

## Courses for National Coaches According to the FEI Coach Education Programme Level 2 Course for Coaches

**Quillota (CHI):** 16-21 August 2022  
FEI Tutor: Jaime Morillo (ECU)

The course was held at the facilities of the Chilean Army Riding School in Quillota, where the next 2023 Pan American Games will take place.

Mr. Jaime Morillo acted as Tutor, with 9 students, of whom were 6 men and 3 women, of which 2 were foreigners.

The facilities of this School are of very good quality and allowed the development of the course without observations.

Also participating as observers were 9 students from the Army's equestrian masters course, who also had the task of being the students in the classes of those attending the course, in the disciplines of jumping and dressage.

The FECh is very satisfied with the realization of this course since there were many students who previously attended a Level 1 course, who had the aspiration to level up, consistent with the above. We hope to do another course of this level in the first quarter of 2023, to have a solid base to have more coaches at level 3 in Chile.

The tutor, Jaime Morillo, had an outstanding performance, showing all his experience, not losing a single minute of teaching activity, managing to involve and get the best out of each of the students in this course, achieving results of very good quality, hoping that they will be reflected in their career as coaches in our country and abroad.

The FECh appreciates the efforts of the FEI and COCh, for the benefit of the coaches who want to dedicate themselves professionally to this activity.

Mario Fuentes Busch  
FECh Technical Manager
