## FEI OLYMPIC ATHLETES RANKING LIST - DRESSAGE - 2024 OLYMPIC GAMES

The FEI Olympic Athletes Ranking – Dressage, covering the period of **1 January 2023 to 31 December 2023 included**, will be used to determine respective qualification. The list is restricted to the 4 best results per horse/rider combination in events within the specified period.

### General Principles

The World Dressage Rankings are based on:

- Percentages, scored in international competitions under FEI Rules.
- All Grand Prix level competition results will count from each international CDI3\*/4\*/5\*/CDI-W/CDIO3\*/4\*/5\* and Continental Championship event (GP, **Short GP**, ~~or~~ GP Special or GP Freestyle) with a maximum of one result per event.
- Grand Prix Consolation results (which have to be clearly marked in the schedule and result lists) will not be taken into account.

### Calculation of the Olympic Ranking List

The ranking list is calculated over a period of one year, from 1 January ~~2019-2023~~ to 31 December ~~2019~~2023.

At the end of each month the points earned during that month are added to the list.

The FEI Olympic Ranking List is a ranking list of horse/rider Combination. The ranking list takes into consideration the best results/percent scores of the horse/rider Combination.

### Point System

The scores obtained in a maximum of 4 tests per year will count.

The points for the ranking are obtained by adding the 4 best scores related to the qualification period (expressed in Olympic Ranking Points as under mentioned, the percentages will count with the first digit behind the comma, for example see Olympic Ranking Points 160 - 170).

In the case of tie points the horse/rider combination with less counting results is in front of the other(s), if both have the same amount of counting results, the horse/rider combination with the best single result is in front of the other(s).
