Dear [REDACTED],

Thank you very much for forwarding these lists.

I can only imagine how overwhelmed you must be today.

We will start with the tracing of these horses but we will need the list of those that left during this week, I imagine mostly today, since those horses are at high risk of spreading the virus. We would then appreciate if you would update us daily regarding the horses that may leave during the upcoming days.

If it is possible to provide these lists in Excel/CSV format it would be most helpful as it would speed up the process.

As the next steps:

- provide the stable plan, with the isolation, monitoring and circulation protocols for the upcoming days. As soon as these are in place, it will allow us to establish a day 0 within the venue in terms of control of the outbreak and plan on top of that.
- Update us on the number of horses that developed symptoms (fever, neurological signs, etc)
- Update us on the lab results

Don't hesitate to contact us should you have any enquiry.

Kind regards,
Gonçalo

Subject: List of horses

Dear [REDACTED],

In face of the current outbreak situation in Valencia, there are some mitigation measures that we need to put in place. In order to do this we would appreciate if you could provide us with the following data:

- List of all the horses that have been in the Venue since February 1st 2021
- Information of those horses that have left the Venue since February 1st until now, including the date in which they left the venue.

I have also asked the Veterinary Delegate for the Stable Plan, location of symptomatic horses, Isolation and monitoring protocols.

Thank you for your cooperation, I will be available should you need anything from our side.

Kind regards,

Gonçalo Paixão
