A Tribute to Queen Elizabeth II, 1926-2022

Equestrian world pays homage to the late Queen...

"Her Majesty Queen Elizabeth II was a true horsewoman and a fervent advocate of equestrian sports throughout her life and reign. Her passion and Her understanding of horses was remarkable, and alongside Her late husband, former FEI President Prince Philip, Duke of Edinburgh and their children and grandchildren, She promoted the values of horsemanship widely. It was an honour for the FEI to present The Queen with the first Lifetime Achievement Award in November 2014 for Her devotion and immeasurable contribution to the equestrian landscape.

"The FEI extends its deepest sympathy to the British Royal Family and joins the equestrian community in

mourning the loss of this remarkable lady.”

FEI President Ingmar De Vos

VETERINARY

Equine Flu Vaccination

The FEI Board has approved a temporary exemption to the FEI Veterinary Regulations in response to the shortage of vaccines in Europe created by supply issues facing Boehringer Ingelheim, a key producer of equine influenza vaccinations.

At its meeting on Thursday 8 September the FEI decided to extend the booster intervals from six to 12 months in combination with increased disease surveillance and a higher level of general biosecurity.

Currently, Article 1003 of the FEI Veterinary Regulations requires Equine Influenza boosters to be given in the six months (+21 days) leading up to a competition, but not within seven days of arrival at the Event.

With the worldwide temporary derogation approved by the FEI Board in effect from 1 October 2022 to 1 April 2023, horses will be eligible to compete at FEI Events with the most recent booster taken within a period of 12 months, but not within seven days of arrival at the Event. All other requirements of Article 1003 must be fulfilled during this period.

For more information, please refer to:

- The detailed press release explaining the modifications [here](#).
- The **Frequently Asked Questions** hub on [Inside.FEI.org](https://www.inside.fei.org)

FEI Equine Prohibited Substance List (EPSL)

During the meeting on 8 September, the FEI Board approved the proposed modifications to the list of FEI Equine Prohibited Substances (EPSL). The updated EPSL will be published on the **Clean Sport Hub** 90 days before it becomes effective.
