The Athlete with the highest number of FEI Jumping World Cup™ points after two Competitions will have 0 penalties. For all other Athletes the number of penalties will be calculated by multiplying with the coefficient of 0.50 the difference between their number of FEI Jumping World Cup points and the FEI Jumping World Cup™ points of the leading Athlete after two Competitions.

3.5.1. In this procedure all decimals are rounded down.

4. FEI Jumping World Cup™ Final Overall Classification

4.1. Classification

The overall winner will be the Athlete with the lowest number of penalties after the three Final Competitions. An Athlete who qualifies for the second Final Competition but who does not start in that Competition cannot be ranked higher than Athletes who started in both the first and second Final Competitions.

4.1.1. If Athletes are tied for first place after the three final Competitions, there will be a jump-off against the clock over a reduced course of at least six obstacles.

In case of equality of penalties and time in this jump-off a second jump-off, against the clock, will be held over the same course.

Athletes not in the jump-off but tying on penalties will be separated for the purpose of the FEI Jumping World Cup™ Final overall classification by their time in the second round of the third Final Competition.

5. Starting Order

The starting order for the three Final Competitions is established as follows:

5.1. FEI Jumping World Cup™ Final First Competition

The starting order in the first Final Competition is decided by a draw.

5.2. Starting order second and third FEI Jumping World Cup™ Final Competitions

In the second Final Competition, the starting order is according to the reverse order of FEI Jumping World Cup™ points allocated after the first Final Competition. The starting order in Rounds A and B of the third Final Competition is, respectively, according to the reverse order of penalties (i.e. FEI Jumping World Cup™ points transformed into penalties – refer to Art. 658.3.5) after the second Final Competition, and after Round A of the third Final Competition.

5.2.1. Athletes with equality of points (after the first Final Competition) or penalties (after the second Final Competition or after Round A of the third Final Competition) will retain the same

starting order among themselves as in the previous Competition or round, whichever is applicable.

6. Time Recorded

The time has to be recorded in 1/100 of a second.

7. Course Designer

If there are two course designers at a final Event, the one responsible for the three final Competitions must also design the courses for the warm-up Competition, if held.

8. Horse Inspections

All Athletes must present their own horse(s) at the first Horse Inspection and at the second Horse Inspection which must be held after the second Final Competition and prior to the Grand Prix. Any Athlete who fails to present their Horse in person at either of these inspections without first obtaining the permission of the President of the Ground Jury, will be fined EUR 1'000.

ANNEX B FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The FEI requires all those involved in international equestrian sport to adhere to the FEI Code of Conduct and to acknowledge and accept that at all times the welfare of the Horse must be paramount. Welfare of the horse must never be subordinated to competitive or commercial influences. The following points must be particularly adhered to:

1. General Welfare:**a) Good Horse management**

b) Training methods

Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to methods which are abusive or cause fear.

c) Farriery and tack

Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.

d) Transport

During transportation, Horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent personnel. Competent handlers must always be available to manage the Horses.

e) Transit

All journeys must be planned carefully, and Horses allowed regular rest periods with access to food and water in line with current FEI guidelines.

Participation in Competition must be restricted to fit Horses and Athletes of proven competence. Horses must be allowed suitable rest period between training and competitions; additional rest periods should be allowed following travelling.

b) Health status

No Horse deemed unfit to compete may compete or continue to compete, veterinary advice must be sought whenever there is any doubt.

Any action or intent of doping and illicit use of medication constitute a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before Competition.

d) Surgical procedures

Any surgical procedures that threaten a competing Horse's welfare or the safety of other Horses and/or Athletes must not be allowed.

e) Pregnant/recently foaled mares

Mares must not compete after their fourth month of pregnancy or with foal at foot.

Abuse of a Horse using natural riding aids or artificial aids (e.g. whips, spurs, etc.) will not be tolerated.

3. Events must not prejudice Horse welfare:**a) Competition areas**

Horses must be trained and compete on suitable and safe surfaces. All obstacles and competition conditions must be designed with the safety of the Horse in mind.

b) Ground surfaces

All ground surfaces on which Horses walk, train or compete must be designed and maintained to reduce factors that could lead to injury.

c) Extreme weather

Competitions must not take place in extreme weather conditions that may compromise welfare or safety of the Horse. Provision must be made for cooling conditions and equipment for Horses after competing.

d) Stabling at Events

Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and

disposition of the Horse. Washing-down areas and water must always be available.

4. Humane treatment of horses:

a) Veterinary treatment

Veterinary expertise must always be available at an Event. If a Horse is injured or exhausted during a Competition, the Athlete must stop competing and a veterinary evaluation must be performed.

b) Referral centres

Wherever necessary, Horses should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured Horses must be given full supportive treatment before being transported.

c) Competition injuries

The incidence of injuries sustained in Competition should be monitored. Ground surface conditions, frequency of Competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

10. Qualification for the FEI Jumping World Cup™ Final

The number of Athletes qualified for the FEI Jumping World Cup™ Final from the Eurasian League will be three.

Namely:

- One Athlete with the highest points from the Central-Asia region (Kyrgyzstan, Kazakhstan, Turkmenistan, Uzbekistan);
- One Athlete with the highest points from the Caucasian-Caspian region (Armenia, Azerbaijan, Georgia, Iran);
- One Athlete with the highest points from the European region (Moldova). Athletes who compete in the Eurasian League as Neutral Individual Athletes pursuant to Clause 4 above will be considered within the European region quota.

10.1. Substitution of FEI Jumping World Cup™ qualified Athletes

In case not all qualified Athletes the Eurasian League can go to the Final, the following applies: Only one substitution up to 2nd place in the final overall Eurasian League standings can be made for the entire League. If the 2nd placed Athlete on the overall Eurasian League standings is already qualified for the FEI Jumping World Cup™ Final as the highest ranked Athlete from their region there will be no further substitution.

10.2. Horse Qualification

The Horse(s) with which the qualified Athlete participates at the Final must have completed at least one FEI Jumping World Cup™ Competition in which the Athlete was eligible to earn points, as the nominated FEI Jumping World Cup™ Horse, during the season in which the Athlete qualified (refer to Art. 657.1.10). Horses must be at least nine years old to be eligible to participate in the FEI Jumping World Cup™ Final.

All Athletes having qualified at outdoor lower-level Leagues must complete the first round of at least one indoor CSI-3* Grand Prix Competition with the FEI Jumping World Cup™ qualified Horse. Their score in the first round must not exceed eight penalties (refer to Art. 657.1.12).

Should an Athlete who has qualified for the FEI Jumping World Cup™ Final find it impossible to transport their qualified Horse to the Final due to quarantine restrictions, the FEI Jumping Committee may authorise, with a view to qualifying another Horse for this Athlete, this new pair to participate in an FEI Jumping World Cup™ Event outside the Athlete's League and after their own League has finished. The Athlete/Horse combination must obtain a score of not more than eight penalties in the initial round of the FEI Jumping World Cup™ Competition, obtained by the deadline date for entries for the FEI Jumping World Cup™ Final.
