

FEI Para Driving Compensating Aids Photo List

Standard Compensating Aids	
<p>Standard Compensating Aids are aids or equipment, other than approved harness, carriages or equipment as outlined in the FEI Driving Rules, which may be used by the athletes across all functional profiles. Standard compensating Aids are allowed to be used by all Athletes and must be noted on the master list following Classification evaluation.</p>

<p>Whip held/used by Groom</p>	
<p>Brake operated by Groom</p>	
<p>Strap on feet or foot trough</p>	
<p>Groom holds finger loop</p>	

Non-Standard Compensating Aids

Non-Standard compensating aids are aids, other than those above, required by an individual athlete and not described specifically in the rules. The aid is prescribed specifically for the athlete to enable them to drive without providing an advantage over other athletes within the same Profile or Grade. These aids may include modifications to a Standard or Profile-specific Compensating aid, or a piece of non-Standard equipment custom-made for the athlete. The use of a non-standard compensating aid must be approved by the Para Driving working group.
