## EVENTING

The following MIM instruction manuals have been updated:

- Post & Rail Kit – 80321
- Post & Rail Narrow Kit – 80322
- Wall Kit – 80324
- Corner Kit – 80326

In addition, the Frangible Device Chart providing specifications for each device has also been updated.

All information relating to frangible devices is available on the **FEI Eventing – Deformable & Frangible Devices** webpage.

### Eventing Reports

The following reports have been updated:

- Fence Description Form and Instructions for filling in Fence Description Form:  
An additional column “narrow fence (under 2 m between the flags)” has been added to improve the fence type data analysis.
- Fall Report Form:  
Several fields have been removed as these were rarely used for data analysis.
- Fence Diagrams:  
A clarification has been included for House type fences to be classified as “D3”.

The updated forms can be found on the **FEI Eventing - Forms & Downloads** webpage.

## VAULTING

### Testing Free Test Concept

The last online meeting for the Testing Free Test Concept took place on Tuesday, 17 May and was dedicated to evaluating the testing phase and system of the proposed concept.

In her **presentation**, Chair of the FEI Vaulting Technical Committee Pavla Krauspe talked about the structure of the testing phase as well as the different feedback received. She thanked the Judges for their dedication, time and engagement.

Throughout this meeting, the Judges involved in the process had the opportunity to share their point of view and their recommendations with the FEI Vaulting Technical Committee.

All information regarding the Testing Free Test Concept has been published on the dedicated webpage in the **FEI Vaulting** section.
