FEI Level 1 Course Designer from 2003 until 2005

National Course Designer 2000 until 2005

---

**Work**

**2000/2018**

I consider myself mainly a “horseman “having ridden all my life until an injury limited me from getting on a horse back. My mentors are Leopoldo Palacios (VEN) who worked with me up to level 2 and Werner Deeg (GER) who took me under his wing towards completing level 3 and from there on. I have done work with Mr. Deeg at the Munich CSI for several years as well as many National Championships in different countries in South America and assisting Mr. Deeg and Mr. Petersen (GER) in FEI Course Designing Courses. I have also done extensive work with and for Carol Lopicich (CHI).

International experience goes back for many years while having the opportunity to build in most countries of South and Central America including World Cup Qualifiers and year end National Championships and CSI 3 and 5 star

Early 2017, I moved to USA to closely serve the invitations of Horse Shows that management extend to me, such as Colorado Horse Park, Kentucky Horse Park, Palm Beach International Equestrian Center, HITS Horse shows, Fox Lea Horse Show and many others, since the years schedule is complete with requirements to design and build courses for the current year.

I am proud to do work for FEI Solidarity as “expert” in Course Design and promote the growth of CD in developing countries as part of the advice and counseling that the FEI gives to each National Federation that require to strengthen its structure.
