THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The FEI requires all those involved in international equestrian sport to adhere to the FEI Code of Conduct and to acknowledge and accept that at all times the welfare of the Horse must be paramount. Welfare of the Horse must never be subordinated to competitive or commercial influences. The following points must be particularly adhered to:

1. General Welfare:

a) Good Horse management

Stabling and feeding must be compatible with the best Horse management practices. Clean and good quality forage, feed and water must always be available.

b) Training methods

Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to methods which are abusive or cause fear.

c) Farriery and tack

Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.

d) Transport

During transportation, Horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent personnel. Competent handlers must always be available to manage the Horses.

e) Transit

All journeys must be planned carefully, and Horses allowed regular rest periods with access to food and water in line with current FEI guidelines.

2. Fitness to compete:

a) Fitness and competence

Participation in Competition must be restricted to fit Horses and Athletes of proven competence. Horses must be allowed suitable rest period between training and Competitions; additionally rest periods should be allowed following travelling.

b) Health status

No Horse deemed unfit to compete may compete or continue to compete; veterinary advice must be sought whenever there is any doubt.

c) Doping and Medication

Any action or intent of doping and illicit use of medication constitutes a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before Competition.

d) Surgical procedures

Any surgical procedures that threaten a competing Horse's welfare or the safety of other Horses and/or Athletes must not be allowed.

e) Pregnant/recently foaled mares.

Mares must not compete after their fourth month of pregnancy or with foal at foot.

f) Misuse of aids

Abuse of a Horse using natural riding aids or artificial aids (e.g. whips, spurs, etc.) will not be tolerated.

FEI Code of Conduct for the Welfare of the Horse

3. Events must not prejudice Horse welfare:

a) Competition areas

Horses must be trained and compete on suitable and safe surfaces. All obstacles and Competition conditions must be designed with the safety of the Horse in mind.

b) Ground surfaces

All ground surfaces on which Horses walk, train or compete must be designed and maintained to reduce factors that could lead to injuries.

c) Extreme weather

Competitions must not take place in extreme weather conditions that may compromise welfare or safety of the Horse. Provision must be made for cooling conditions and equipment for Horses after competing.

d) Stabling at Events

Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the Horse. Washing-down areas and water must always be available.

4. Humane treatment of Horses:

a) Veterinary treatment

Veterinary expertise must always be available at an Event. If a Horse is injured or exhausted during a Competition, the Athlete must stop competing and a veterinary evaluation must be performed.

b) Referral centres

Wherever necessary, the Horse should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured Horses must be given full supportive treatment before being transported.

c) Competition injuries

The incidence of injuries sustained in Competition should be monitored. Ground surface conditions, frequency of Competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.

d) Euthanasia

If injuries are sufficiently severe a Horse may need to be euthanised by a veterinarian as soon as possible on humane grounds, with the sole aim of minimising suffering.

e) Retirement

Horses must be treated sympathetically and humanely when they retire from Competition.

5. Education:

The FEI urges all those involved in equestrian sport to attain the highest possible levels of education in areas of expertise relevant to the care and management of the Competition Horse.

This Code of Conduct for the Welfare of the Horse may be modified from time to time and the views of all are welcomed. Particular attention will be paid to new research findings and the FEI encourages further funding and support for welfare studies.

CHAPTER III – DRESSAGE

Article 627 – RULES FOR THE DRESSAGE COMPETITIONS

1. General

The Team Dressage Competition and the Individual Dressage Competition are conducted in accordance with the FEI Dressage Rules with the addition to specific regulations listed below. The tests are those of the FEI Grand Prix, the FEI Grand Prix Special and the FEI Grand Prix level Freestyle test respectively in force at the time of the Olympic Games.

Music

NOCs must provide the completed Music Submission Form (attached as Annex I to these Olympic Regulations) for each of their Athlete's FEI Grand Prix Special to music and FEI Grand Prix Freestyle test when entering their Athletes via the Tokyo 2020 Sports Entries system.

2. Participation in Dressage Competitions

2.1. Teams

An NF/NOC having obtained eligibility and qualification according to Olympic Games eligibility and qualification procedure may enter a team composed of three (3) Athlete/Horse combinations with all three (3) results from the Grand Prix Special to music to count for the team classification.

2.2. Individuals instead of Teams

NFs/NOCs having obtained eligibility and qualification according to Olympic Games eligibility and qualification procedure to enter one (1) individual may enter such individual with one Horse each.

2.3. Reserve Athletes/Horses

One (1) P Alternate Athlete/ Reserve Horse will be permitted per directly qualified NF/NOC Team. See Article 609 above.

3. Competitions

3.1. FEI Grand Prix - Team and Individual Qualifier

The FEI Grand Prix test, in which all Athletes must participate, is the qualifying competition for the individual competition (FEI Grand Prix Freestyle) and the team competition (FEI Grand Prix Special to music).

Athletes compete in six (6) groups, with three (3) groups competing on the first day and the remaining three (3) groups on the second day. The composition of the groups are based on the FEI World Ranking List position of the Athlete/Horse combination on the date of definite entries (see Dressage Rules Article 456.1)

Two from each group, plus the next best six (6) ranked Athletes (overall best results) qualify for the FEI Grand Prix Freestyle. If a qualified Athlete/Horse drops out, the vacant spot is filled by the next best ranked Athlete.

In case of a tie, the highest and lowest total scores for each Athlete will be added and divided by two, with the highest score deciding on the tie. If the tie cannot be broken, the second highest and second lowest total scores for each Athlete will be added and divided by two with the highest score deciding on the tie. If the tie is still not broken, the third highest and third lowest total scores for each Athlete will be added and divided by two, with the highest score deciding on the tie. If the tie cannot be broken, it will be decided by a draw.

All Teams receive a qualification ranking after the FEI Grand Prix by adding up the three (3) results per team. The top eight (8) ranked Teams (including those tied for the 8th place), qualify for the Team competition, FEI Grand Prix Special to music.

3.2. FEI Grand Prix Special to music (Team Final)

The FEI Grand Prix Special is the Team competition. The FEI Grand Prix Special to music is limited to and compulsory for the best eight (8) placed teams of the FEI Grand Prix, including those tied for 8th place. No individual Athletes are allowed.

If one Team drops out before the start of the competition, it is replaced by the next ranked Team up to two (2) hours before the start of the FEI Grand Prix Special. In the case where more than eight (8) teams qualify for the FEI Grand Prix Special due to a tie, if a team should drop out before the start of the competition, and eight (8) teams remain qualified, no additional teams will move up and participate.

The Athlete must deliver his Grand Prix Special music to the OC but it will not be judged in the Grand Prix Special competition.

A rest day to be scheduled, preferably between Competitions two (2) and three (3).

Substitutions: During the period between the Team Qualifier (Grand Prix) and up to two hours before the start of the Team Final (Grand Prix Special to music), the Chef d'Equipe may substitute an Athlete/Horse combination with the P Alternate Athlete/Reserve Horse in the event of an accident or illness of an Athlete and/or Horse, on presentation of the appropriate Medical/Veterinary certificate. The Reserve Horse must have passed the first Horse Inspection.

In all cases of substitution, the P Alternate Athlete/Reserve Horse combination will fill the space of the substituted combination but will not be entitled to compete in the FEI Grand Prix Freestyle (Individual Final).

3.3. FEI Grand Prix Freestyle test - Individual Final Competition

The FEI Grand Prix Freestyle test is the Individual Final Competition which is open to 18 combinations qualified from the FEI Grand Prix, composed of the top two (2) combinations from each of the 6 groups and the combinations with the six (6) next highest scores (overall best of the rest).

In case a qualified Athlete/Horse combination drops out of the FEI Grand Prix Freestyle, the vacant spot is filled by the next highest placed Athlete/Horse combination (i.e. number 7) of the FEI Grand Prix to fill the number of combinations allowed up to two hour before the start of the FEI Grand Prix Freestyle.

4. Draw and starting order

4.1 FEI Grand Prix (Team and Individual Qualifier)

The draw for the order of starting in the FEI Grand Prix Competition which includes both teams and individual Athletes will be computerised (manually controlled).

The draw of the FEI Grand Prix Competition takes place after the Horse Inspection, preferably two (2) days but not later than one (1) day before the start of the Team Competition.

The starting order for the FEI Grand Prix is based on the FEI World Ranking List position of the Athlete/Horse combination on the date of definite entries (positions shown in the table below).

Athletes compete in six (6) groups, with three (3) groups competing on the first day and the remaining three (3) groups on the second day. Maximum two (2) Athletes per NF may start per day, maximum one (1) per NF per group.

Should an NF have three (3) Athletes on day one (1), the highest ranked of them must be moved to day two (2), and the lowest ranked Athlete on day two (2) (from any NF) must be moved to day one (1). Vice versa, if an NF has three Athletes on day two (2), the lowest ranked must be moved to day one (1) and the highest ranked Athlete of day one (1) from any NF be moved to day 2.

Day 1			Day 2		
Group A	Group B	Group C	Group D	Group E	Group F
60	58	56	59	57	55

18	16	14	17	15	13
12	10	8	11	9	7
6	4	2	5	3	1

4.2 FEI Grand Prix Special to music (Team Final)

The starting order for the FEI Grand Prix Special to music is determined in three (3) groups of eight (8) Athlete/Horse combinations each. One Athlete per NF will start in each group. The Group distribution is based on the reverse order of the ranking of the FEI Grand Prix overall results. In the first and second group, team Athletes will start in reverse order of the FEI Grand Prix team overall results. After the first and second group have competed, an intermediate team standing will be established and a longer break (recommended is 90 minutes) is scheduled before the start of the third group. In the third group, team Athletes will start in reverse order of the intermediate FEI Grand Prix Special team standing (based on results of team Athletes after the second group).

4.3 FEI Grand Prix Freestyle (Individual Final)

The starting order for the Grand Prix Freestyle Test is determined by a draw within three (3) groups of six (6), with the group of Athletes placed 13-18 highest in the Grand Prix starting first and finishing with the group of Athletes placed 1-6 highest.

5 Classification of the Competitions

5.1 Teams

Only the Grand Prix Special to music Competition counts towards the Team classification.

The total score for the classification is obtained by adding the total points on each of the Judges' sheets, eventually corrected for changes by the JSP.

Ties: in the case of equality of points the winning team is the one (1) whose lowest classified team Athlete in the Grand Prix Special to music has the best result in the Grand Prix Special to music. At the discretion of the Technical Delegate, depending on the size of the arena, the speed may be reduced to 375 m per minute.

Athletes who are eliminated or who retire from the Competition will be awarded four (4) Penalties more than the lowest placed Athlete who has completed the round; this calculation will therefore not be carried out until the conclusion of the Competition. If the eliminated or retired Athlete has himself obtained the highest number of Penalties before being eliminated or retiring, four (4) Penalties will be added to the number of Penalties he had accumulated at the time of his elimination or retirement. The ten teams with the most points will be placed in the group that starts last and the ten teams with the least points will be placed in the group that starts first. Teams that tie on points for 10th place remain in the last group. If a nation is not listed on the FEI Nations Cup Ranking it will be placed in the group that starts first. The teams will be divided among the two groups; in case of an odd number of teams, the group starting last will have one more team than the group starting first. The starting order of teams within the groups will be established according to a draw in the presence of the Ground Jury, the Foreign Technical Delegate and the Chefs d'Equipe. The starting order of team members within each team is established by the Chefs d'Equipe after the draw, at a time fixed by the OC.

7.5 Team Placing in the First Team Competition

Teams receive their placing in the First Team Competition by adding the Penalties incurred by the three Athletes in each team. Teams with equality of Penalties for the last qualification place for the Team Final will be separated by the combined times of their three Athletes. NB: Athletes eliminated or who have retired in the First Team Competition will not have a recorded time for their round. If a team with an eliminated or retired Athlete is tied on Penalties with a team in which all three (3) Athletes have completed the Competition, the team with the eliminated or retired Athlete will be placed after the team with the three (3) Athletes that have completed the Competition without being eliminated or retiring.

If there are teams tied on Penalties and time for second or third place, a jump-off will be held to determine the respective medal placing. In case of a jump-off against the clock for third place and a jump-off for first place, the jump-off for third place will be held before the jump-off for first place.

Athletes who are eliminated or who retire from the Competition will be awarded four (4) Penalties more than the lowest placed Athlete who has completed the round; this calculation will therefore not be carried out until the conclusion of the initial round, respectively the jump-off. If the eliminated or retired Athlete has himself obtained the highest number of Penalties before being eliminated or retiring, four (4) Penalties will be added to the number of Penalties he had accumulated at the time of his elimination or retirement. In case of disqualification of any of the Athletes and/or Horses taking part in the Competition the entire team in question is disqualified and may take no further part in the Competition, this does not apply to the jump-off.

8.3 Participation

The Team Final is open only to the ten (10) best placed teams in the First Team Competition (three Athletes per team). In case of teams tied on Penalties for the last qualification place for the Team Final, the combined times of each team's three (3) Athletes will be the determining factor to break the tie. NB: Athletes who have been eliminated or who has retired in the First Team Competition will not have a recorded time for their round. If a team with one or more eliminated or retired Athlete(s) is tied on Penalties with a team in which all three (3) Athletes have completed the Competition, the team with the eliminated or retired Athlete(s) will be placed after the team with the three (3) Athletes that have completed the Competition without being eliminated or retiring. If there are teams tied on Penalties for the last qualification place for the Team Final with one (1) eliminated or retired Athlete each, they will be separated by the combined times of their two (2) Athletes who completed the Competition; if each team has two (2) eliminated or retired Athletes, they will be separated by the time of their Athlete who completed the Competition. If one of the teams tied for the last qualification place has one (1) eliminated or retired Athlete and the other team has two (2), the team with two (2) eliminated or retired Athletes will be placed after the team with one (1) eliminated or retired Athlete. If after taking into consideration the combined times of each team's three Athletes there are teams tied on Penalties and time for 10th place in the First Team Competition, both teams will be allowed to participate in the Team Final.

Teams that withdraw before the start of the Team Final will not be replaced.

All teams taking part in the Team Final start with zero Penalties.

8.4 Starting Order

The starting order in the Team Final is according to the reverse order of classification in the First Team Competition. Teams with equality of Penalties will be separated by the combined times of their three Athletes. NB: Athletes eliminated or retiring in the First Team Competition will not have a recorded time for their round. If a team with an eliminated or retired Athlete is tied on Penalties with a team in which all three (3) Athletes have completed the Competition, the team with the eliminated or retiring Athlete will start before the team with the three (3) Athletes that have completed the First Team Competition without being eliminated or retiring. If after taking into consideration the combined times of each team's three Athletes there are teams with equality of Penalties and time, teams retain the same starting order as in the first Team Competition. The starting order of team members within each team is established by the Chefs d'Equipe at a time fixed by the OC.

After the first two Athletes of all teams have taken part, there must be a ten minute break in the Competition programme. An intermediate classification of the teams will be established and used to determine the starting order of each team's third Athlete. The starting order for the third Athletes will be according to the reverse order of this intermediate classification of the teams, so that the leading team's third Athlete starts last, the second best team's third Athlete starts next to last, and so on. In case of a tie on penalties the initial starting order applies.

8.5 Team Placing in the Team Final

Teams are placed according to the Penalties incurred by the three Athletes in each team in the Team Final.

Chapter IV - Jumping

In the event of teams tied on Penalties for first place in the Team Final, there will be a jump-off against the clock. In the event of teams tied on Penalties for any other placing, the teams are placed according to the combined Penalties and times of their three Athletes in the Team Final. NB: Athletes eliminated or retiring in the Team Final will not have a recorded time for their round. If a team with one (1) or more eliminated or retired Athlete(s) is tied on Penalties with a team in which all three (3) Athletes have completed the Competition, the team with the eliminated or retired Athlete(s) will be placed after the team with the three (3) Athletes that have completed the Competition without being eliminated or retiring. If there are teams tied on Penalties with one (1) eliminated or retired Athlete each, they will be separated by the combined times of their two (2) Athletes who completed the Competition; if each team has two (2) eliminated or retired Athletes, they will be separated by the time of their Athlete who completed the Competition. If one of the teams tied on Penalties has one (1) eliminated or retired Athlete and the other team has two (2), the team with two (2) eliminated or retired Athletes will be placed after the team with one (1) eliminated or retired Athlete.

If there are no more than two teams tied on Penalties for first place and there are teams tied on Penalties and time for third place, there will also be a jump-off against the clock for third place; this jump-off will take place before the jump-off for first place. If there are no teams tied on Penalties for first place but there are teams tied on Penalties and time for second or third place, there will be a jump-off against the clock to decide the respective medal placing.

8.6 Jump-off

8.6.1 Participation

All three Athletes of teams tied on Penalties for first place, or of teams tied on Penalties and time for second or third place, if applicable, may take part in the respective jump-off, but only the score of the best Athlete of each team will count. Chefs d'Equipe may select the rotation order of their three Athletes in the jump-off; this does not have to be the same rotation order as in the Team Final. Substitutions are not allowed in the jump-off.

Athlete/Horse combinations of teams taking part in the jump-off will prepare for the jump-off in a designated section of the Competition arena, which will be cordoned off prior to the start of the Team Final.

8.6.2 Obstacles, Speed

The jump-off(s) will be conducted against the clock at a speed of 400 m per minute. At the discretion of the Technical Delegate, depending on the size of the arena, the speed may be reduced to 375 m per minute.

The course of the jump-off consists of at least six (6) obstacles, including a combination.

The height of the obstacles must vary between 1.40 metres minimum and 1.65 metres maximum, with a proportionate spread between 1.50 metres minimum and 2 metres maximum (2.20 metres for the triple bar). A maximum of two (2) spread obstacles with a width of 1 metre or less may be used.

If the teams have completed the Team Final without penalties, the obstacles may be raised and/or increased in spread.

If the teams have completed the Team Final with penalties, the Ground Jury may decide whether to raise the obstacles and/or increase them in spread.

8.6.3 Starting Order

The preliminary starting order of teams in the jump-off for first place will be determined based on the combined times of each team's three Athletes in the Team Final, the team with the slowest combined time starting first. The starting order of teams in the jump-off for second or third place, if applicable, is according to the starting order in the Team Final.

Chapter IV - Jumping

An intermediate classification of the teams will be established after all teams' first Athletes have taken part and after all teams' second Athletes have taken part. This intermediate classification will be used to determine the starting order of each team's second, respectively third, Athlete. The starting order for the teams' second Athletes will be according to the reverse order of the intermediate classification after the teams' first Athletes have taken part and the starting order for the teams' third Athletes will be according to the reverse order of the intermediate classification after the teams' second Athletes have taken part, so that for each line of Athletes the leading team's third Athlete starts last, the second best team's third Athlete starts next to last, and so on.

8.6.4 Team Placing in the Jump-off

Teams in the jump-off are placed according to the Score (penalties and time) of their best Athlete in the jump-off.

The team with the Athlete who has obtained the best Score in the jump-off for first place will be placed first and declared Olympic Champion.

If after the jump-off there is equality of Penalties and time for one of the first three places, the teams concerned will be placed equal.

These places will be allocated to the NOC of the next highest ranked Athletes from the overall FEI Olympic Ranking – Jumping, excluding NOCs that have already accepted a team quota place, and provided that the NOC has at least one (1) Athlete/Horse combination that fulfils the Minimum Eligibility Requirements by the MER Deadline.
