

FEI World Eventing Athletes Rankings 2018

1. POINT ALLOCATION

Points are awarded on a basis related to the star rating of the individual event and a set of points has been devised that rewards the athlete according to the status of the qualifying event and his/her finishing position.

An athlete must complete and achieve the Minimum Eligibility Requirements (MER) in the event in order to receive points.

An athlete's best six scores over the season count towards his/her final position on the table. In order to benefit countries where there are fewer CI events, athletes who enter several horses in an event may score points with each horse.

An athlete may enter events in any Zone in order to gain points and prize money in the Global Rankings. The nationality of the athlete determines in which zone he/she will gain points for the Zone Rankings. At the end of the season, final Global and Zone rankings will be published. In the case of a tie, the best placing at the highest level event will decide. The level of competition is defined according to the above table and not the star level. If this still results in a tie, the second best result of each athlete has to be compared.

As of 1st January 2007 the Rankings will be rolling over a 12 months' period (from the 1st day of the month the year preceding to the 1st day of the following month the year after).

At the end of each month the points earned during that month are added to the list. The points from the same month the previous year are dropped from the list.

An athlete will receive points in the rankings if he has achieved the Minimum Eligibility Requirements in an event.

2. POINT SYSTEM

Points to top 25% of starters in the competition as per current point system (as per prize-money rules).

Each athlete finishing the competition with a MER will receive the same number of points.

	CHs 4*	CHs 3*	CHs 2*	CHs 1*	CCI(O) 1*	CIC(O) 1*
