

FEI COMMUNICATION V

Dear Tokyo 2020 ITO/NTOs and Staff travelling from UK,

We would like to make you aware that the Japanese government have made changes to the list of at risk countries, and UK will no longer be on the list from 14 August.

As such, this means that from 14 August, you no longer have to follow the testing requirements for Group 2, but you can follow the standard testing procedures as set out in the "Before you Travel" section of the [CLO Hub](#):

ALL EXCEPT GROUPS 1&2

Two Covid-19 tests, on two separate days, within/less than 96 hours of the departure of your flight to Japan (first international flight if you are on an indirect route).

At least one of the two tests must be taken within/less than 72 hours of departure.

There must be full 24 hours between the 2 tests.

The [FAQ](#) has been updated to reflect this change, and can give you even more information. We recommend that you pack any spare tests with you to have in Tokyo in case they are needed for your departure from Tokyo.

Please let us know if you have any questions.

Best regards,

Your FEI Covid-19 Liaison Officer team
