**FEI OLYMPIC ATHLETES RANKING LIST DRESSAGE - 2012 OLYMPIC GAMES**

The FEI Olympic Athletes Ranking – Dressage, covering the period of **1 March 2011 to 1 March 2012**, will be used to determine respective qualification. The list is restricted to the 8 best results per rider/horse combination in events within the specified period.

***General Principles***

**The FEI Olympic Athletes Ranking list is based on:**

- Percentages, scored in international competitions under FEI rules.
- Each Grand Prix level result will count from each international CDI3/4/5\*/CDI-W event. Consolation Grand Prix results (which have to be clearly marked in the schedule and result lists) will not be taken into account.
- Three results per event will count from CDIOs, Olympic Games and World and Continental Championship.

**Calculation of the FEI Olympic Athletes Ranking list**

The ranking list is calculated over a period of one year, from 1 March 2011 to 1 March 2012.

The FEI Olympic Athletes Ranking List is a ranking list of Horse/Rider Combination. The ranking list takes into consideration the best results/percent scores of the Horse/Rider Combination.

Sold horses will be automatically removed from the list upon notification by the new owner/rider to the FEI.

**Point System**

The scores obtained in a maximum of 8 tests per year will count.

The points for the ranking are obtained by adding the 8 best scores within the specified period (expressed in Ranking Points as under mentioned, the percentages will count with the first digit behind the comma, for example see Ranking Points 160 - 170).

In the case of tie points the rider/horse combination with less counting results is in front of the other(s), if both have the same amount of counting results, the rider/horse combination with the best single result is in front of the other(s).

**Fairness**

The FEI Dressage Committee has the right to accept reasonable exceptions to these rules, in the interest of the riders and the sport in general.
