

CRISIS MANAGEMENT PLAN

General Information

A crisis is a major, unpredictable event that threatens to harm an organisation and its stakeholders.

Crisis management is the systematic attempt to avoid organisational crises or to manage those crises that do occur.

This document contains a brief summary of how crises shall be managed at the FEI Events.

The press officer(s) for the relevant Events and the FEI media communications team will follow a detailed Crisis Management Protocol, which is contained in a separate document and is a step-by-step guide intended for “instant action” when a crisis occurs.

The step-by-step guide covers vital areas, including:

- how to nominate and set up the Crisis Management Team (CMT)
- establish the chain of command well in advance of competition
- draw up contact details for the CMT

The guide also covers key procedures and help with issuing initial statements and logging detail.

It is intended to supplement any national procedures. There may be varying national requirements to report injuries/fatalities that are not covered in this document.

There are three basic types of crisis that could occur during the event:

- A. Veterinary/Judicial/Animal Activists related problems
- B. General organisational related problems: e.g. spectator accident
- C. Competition-related problem: e.g. major horse/rider accident during the competition

Crisis Management responsibilities

At major multi-discipline games/championships, the FEI Discipline Director is responsible for setting up a general cross functional crisis management plan.

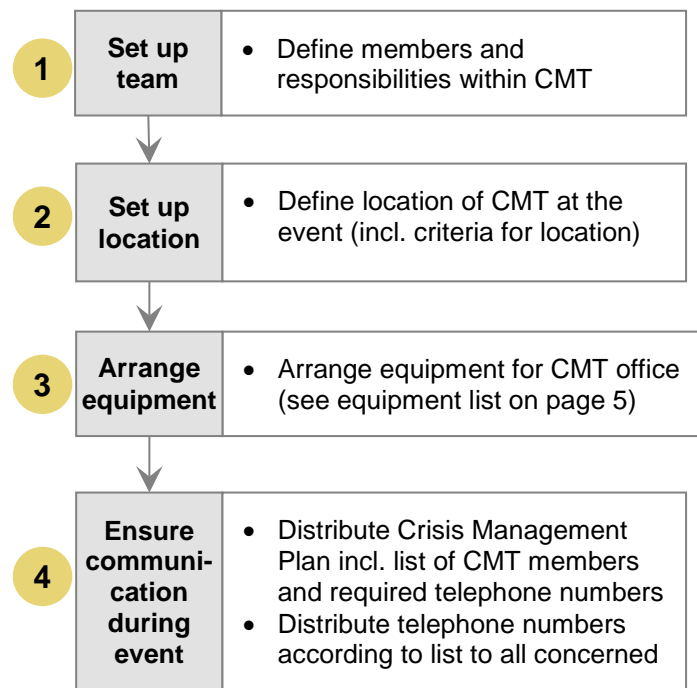

FEI Event	Responsibilities	Pattern
FEI Events	<ol style="list-style-type: none"> 1. <u>FEI Discipline Director</u> 2. <u>Technical Delegate (TD)</u> 3. <u>Organiser (Chair of OC)</u> 4. <u>President of Ground Jury</u> 5. <u>President of Veterinary Commission</u> 	The organiser is obliged to use the following Crisis Management Plan, incl. the set up of the Crisis Management Team and to follow the procedures as professionally as possible. The FEI Discipline Director and the TD are responsible for putting everything in place as indicated in this guide.

Set up of Crisis Management Team (CMT)

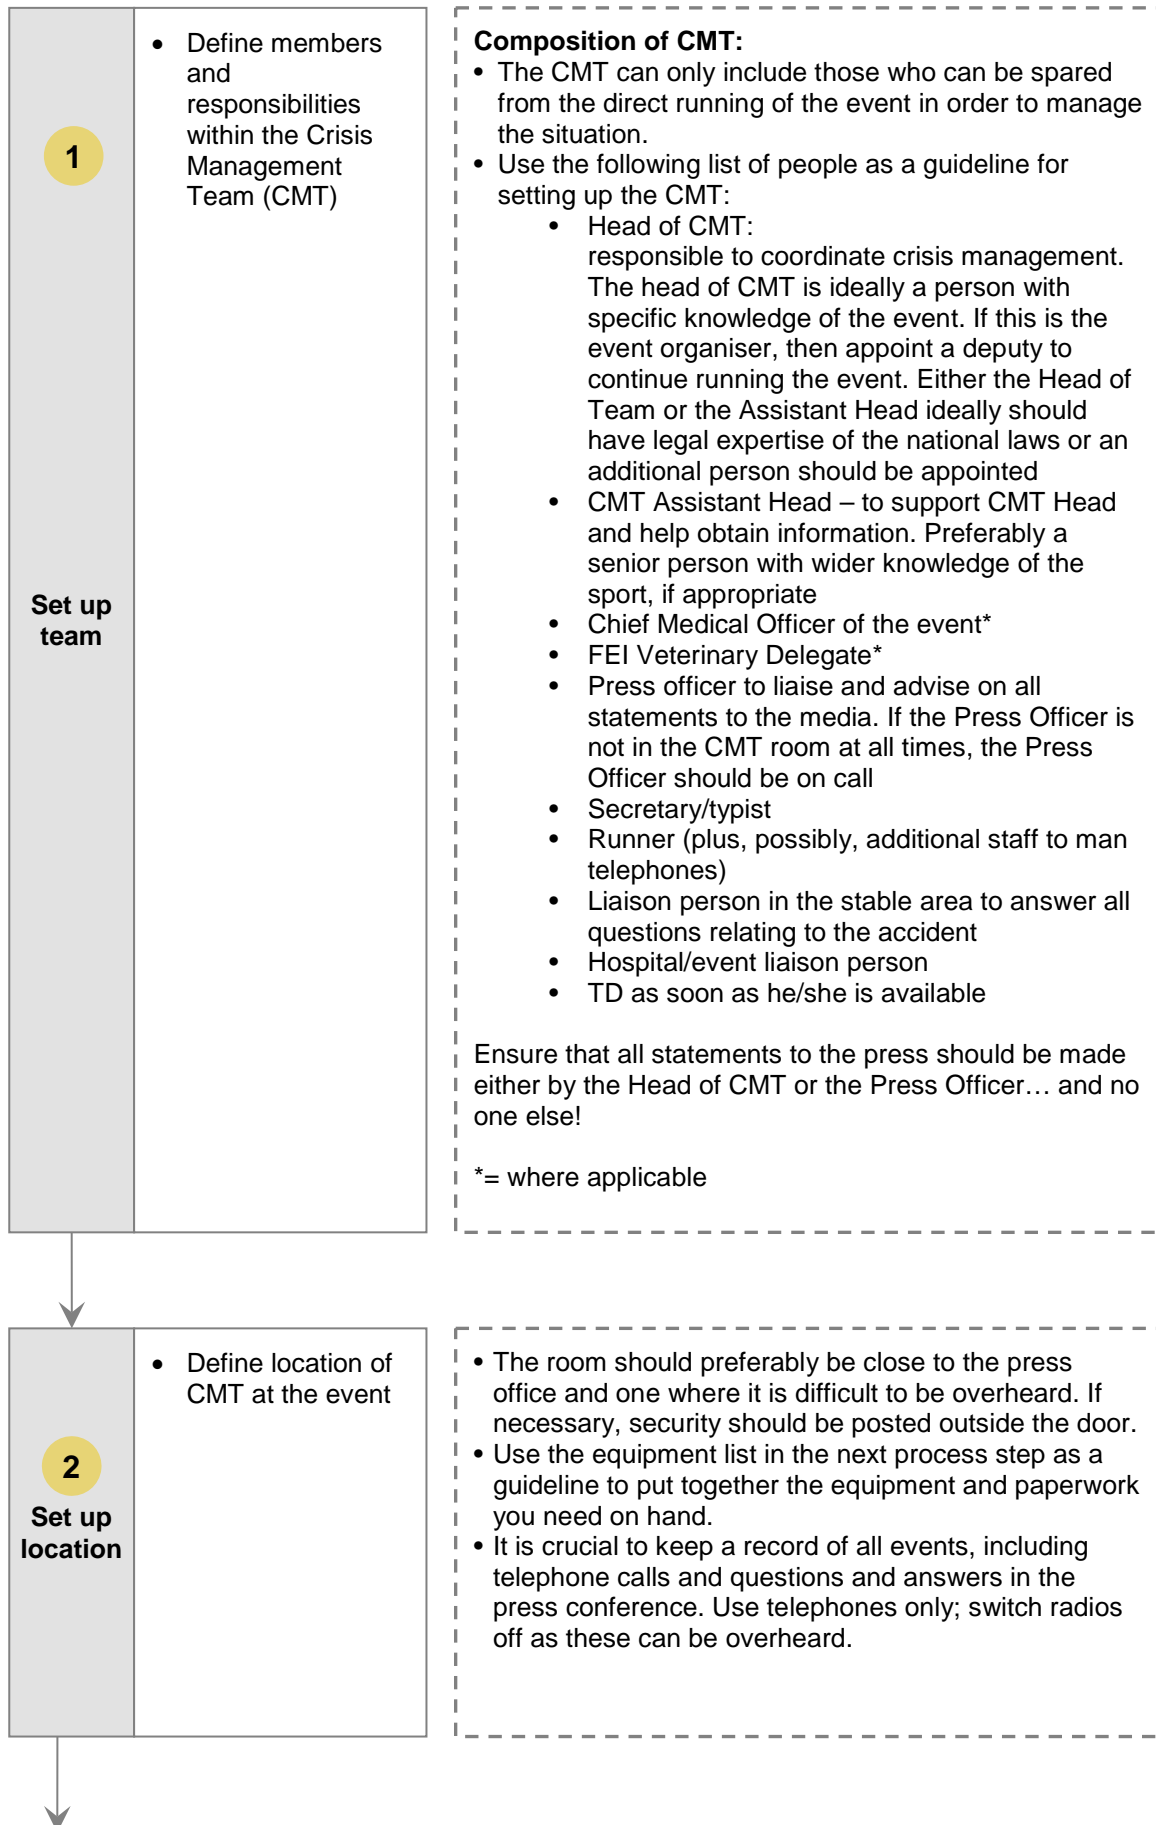

For major multi discipline games/championships, there will be one Crisis Management Team established for all disciplines. Compared to single-discipline events, there should be more emphasis on the definition of the CMT. The role of the crisis management team (CMT) is the following:

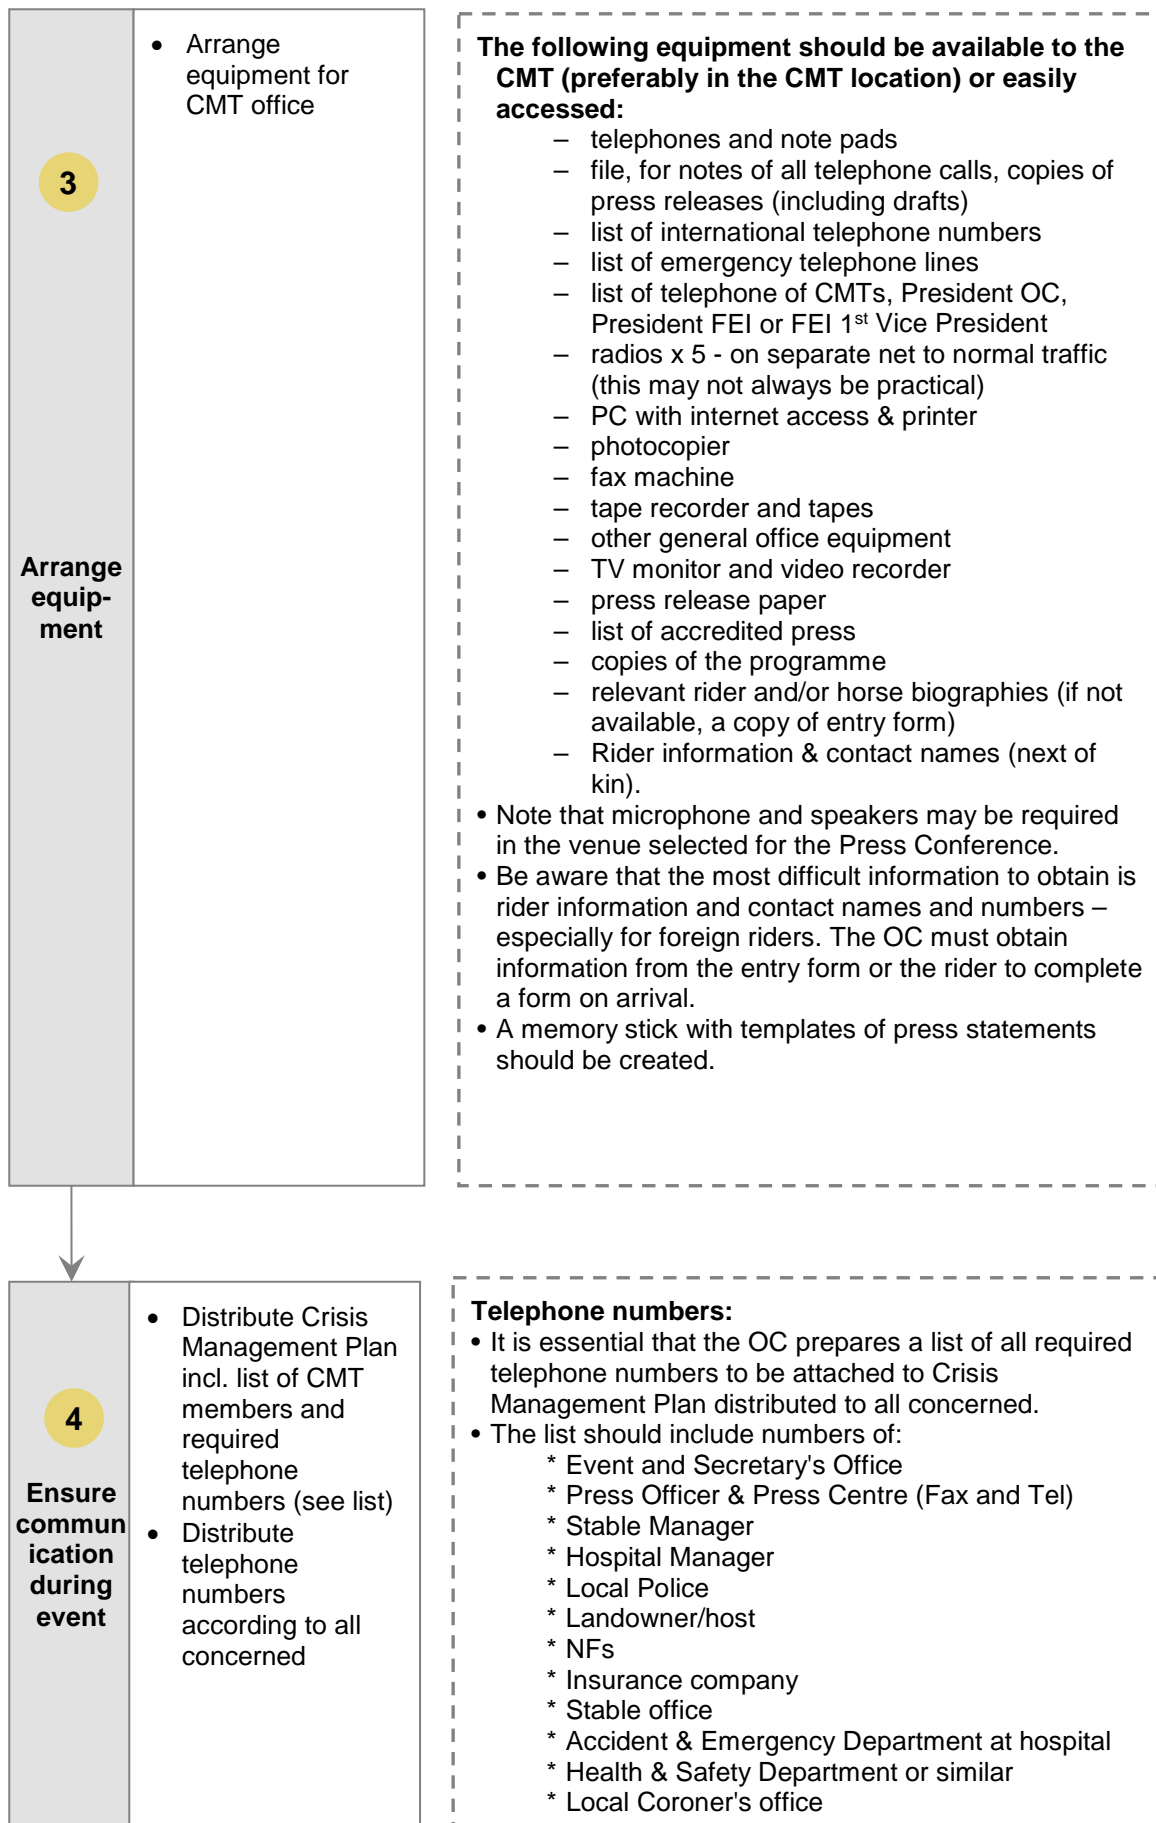

- At the first briefing of Officials, the Head of the CMT must be identified. It is essential that the President of the Ground Jury in particular, is clear about the role of the CMT in the event of a major problem.
- It is essential that in the event of an emergency/crisis, the relevant officials are involved i.e. Veterinary Delegate, Medical Officer, Chief Steward.
- As soon as the crisis is apparent, the Head of the CMT is responsible for the dissemination of information. He/she should ensure that the relevant FEI Discipline Director is informed, who will act as his/her Assistant. At major events, the relevant FEI Director is responsible for informing the FEI President, the Secretary General, Discipline Director and the relevant Technical Chairman.

The following process shall help the organiser as a quick reference to set up the CMT prior to each event.

Over the following pages is an allocation of responsibilities for setting up the CMT at every event.

Veterinary/Judicial/Animal Activists-related problem

Composition of the Jumping Crisis Management Team responsible for Veterinary/Judicial/Animal Activists related problems (please fill in names):

Head of CMT	
Assistant Head, FEI Discipline Director	
President of Veterinary Commission	
FEI Press Officer:	
Event Chief Press Officer	
FEI Chairman of Discipline	
NF Representative of country where event takes place:

General organisational-related problems

The organisational Crisis Management Plan will be established by the OC in advance of each event. The following main issues should be included in the general organisational crisis document established:

- Operations/Functions of the organiser
- General Rules and Regulations
- Procedures for Normal Operations
- Emergency Organisation
- Plans of the Show Grounds and off-site courses (Eventing, Driving & Endurance)
- Scenarios that could lead to a disturbance of the event organisation
- Press & Public Relations
- Description of an orderly evacuation of the show grounds
- Allocation room for fire prevention and rescue/ambulance services
- Concept for the event security/orderlies
- Schedule for the security/orderlies on the grand stands, in the stadiums and special venues
- Schedule for the personnel for off-site events
- Concept for the medical services.

There is no defined procedure to follow when an organisational related crisis occur. The OC has to ensure in advance of the event, that everything is set in place in order to handle such a crisis professionally. The CMT may use the procedure within the competition & discipline related problems as a reference.

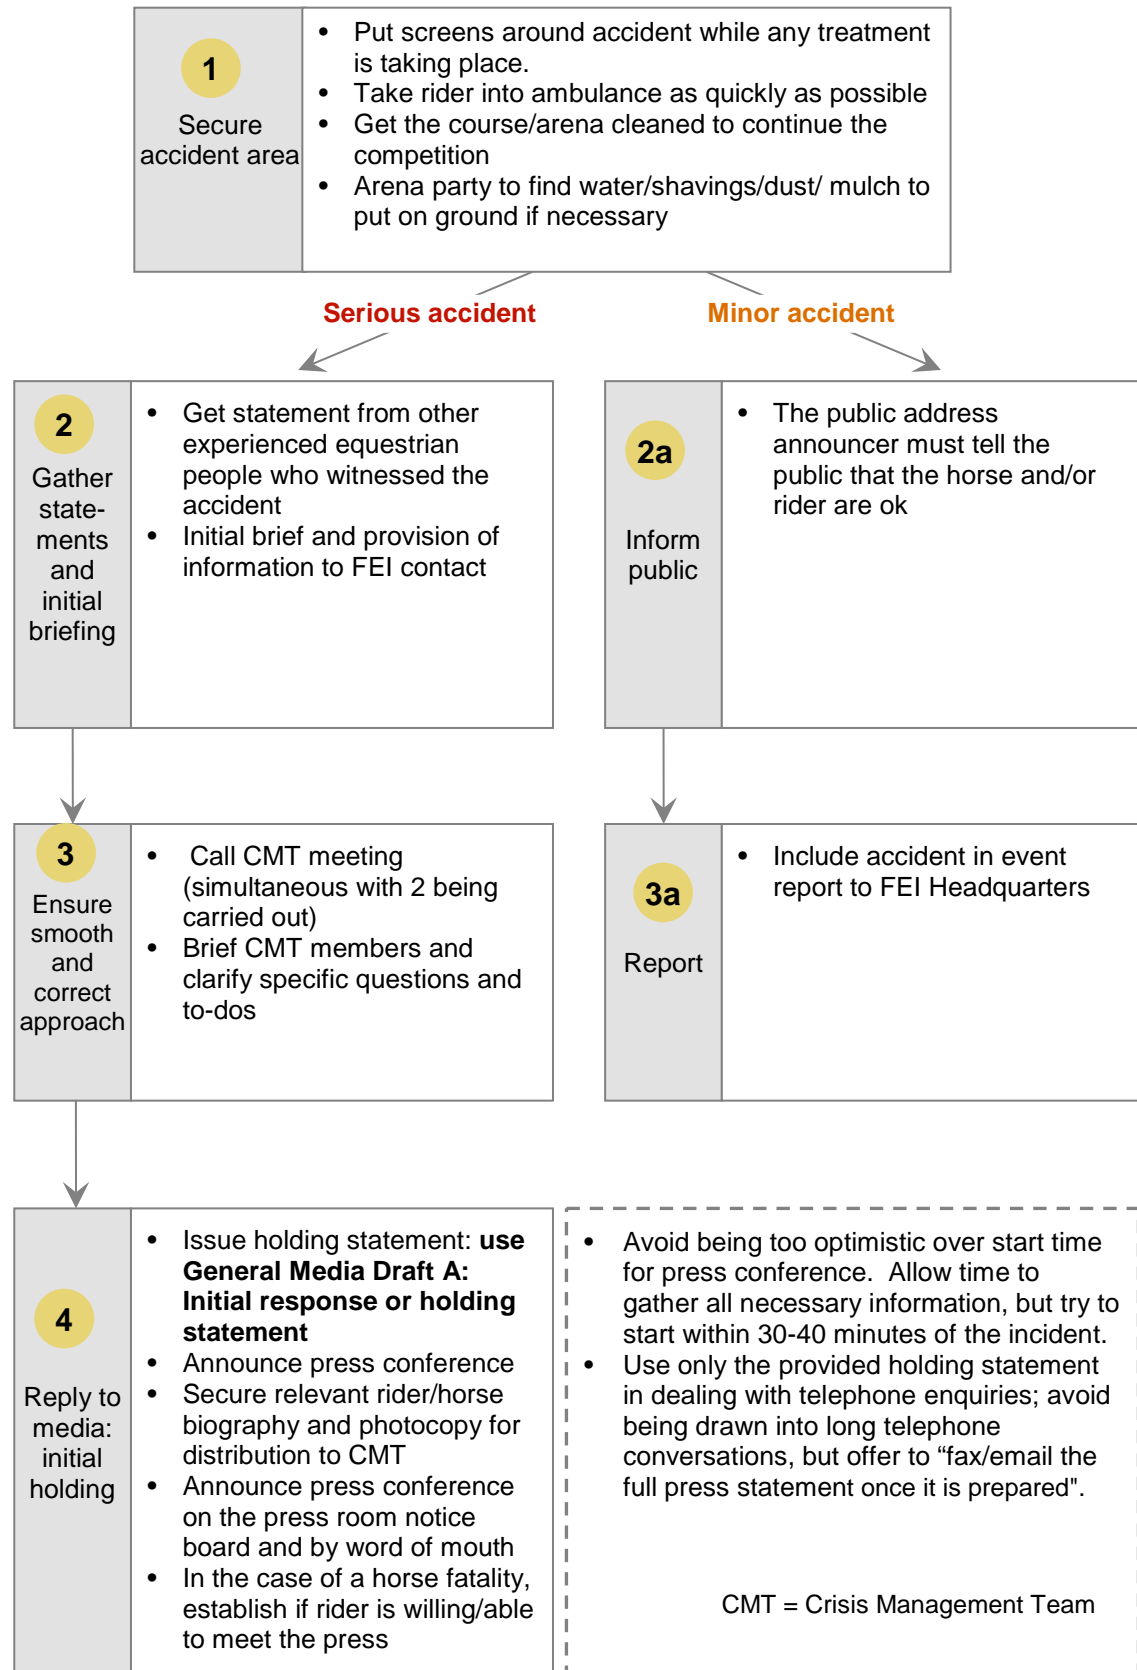

Crisis Management Plan

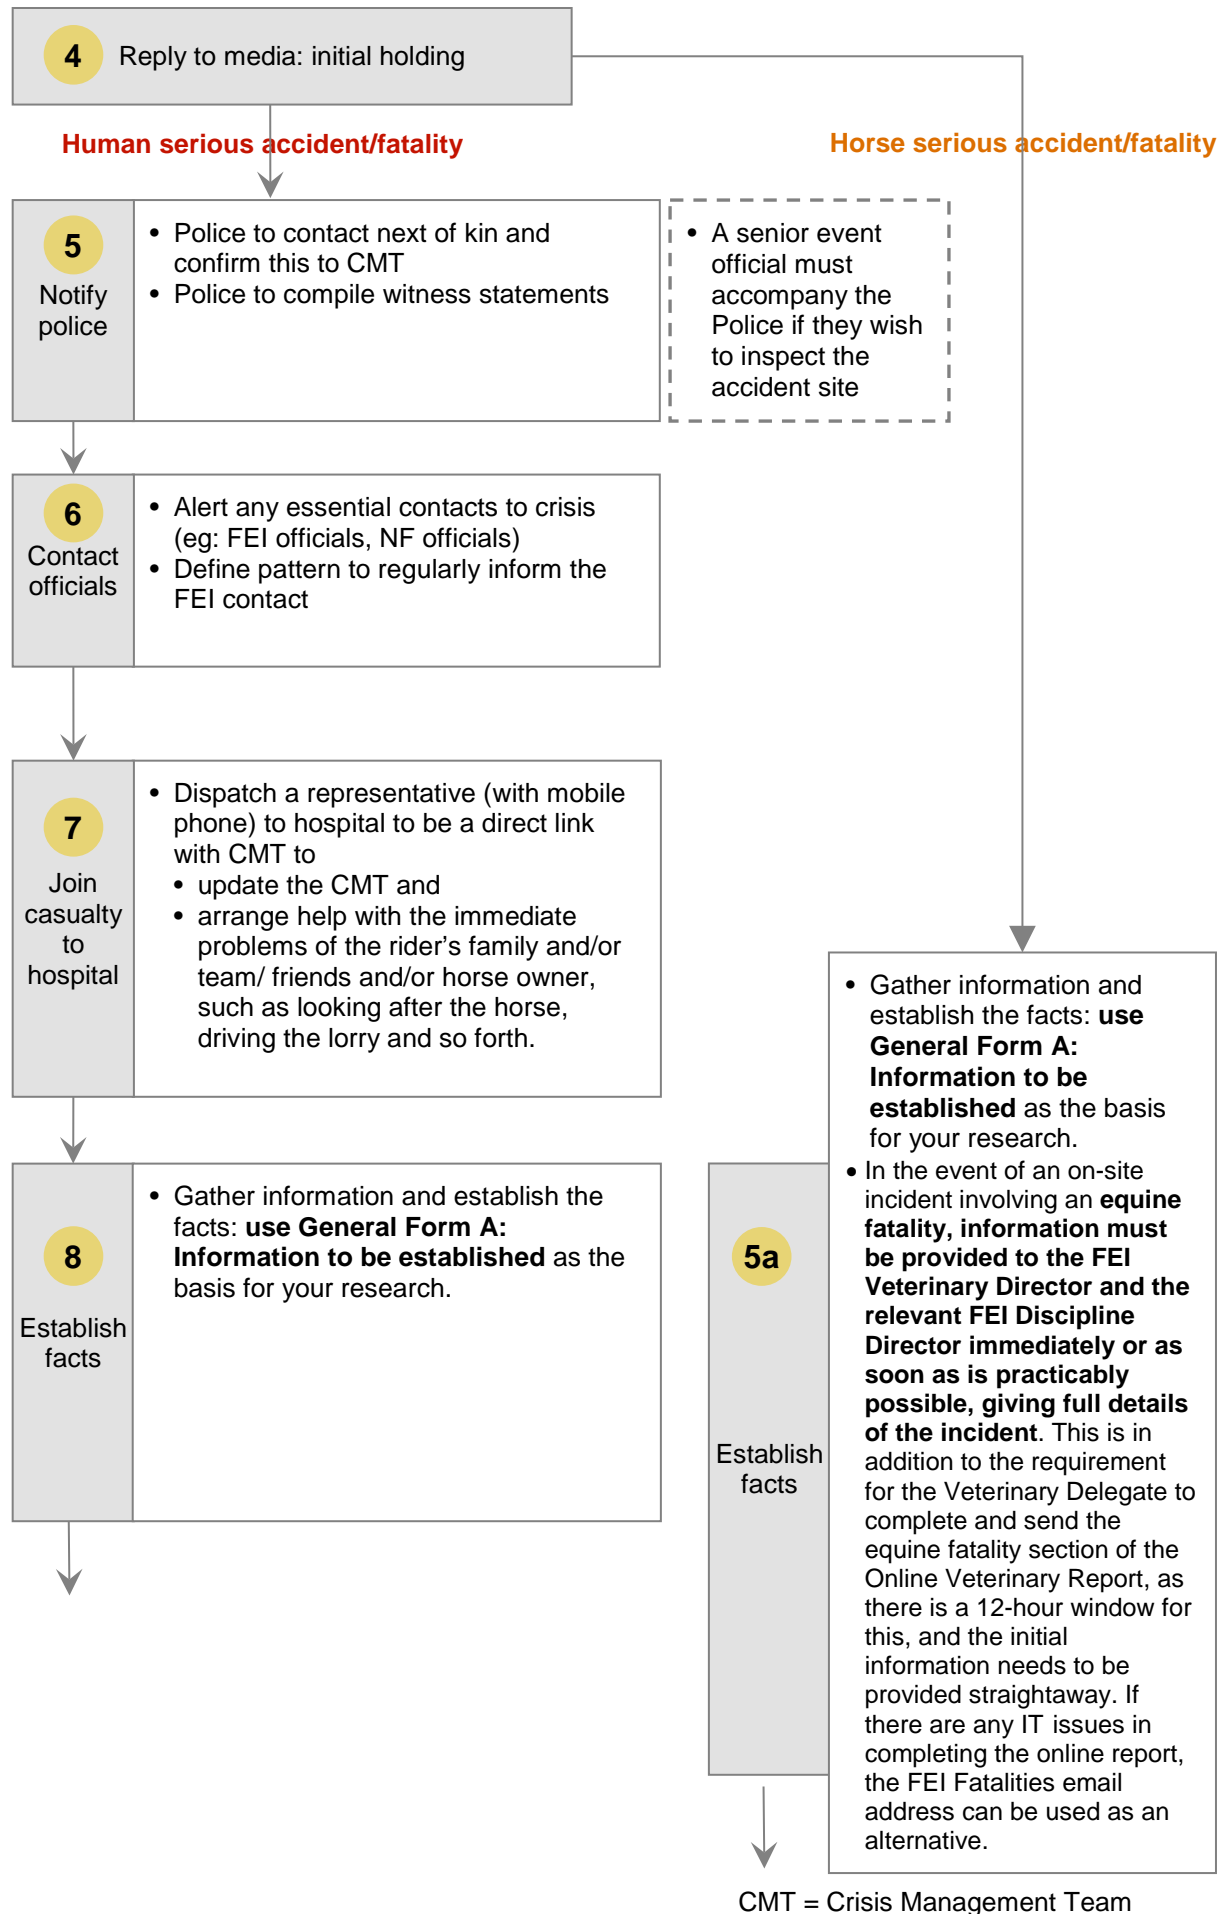

The Crisis Management Plan (CMP) is intended for “instant action” when an accident, of either rider or horse, occurs at the event. It is designed as a guide to procedures and to help with issuing initial statements and logging detail.

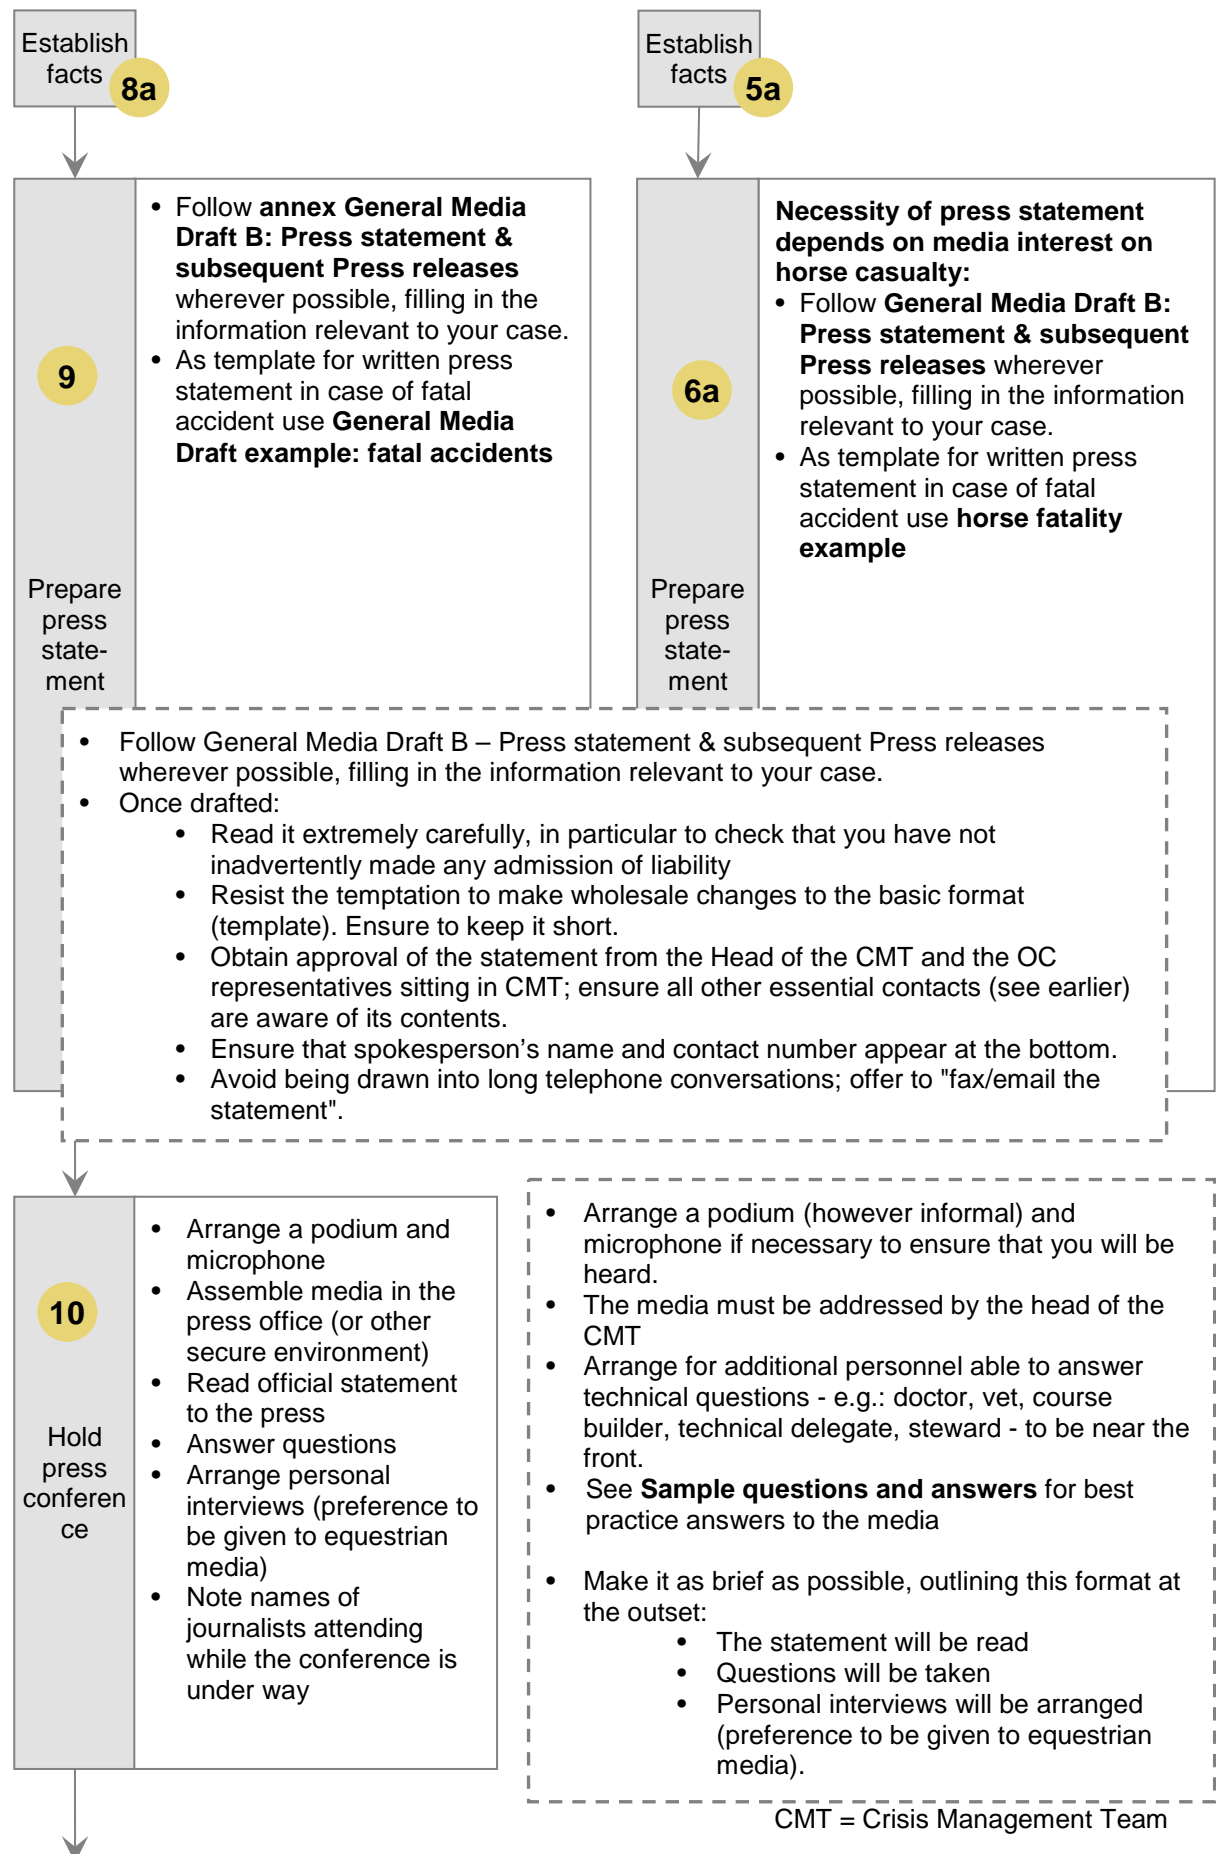

It is intended to supplement any national procedures. Also ensure to take into account varying national requirements to report injuries/fatalities that are not covered in this document.

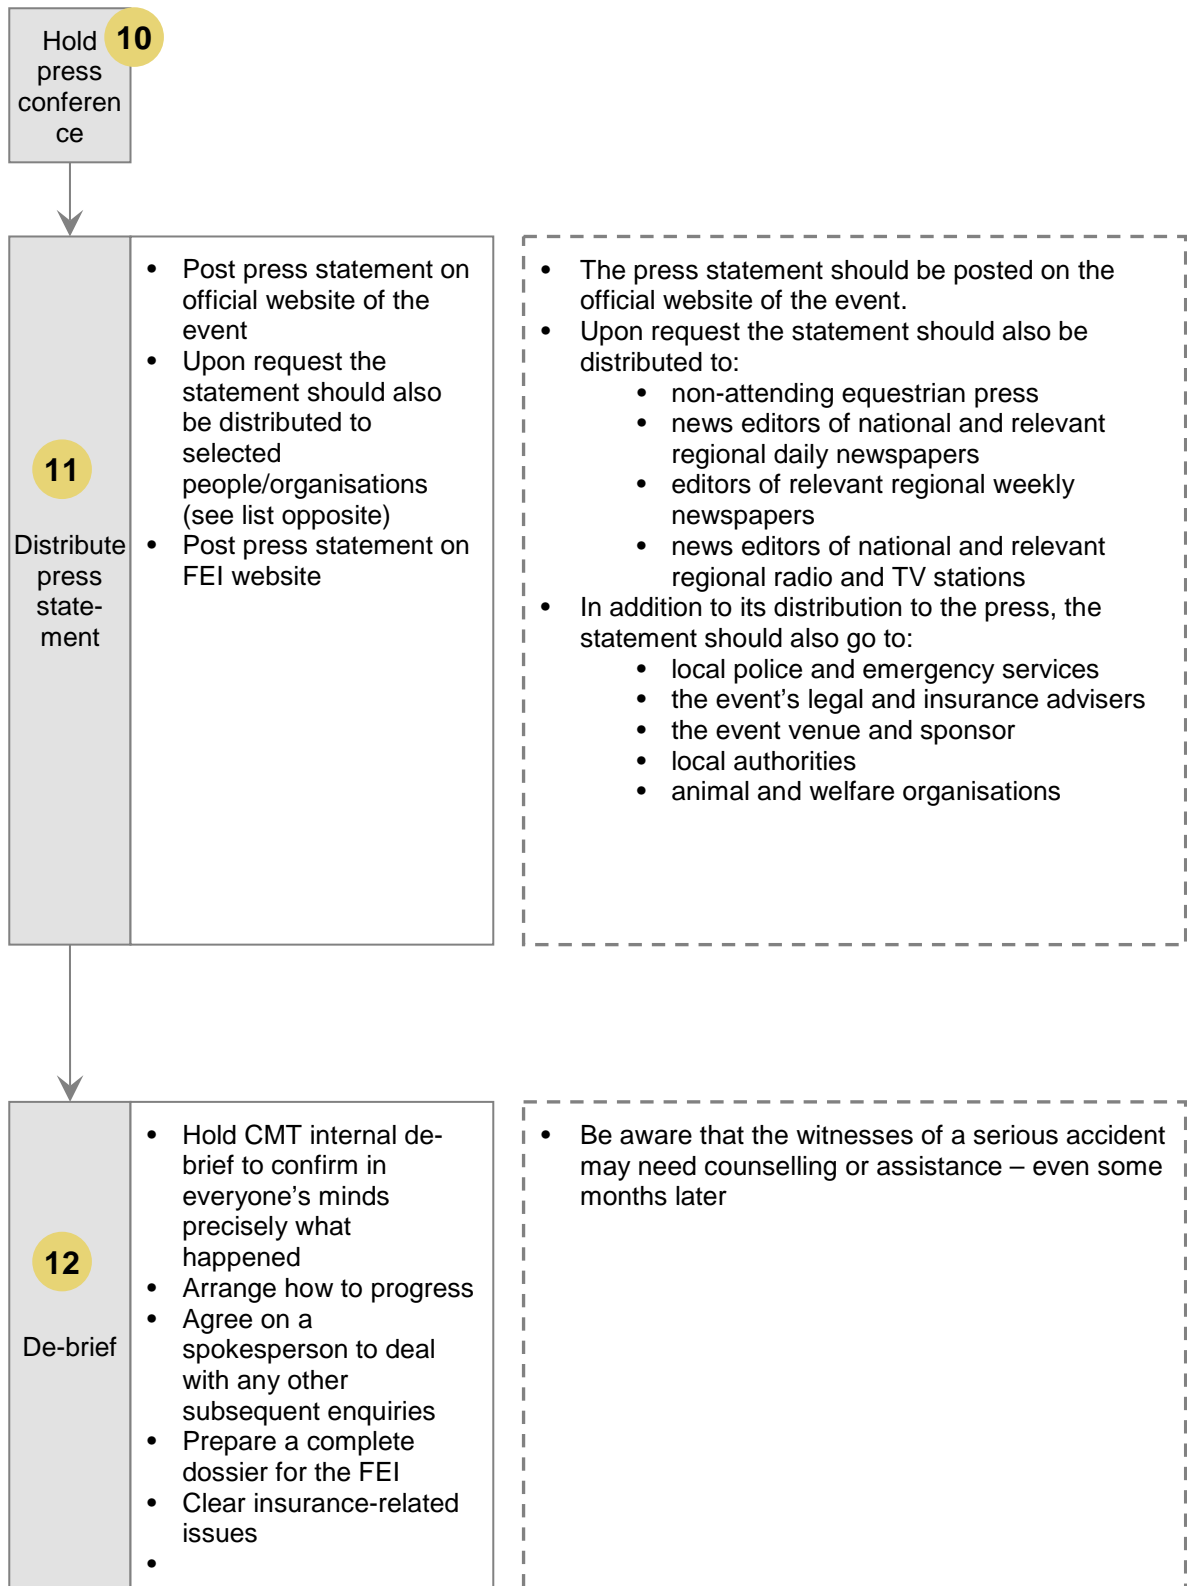

If the crisis is an accident (e.g. with a serious injury or death of a competitor or horse) the following Crisis Management Plan should be followed.

For details to the process steps and for general templates/media drafts see the next pages.

General Media Draft A: Initial response or holding statement

- **Written**

The organisers are investigating the facts surrounding the incident. As soon as these are available, a full statement will be issued and a press conference held.

2. Money

Q - Isn't it fair to say you are more interested in the gate receipts than the animals' welfare?

3. Danger (Jumping)

Q - Doesn't this incident prove that the sport is too dangerous?

A – This sort of accident is extremely rare in Jumping.

Q - Aren't the obstacles too dangerous? Isn't it time they were made less severe?

A - The obstacles are designed to present a fair challenge of skills. Experienced course designers set out to ask realistic questions of horse and rider.

4. Training methods (Dressage)
