FEI DRIVING EDUCATION SYSTEM

In line with the FEI Officials' Recommendations, the Education System for FEI Driving Officials has been fully revised by the FEI Driving Department, the FEI Education and Officials Department and the FEI Driving Committee. As a result, it will be implemented and effective as of 1 January 2022.

The revision of the FEI Driving Education System, includes the reorganisation of functions/levels with the addition of a new level for the FEI Driving Stewards. As a consequence, all current FEI Driving Stewards will be automatically transferred up one level on 1 January 2022.

Note that all other Driving functions (Judges, Course Designers & Technical Delegates) keep the same level structure.
