Remarks

It is better to prepare a sheet for each day on a daily basis, to avoid later changes.

If improving the footing takes a long time, it should be mentioned under remarks.

Good liaison with person responsible for special shows must be maintained, in order to avoid show horses impeding competition horses (especially in case of jump-off or lateness)

Veterinary Examinations (VR Article 1011)

2.1 The (Foreign) Veterinary Delegate or a deputy must examine all horses entering the event stables, whether for competition, exhibition or any other reason.

2.2 The first Veterinary Examination ('Examination upon Arrival') should be carried out as soon as possible after arrival, but in any case before the horse enters the event stables.

2.3 The object of the Veterinary Examination is to:

2.3.1 Verify the identity of each horse from its passport.

2.3.2 Check that the vaccination status of the horse is in accordance with the current Veterinary Regulations.

2.3.3 Verify whether all other details are correctly recorded in the passport.

2.3.4 Check that the animal has not been in contact with other animals suffering from infectious or contagious disease (e.g. strangles) or has come from an establishment that is not free of such disease (see Art. 1004.4)

2.3.6 Carry out a clinical examination to ensure that the horse is not suffering from any infectious or contagious disease. This examination may include the palpation of limbs and body, monitoring heart and respiratory rate, body temperature and any other pertinent clinical parameters necessary. The limbs may be palpated or lifted to examine a suspected abnormality. However, an examination for any lameness (i.e. flexion tests or a trot-up) is not part of this examination. A record of the clinical findings must be made which should follow the horse through successive examinations and inspections.

2.4 If the veterinarian's opinion is that the horse should not be allowed to be in contact with the other participants or should not take part in the event, the case must be referred to the Ground Jury and the Veterinary Commission/Delegate for a final decision.

3. Horse Inspections (VR Article 1011)

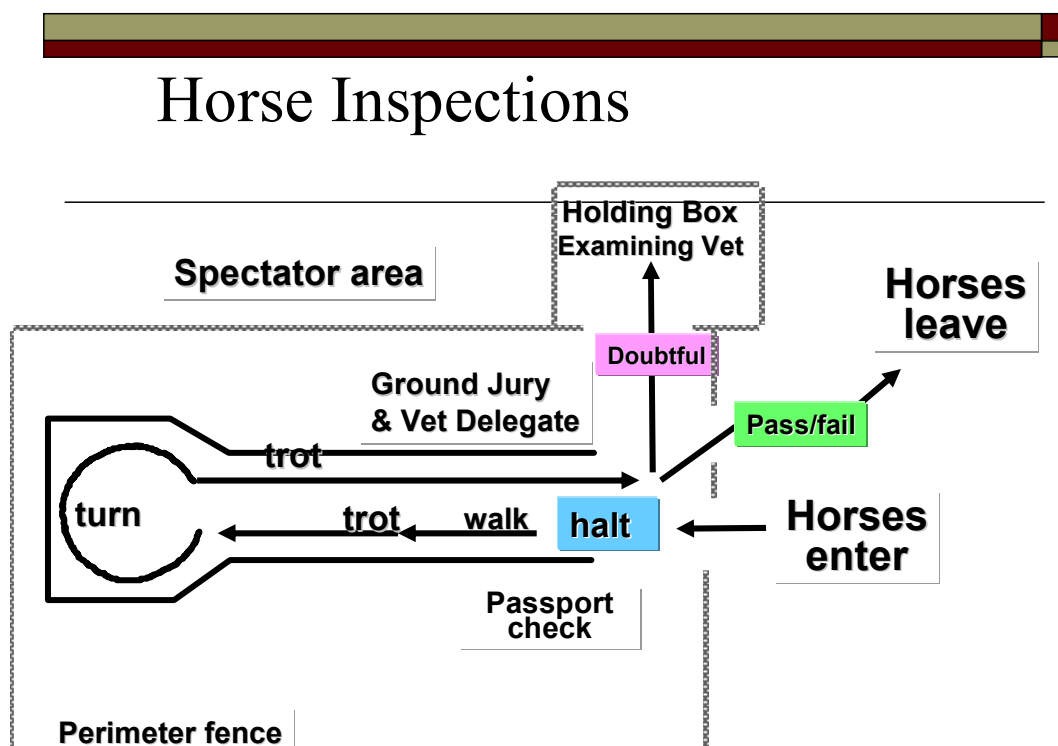

3.1 The aim of the standardised Horse Inspection protocol is to ensure the 'fitness to compete' of horses taking part in FEI competitions by providing the same objective protocol for all disciplines except Endurance Riding (see 9.1).

3.2 Horse Inspections are not intended to be of an equivalent standard to a veterinary examination for soundness or a pre-purchase evaluation.

3.3 The specific level of fitness required to pass Horse Inspections may vary between disciplines and even within some disciplines (e.g. 1st and 3rd Horse Inspections in Eventing).

3.4 The implementation of the 'fitness to compete' principle is essential to the fairness and objectivity of these inspections.

3.5 The decisions at a Horse Inspection (i.e. accept/not accept or referred to the Holding Box) must be made by a panel of judges and veterinarians (i.e. the Inspection Panel).

Walk 10 meters
 Trot on loose rein 40 meters
 Turn to the right (counter clockwise)
 Trot back on loose rein 50 meters

HORSE PASSPORTS (VR ANNEX XIV)

EVERY HORSE ENTERED FOR ANY COMPETITION AT CR11* AND 2* IN A FOREIGN COUNTRY, AND ALL HORSES ENTERED FOR CR153* AND 4* AND CHAMPIONSHIPS WHETHER AT HOME OR IN FOREIGN COUNTRIES, MUST HAVE AN OFFICIAL FEI PASSPORT, OR A NATIONAL PASSPORT APPROVED BY THE FEI, AS A MEANS OF IDENTIFICATION AND TO ESTABLISH OWNERSHIP.

HORSES TAKING PART IN CR151* AND 2* AND IN COMPETITIONS LIMITED TO HORSES FROM THE HOST NATION OR WHERE NO FOREIGN HORSES ARE TAKING PART, ARE NOT REQUIRED TO HAVE A PASSPORT. ALL SUCH HORSES MUST BE PROPERLY REGISTERED AND UNLESS THERE IS NO NATIONAL REQUIREMENT FOR VACCINATION IN THE HOST COUNTRY OF ORIGIN, ALL HORSES MUST HAVE A VALID VACCINATION CERTIFICATE.

COMPLETION OF PASSPORTS

1. A passport, which must be extended every four years, in accordance with section VII of this Annex, must remain with the horse throughout its life and must accompany it at all times.

2. National Federations are responsible for issuing FEI passports and must transmit the following information to the FEI before they receive the FEI passport number:

2.1 Original horse name, and/or current horse name;

2.2 UELN and/or MICRPCHIP number;

2.3 Sex, color and date of birth of the horse;

2.4 Name, nationality and address of the owner(s);

2.5 Copy of the description/diagram;

3. National Federations are also responsible to transmit the following changes without delay:

3.1 Change of the National Federation administering;

3.2 Change of owner and nationality;

3.3 Change of name of the horse or the addition of a second (commercial) name;

3.4 Changes in the description and diagram page, (e.g. castration)

4. The horse must be present when the description and the marking of the diagram in the passport is completed. Only veterinarians approved by the National Federation are authorised to complete this page and the description must be in accordance with the FEI booklet on Identification of Horses.

5. The National Federation is required to enter name and address of owner(s) of the horse and the owner must sign the passport where specified (Please refer GR Art. 141). National Federations should also be aware of European Commission or other national or international legislation relating to identification of horses.

6. National Federations must inform owners that they are responsible for any special entries required to be made, such as recording the full equine influenza vaccination history of the horse (see point 11) in accordance with the ruling currently in force. The vaccination history entered in the passport must be dated, stamped and signed by the veterinarian who vaccinated the horse.

7. The passport completed by the National Federation approved veterinarian must be returned to the National Federation to be checked, authenticated by the signature of an official of the National Federation and the National Federation's official stamp and be recorded by the National Federation.

8. For passports and recognition cards, National Federations are obliged to make two photocopies of the description diagram, retain one and send the second copy to the FEI for registration and record purposes.

9. Owners

9.1. Residents abroad and whose horses are kept in their country of residence must apply to the National Federation of their country of residence for passports, in accordance with the procedure laid down in this section. The National Federation of the owner's country of residence must inform the owner's home National Federation of such action.

9.2. Owners living in their own country whose horses are kept in a foreign country must apply to the National Federation of the country where the horses are kept for the issue of a passport or the validation of a national passport with recognition card.

10. The passport should be held by the Person Responsible or the person accompanying the horse, but it must be returned to the National Federation for endorsement in the following cases:

10.1. Change of ownership. The new owner is responsible for informing and sending the passport to the National Federation for registration.

10.2. Change of name of the horse or the addition of a second (e.g. commercial as a pre or a suffix) name.

10.3. The endorsement of any changes in the description and diagram page.

10.4. Death of the horse.

11. Vaccination history: The horse's vaccination history has to be checked by an approved National Federation's veterinarian and, if correct, the following statement may be used: "The vaccination history of this horse is correct to date. Last vaccination on...(enter date)" in the cases mentioned below:

- * Newly issued passports
- * Duplicates

The veterinarian authenticating such a statement has to be the same who filled in the description and diagram pages.

II. NATIONAL PASSPORTS

1. National Federations or National Equestrian Authorities that issue their own passports may apply to the FEI to have their passports approved for use instead of the FEI Passport. The names of countries for which National Passports have been approved will be published in the FEI Bulletin.

2. The completion of approved National Passports must be in accordance with the procedure as laid down in section I. (see FEI booklet Identification of Horses, 4th edition)

3. Following approval, National Passports become International with the addition of an FEI plastic cover and recognition card. Only with such a cover and valid recognition card may a horse compete internationally.

4. At least the sex and colour of the horse must be completed in one of the official FEI languages; it is strongly recommended that for the description of the horse the English language is used.

III. CHANGE OF OWNERSHIP AND NATIONALITY

When a horse is sold to an owner of another nationality, the new owner must send the passport to his National Federation for registration and recording as required in section I. The new National Federation is responsible for informing the FEI, and the original National Federation, of the change of ownership and nationality.

IV. CHANGE OF NAME

1. When the name of a horse is changed, the owner must send the passport to his/her National Federation for recording. The National Federation is responsible for registering the change of name which must be stated in the FEI passport.

2. The Original Name of the horse entered in its passport is the name under which it is first registered with its Studbook National Federation. If the horse's name has been changed before it receives an FEI or FEI Approved Passport, the Original Name must be entered first and must be retained as the Original Name throughout the life of the horse.

V. ISSUE OF DUPLICATE PASSPORT

1. If a passport is lost or irreparably damaged, or if some or all pages are fully completed, a passport marked duplicate may be issued by the National Federation following the procedure in section I (see FEI booklet Identification of Horses 4th edition). The period of validity of the duplicate passport will be for the remaining period of validity of the original passport. The horse retains the same passport number that must be entered by the National Federation in the duplicate passport.

2. If the original passport is found, both passports must be returned to the appropriate National Federation. The original passport will be re-registered and returned to the owner. The duplicate passport is to be destroyed and the FEI duly informed.

VI. EXTENSION OF HORSE PASSPORTS

1. Horse/pony passports are valid for four years after which period they require a revalidation sticker affixed to the front page. Revalidation stickers must indicate the passport number and the expiry date of the sticker.

2. National Federations must order revalidation stickers from the FEI.

3. The validity of the revalidation sticker must be four years.

4. National Federations should make every effort to ensure that Persons Responsible obtain revalidation stickers from their National Federations in due time before their horses compete.

5. The control of revalidation stickers is part of Passport Control conducted by the Veterinary Commission/Delegate at all international events.

6. If a passport does not contain the relevant revalidation sticker the Veterinary Commission/Delegate will instruct the Person Responsible to purchase an revalidation sticker within the succeeding 30 days. This fact will be recorded in the passport and also in the Veterinary Report. The horse will be allowed to compete during this period without penalty. However, under no circumstances will it be permitted to do so following the expiration of the 30 days unless the passport has been correctly extended in the interim.

VII. PASSPORT ISSUING SYSTEM AS FROM JANUARY 2006

As from January 2006, the system for issuing FEI passports or recognition cards by National Federations has been changes. Guidelines for this system can be found on the FEI website, section Members.

STABLE SECURITY/STEWARDING AT INTERNATIONAL EVENTS

THERE ARE TWO LEVELS OF FEI STABLE SECURITY AT REINING EVENTS: MINIMUM AND REDUCED

1. MINIMUM FEI STABLE SECURITY

Requirements for CRI3*, CRI4*s AND CRIOs, Championships and Games refer to Article 1005 of the FEI Veterinary Regulations.

ACCESS CONTROL

A control system must operate at all entrance gates so that there is an efficient and reliable method of identifying those who enter and leave the stable area at any time. Extra vigilance must be used in establishing the identity of persons and reasons for entering the stables during the night.

STEWARDING OF STABLE AREA

At least one stable steward, directly responsible to the Chief Steward, must be present or readily available in the vicinity of the stable area 24 hours a day during the entire duration of the event. He may be assisted by deputies as required. The steward/deputies must regularly patrol the stable area, without establishing any predetermined pattern, to discourage any form of illegal practices or abuses to horses. Any misdemeanours must be reported immediately to the stable steward who must, in turn, report to the Chief Steward. The duty of the stewards is therefore to safeguard the welfare of the horses and to prevent any form of illegal practices.

GROOMS

It is appreciated that grooms wish to remain with their horses during the night. Only grooms duly registered with the Organising Committee are permitted to do so. The Person Responsible must ensure that his/her grooms, or any other authorised persons with access to his/her horses, are familiar with the security and stewarding procedures operating at the event attended.

2. REDUCED STABLE SECURITY

The following provisional measures for minor Reining events (CRI 1* and 2*) and for CRIs outside Western Europe are implemented on an experimental basis and will be reviewed annually.

VR Articles 1005.2.4, 1005.2.5.1 and 1005.2.2 will not apply to CRIs outside Western Europe. However, reduced stable security requirements must always be met.

REQUIREMENTS

1. Horses must be stabled at the venue.
2. Whenever possible, stabling horses from the same country together. The provision of adequate isolation for horses particularly those arriving from other countries. In regard to Equine Influenza, if an event is held in conjunction with a National event (classes), the vaccinated horses must be separately stabled from the non-vaccinated ones.
3. The welfare of horses must not be compromised in any way.
4. Organisers will be required to ensure that the stable area(s) at their events are controlled by Stable Manager(s) and Stewards on a 24 hour basis, to guard against horses getting colic, being cast in their boxes and, e.g. the risk of fire, etc.
5. Security fences and access control will not be compulsory. However, the Veterinary Delegate or the Foreign Judge/Technical Delegate (GR 152.5) have the right to require these measures or that a rope limit be set in order to ensure that vehicles are not parked too close etc. should it be needed for practical reasons.

Simultaneous events

If two events of different categories/disciplines are held simultaneously, the higher level of stable security is automatically required.

3. MOVEMENT THROUGHOUT EVENT GROUNDS

Movement of horses between the stables, practice, grazing and main arena must be strictly controlled. It is appreciated that flexibility will be required depending on the requirements of the facility and/or other disciplines.

4. STEWARDING OF PRACTICE ARENA

The Chief Steward must ensure that all practice arenas are adequately stewarded all the time that they are officially open. He must also ensure that these arenas are subject to random control when they are officially closed.

5. GRAZING AREA

It is recommended that a grazing area be provided at all outdoor events, and that this be subject to random control. If available, horses must only be grazed or walked in hand within this area.

The Foreign Judge/TD at events will be specifically asked to check that the relevant requirements are met as reasonably as can be expected, depending on the discipline, and to indicate clearly any shortfalls, following which consideration may be given to altering the category of the event in future.
