

CLASSIFICATION AT TOKYO 2020 PARALYMPIC GAMES

The FEI would like to remind National Federations that no Classification will take place at the Tokyo 2020 Paralympic Games. NFs are responsible to make sure that their Athletes meet Classification eligibility criteria and that all details on the [FEI Classification Masterlist](#) are correct.

Status requirements

As per the FEI Regulations for Equestrian Events at the Paralympic Games, to be eligible for selection by an NPC, Athletes must be internationally Classified with a "Confirmed" status or a status of "Review with Fixed Review Date" with a review date after 31 December 2020. Athletes with a status of "Review" with no date will not be eligible for selection. National Federations must be aware that the Classification Status needs to be in order by the Nominated Entries date of **19 June 2020**.

Please note that a rule revision proposal for 2020 will mean that Athletes with a "Review" or "Review with fixed Review Date" status must be competing at the event to be reviewed by Classifiers.

NFs with potential qualifying Athletes, who have a "Review with fixed Review Date" status, where the date falls between 19 June 2020 and 31 December 2020, must contact the [FEI Para Dressage Department](#).

Compensating Aids Requirements

We would like to remind NFs and Athletes that they are responsible to make sure the correct compensating aids are listed on the FEI Classification Masterlist. As no classifiers will be present at the Tokyo 2020 Paralympic Games, Athletes may only use the profile-specific and non-standard compensating aids that are listed correctly on the Masterlist. We urge all Athletes and NFs to check that the Masterlist shows the compensating aids that they wish to compete with, as strictly no additions or changes will be made at the Games.

For any questions, please do not hesitate to contact the [FEI Para Dressage Department](#).
