I. Introduction

The aim of this document is to introduce the formats of the file which are available in the FEI Entry System for download and upload.

Following parts will give a technical overview of the existing formats.

II. Download entry file structures

A download file is UTF-8 encoded.

The name of the file will be as follow:

<Venue Name> <Show ID> <Date & Time of file creation>

A. Download entry file (XML format)

This part describes the XML format of a download file.

1. “HorseSport” element

The “HorseSport” element is the file’s root XML element.

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Generated	Yes	1	1	See below	Element containing information about the generated file
ShowEntries	Yes	1	1	See part II.A.2	Element containing complete information about the show’s entries

“Generated” attributes

Name	Mandatory	Type	Description
Date	Yes	Date time	Date and time when the file was generated
Software	Yes	String	Name of the software which generated the file
SoftwareVersion	Yes	String	Software version
Organization	Yes	String	Name of the organization which made the file

2. “ShowEntries” element

The “ShowEntries” element contains complete information about the show’s entries.

Parent element: "HorseSport" (see part II.A.1 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Show	Yes	1	1	See part II.A.3	Element containing show information
Athlete	Yes	1	No limit	See part II.A.4	Element containing athlete information
Horse	Yes	1	No limit	See part II.A.5	Element containing horse information
Event	Yes	1	No limit	See part II.A.6	Element containing event information

3. "Show" element

The "Show" element contains information about the show.

Parent element: "ShowEntries" (see part II.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Venue	Yes	1	1	See below	Show's venue
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Show ID
TypeCode	Yes	String	Show type code
Type	Yes	String	Show type
StartDate	Yes	Date	Show's start date
EndDate	Yes	Date	Show's end date
URL	No	Any URL	Show's URL
TimeStamp	Yes	Positive integer	Indicates when the show was modified for the last time

"Venue" attributes

Name	Mandatory	Type	Description
Name	Yes	String	Venue name
CountryNOC	Yes	String	NOC code of Venue country
Country	Yes	String	Venue country
Complement	No	String	Venue complement
Latitude	No	Decimal	Venue's latitude

Longitude	No	Decimal	Venue's longitude
-----------	----	---------	-------------------

4. “Athlete” element

The “Athlete” element contains information about an athlete.

Parent element: “ShowEntries” (see part II.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
ContactPerson	No	0	1	See below	Athlete's contact person
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	Positive integer	Athlete's FEI ID
NFID	No	String	Athlete's National ID
FirstName	Yes	String	Athlete's first name
FamilyName	Yes	String	Athlete's family name
Gender	Yes	String	Athlete's gender
BirthDate	No	String	Athlete's birth date
JumpingRegistrationLastYear	No	Positive integer	Last year of registration in Jumping
CompetingFor	Yes	String	Country that the athlete is competing for (NOC code)
JumpingWorldCupLeague	No	String	World Cup League in Jumping
TimeStamp	Yes	Positive integer	Indicates when the show was modified for the last time
Last1JumpingRankingNumber	No	Positive integer	Last n Jumping Ranking Number
Last1JumpingRankingRank	No	Positive integer	Last n Jumping Ranking rank
Last2JumpingRankingNumber	No	Positive integer	Last n Jumping Ranking Number
Last2JumpingRankingRank	No	Positive integer	Last n Jumping Ranking rank
Last3JumpingRankingNumber	No	Positive integer	Last n Jumping Ranking Number
Last3JumpingRankingRank	No	Positive integer	Last n Jumping Ranking rank
Last4JumpingRankingNumber	No	Positive integer	Last n Jumping Ranking Number
Last4JumpingRankingRank	No	Positive integer	Last n Jumping Ranking rank
Last1DressageRankingNumber	No	Positive integer	Last n Dressage Ranking Number
Last1DressageRankingRank	No	Positive integer	Last n Dressage Ranking rank
Last2DressageRankingNumber	No	Positive integer	Last n Dressage Ranking Number
Last2DressageRankingRank	No	Positive integer	Last n Dressage Ranking rank
Last3DressageRankingNumber	No	Positive integer	Last n Dressage Ranking Number
Last3DressageRankingRank	No	Positive integer	Last n Dressage Ranking rank

Last4DressageRankingNumber	No	Positive integer	Last n Dressage Ranking Number
Last4DressageRankingRank	No	Positive integer	Last n Dressage Ranking rank
Last1EnduranceRankingNumber	No	Positive integer	Last n Endurance Ranking Number
Last1EnduranceRankingRank	No	Positive integer	Last n Endurance Ranking rank
Last2EnduranceRankingNumber	No	Positive integer	Last n Endurance Ranking Number
Last2EnduranceRankingRank	No	Positive integer	Last n Endurance Ranking rank
Last3EnduranceRankingNumber	No	Positive integer	Last n Endurance Ranking Number
Last3EnduranceRankingRank	No	Positive integer	Last n Endurance Ranking rank
Last4EnduranceRankingNumber	No	Positive integer	Last n Endurance Ranking Number
Last4EnduranceRankingRank	No	Positive integer	Last n Endurance Ranking rank

“ContactPerson” attributes

Name	Mandatory	Type	Description
Name	Yes	String	Contact person name
Quality	No	String	Contact person quality
MobilePhone	No	String	Contact person mobile phone
Email	No	String	Contact person email address

5. “Horse” element

The “Horse” element contains information about a horse.

Parent element: “ShowEntries” (see part II.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Horse's FEI ID
IDType	Yes	String	ID Type
NFID	No	String	Horse's National ID
UELN	No	String	UELN
ChipID	No	String	Chip ID
Name	Yes	String	Horse's complete name
Gender	Yes	String	Horse's gender
Sex	No	String	Horse-s sex
Stallion	Yes	Boolean	Indicates if horse is a stallion or not
Bedding	No	String	Bedding type
BirthDate	Yes	Date	Horse's birth date
BirthCountry	No	String	Horse's birth country (NOC code)
JumpingRegistrationLastYear	No	Positive integer	Last year of registration in Jumping
AdminNF	Yes	String	Horse's admin NF (NOC code)
Color	No	String	Horse's color
ColorComplement	No	String	Horse's color complement
Pony	Yes	Boolean	Indicates if horse is a pony or not
Height	No	Positive integer	Horse's height (cm)
StudBookCode	No	String	Horse's stud-book code
StudBook	No	String	Horse's stud-book
Breeder	No	String	Horse's breeder name
Sire	No	String	Horse's sire name
Dam	No	String	Horse's dam name
SireOfDam	No	String	Horse's sire of dam name
Owner	No	String	Horse's owner
TimeStamp	Yes	Positive integer	Indicates when the show was modified for the last time
TrainerFEIID	No	Positive integer	Horse's trainer FEI ID. Can be empty.
TrainerFirstName	No	String	Horse's trainer first name. Can be empty.
TrainerFamilyName	No	String	Horse's trainer family name. Can be empty.

6. “Event” element

The “Event” element contains information about an event.

Parent element: “ShowEntries” (see part II.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information
Competitions	No	1	1	See part II.A.11	Event competitions
Team	No	0	No limit	See part II.A.7	Team associated to the event
AthleteEntry	No	0	No limit	See part II.A.8	Athlete entries for the event

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Event ID
DisciplineCode	No	String	Event’s discipline code
Discipline	Yes	String	Event's discipline
CategoryCode	No	String	Event's category code
Category	Yes	String	Event's category
Code	Yes	String	Event's code
CodeComplement	No	String	Event's code complement
LevelCode	No	String	Event’s level code (0 : minor, 1 : high)
Level	Yes	String	Higher/lower level
AthletesMinAge	No	Positive integer	Athletes' minimum age to participate to the event
AthletesMaxAge	No	Positive integer	Athletes' maximum age to participate to the event
HorsesMinAge	No	Positive integer	Horses' minimum age to participate to the event
HorsesMaxAge	No	Positive integer	Horses' maximum age to participate to the event
OfficialTeam	Yes	Boolean	Event with official team or not
Indoor	Yes	Boolean	Indoor event or not
DraftSchedulePrizeMoney	No	Decimal	Draft schedule prize money
DraftSchedulePrizeMoneyCurrency	No	String	Draft schedule prize money currency
StartDate	Yes	Date	Event's start date
EndDate	Yes	Date	Event's end date
EntriesInPrincipleDate	No	Date	Last date for entries in principle
NominatedEntriesDate	No	Date	Last date for nominated entries
DefiniteEntriesDate	Yes	Date	Last date for definite entries

StartDateSubstAdditOC	Yes	Date	Start date for substitutions & additions by OC
LastDateSubstitution	Yes	Date	Last date for substitution
HorseInspectionDate	Yes	Date	Date of horse inspection
TimeStamp	Yes	Positive integer	Indicates when the show was modified for the last time

7. “Team” element

The “Team” element contains information about a team of an event.

Parent element: “Event” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information

Attributes

Name	Mandatory	Type	Description
Name	Yes	String	Team's name
NF	Yes	String	Team's NF (NOC code)
Veterinarian	No	String	Team's veterinarian
ChefEquipe	No	String	Team's chef d'équipe
TimeStamp	No	Positive integer	Indicates when the team was modified for the last time

8. “AthleteEntry” element

The “AthleteEntry” element contains information about entries of an athlete for an event.

Parent element: “Event” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information
HorseEntry	No	0	No limit	See part II.A.9	Horse entry associated to the athlete

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	Positive integer	Athlete's FEI ID
Nominated	No	Boolean	Has the athlete been nominated ?
Definite	No	Boolean	Has the athlete been definite?
Withdrawn	No	Boolean	Has the athlete been withdrawn?
Substituted	No	Boolean	Has the athlete been substituted?
Accepted	No	Boolean	Has the athlete been accepted?
Rejected	No	Boolean	Has the athlete been rejected?
Pending	No	Boolean	Is the athlete in pending status?
Team	No	String	Team name
NominatedEntryDate	No	Date	Date of nominated entry validation
DefiniteEntryDate	No	Date	Date of definite entry validation
AcceptationDate	No	DateTime	Date of entry acceptance
RejectionDate	No	DateTime	Date of entry rejection
NFComment	No	String	NF comment
RejectionComment	No	String	Rejection comment
TimeStamp	Yes	Positive integer	Indicates when the show was modified for the last time
Carriage	No	Positive integer	Carriage number. Only used in Driving
BorrowedHorses	No	Boolean	Do the athletes use borrowed horses ?
EnteringNF	No	String	Entering NF Noc code

9. “HorseEntry” element

The “HorseEntry” element contains information about a horse entry for an athlete.

Parent element: "AthleteEntry" (see part II.A.8 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part II.A.10	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Horse's FEI ID
Nominated	Yes	Boolean	Has the horse been nominated?
Definite	Yes	Boolean	Has the horse been definite?
Withdrawn	Yes	Boolean	Has the horse been withdrawn?
Substituted	Yes	Boolean	Has the horse been substituted?
Accepted	Yes	Boolean	Has the horse been accepted?
Rejected	Yes	Boolean	Has the horse been rejected?
Pending	No	Boolean	Is the horse in pending status?
NominatedEntryDate	No	Date	Date of nominated entry validation
DefiniteEntryDate	No	Date	Date of definite entry validation
AcceptationDate	No	DateTime	Date of entry acceptance
RejectionDate	No	DateTime	Date of entry rejection
NFComment	No	String	NF comment
RejectionComment	No	String	Rejection comment
TimeStamp	Yes	Positive integer	Indicates when the show was modified for the last time
Competitions	No	String	Competitions' labels
CompetitionsCode	No	String	Competitions' codes. For Driving Events only.

10. "AdditionalInfo" element

The "AdditionalInfo" element contains an arbitrary piece of information about the parent element. Such information is only visible for the OC and the Host NF.

Element structure

	Mandatory	Type	Min length	Min length	Description
"Name" attribute	Yes	String	1	128	Name of the additional information
element's value	Yes	String	1	256	Value of the additional information

Example:

<AdditionalInfo Name="InfoName">InfoValue</AdditionalInfo>

Possible parent elements

Name	Description
Show	See part II.A.3
Athlete	See part II.A.4
Horse	See part II.A.5
Event	See part II.A.6
Team	See part II.A.7
AthleteEntry	See part II.A.8
HorseEntry	See part II.A.9

11. “Competitions” element

The “Competitions” element contains “Competition” elements.

Parent element: “Event” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Competition	No	0	No limit	See part II.A.10	Competition description

12. “Competition” element

The “Competition” element contains information about the competition of an event.

Parent element: “Event” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Description	No	0	1	See part II.A.9	Description of Competition

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Competition's FEI ID
Name	No	String	Competition name
ScheduleCompetitionNr	No	String	Competition schedule number
Rule	No	String	Competition rule
StartDate	No	Date	Competition start date

13. “Description” element

The “Description” element contains information about the competition.

Parent element: “Competition” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
------	-----------	-----------------	-----------------	------	-------------

Rounds	No	0	No limit	See part II.A.10	Course details for Jumping
Prizes	No	0	No limit	See part II.A.9	Prizes details of Competition

14. “Rounds” element

The “Rounds” element contains information about the description of competition.

Parent element: “Description” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
JumpOff	No	0	No limit	See part II.A.10	Course details

15. “JumpOff” element

The “Description” element contains information about the competition.

Parent element: “Rounds” (see part II.A.6 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Course	No	0	No limit	See part II.A.10	Course details

16. “Course” element

The “Description” element contains information about the competition.

Parent element: “JumpOff” (see part II.A.6 above).

Attributes

Name	Mandatory	Type	Description
MinHeight	No	Positive integer	Obstacle minimum height. Can be empty
MaxHeight	No	Positive integer	Obstacle maximum height. Can be empty

17. “Prizes” element

The “Prizes” element contains information about the competition.

Parent element: “Description” (see part II.A.6 above).

Attributes

Name	Mandatory	Type	Description
PointGroup	No	String	Point group
Currency	No	String	Currency ISO Alpha Code
Total	No	Decimal	Total prize money. Format uses ‘,’ as thousand separator and ‘.’ As decimal separator

B. Download entry file (CSV format)

The content of the CSV file was simplified; it contains less information than its equivalent in XML format.

Each line of the file will have the following structure:

Name	Type
Event ID	String
Event code	String
Athlete FEI ID	Positive integer
Athlete national ID	String
Athlete first name	String
Athlete last name	String
Athlete gender	String
Athlete birth date	Positive integer
Athlete last year of registration in Jumping	Positive integer
Athlete competing for country	String
Athlete World Cup League in Jumping	String
Athlete contact person name	String
Athlete contact person quality	String
Athlete contact person mobile phone	String
Athlete contact person email address	String
Athlete nominated	Boolean
Athlete definite	Boolean
Athlete withdrawn	Boolean
Athlete substituted	Boolean
Athlete accepted	Boolean
Athlete acceptance date	Date
Athlete rejected	Boolean
Athlete rejection date	Date
Athlete rejection comment	String
Athlete team name	String
Athlete team NF	String
Team veterinarian	String
Team chef equipe	String
Athlete NF comment	String
Athlete timestamp	Integer
Horse FEI ID	String
Horse ID type	String
Horse national ID	String
Horse UELN	String
Horse chip ID	String
Horse complete name	String

FEI – ENTRY SYSTEM PROJECT

Files upload – Technical documentation

Name	Type
Horse gender	String
Stallion	Boolean
Horse bedding	String
Horse birth date	Date
Horse last year of registration in Jumping	Positive integer
Horse admin NF	String
Horse color	String
Horse color complement	String
Pony	Boolean
Horse height	Positive integer
Horse stud-book code	String
Horse stud-book	String
Horse breeder	String
Horse sire name	String
Horse dam name	String
Horse sire of dam name	String
Horse owner	String
Horse nominated	Boolean
Horse definite	Boolean
Horse withdrawn	Boolean
Horse substituted	Boolean
Horse accepted	Boolean
Horse acceptance date	Date
Horse rejected	Boolean
Horse rejection date	Date
Horse rejection comment	String
Horse NF comment	String
Horse timestamp	Integer
Driving Number	Integer
Horse Birth Country	String
Last 1 Ranking Number	Integer
Last 1 Ranking Rank	Integer
Last 2 Ranking Number	Integer
Last 2 Ranking Rank	Integer
Last 3 Ranking Number	Integer
Last 3 Ranking Rank	Integer
Last 4 Ranking Number	Integer
Last 4 Ranking Rank	Integer
Competitions	String. Only for Dressage. Each competitions separated with commas.
Competitions Code	String. Only for Dressage. Each competitions separated with commas.

Name	Type
Borrowed Horses	Boolean
Horse Sex	String
Athlete pending	Boolean
Horse pending	Boolean
Trainer FEI IF	Integer
Trainer first name	String
Trainer last name	String
Entering NF	String

Remarks:

- The first line of the CSV file will be used as a title line (containing names of the information above).
- Each piece of information is separated by a comma (,).

III. Upload entry file structures

An upload file must be UTF-8 encoded.

The name of the file should be as follow, but it is not required:

<Country NOC code of the entering NF> <Show ID>

A. Upload entry file (XML format)

This part describes the XML format of an upload file.

Important

If an XML element has child elements, then its child elements must appear in the same order as in the tables below.

1. “HorseSport” element

The “HorseSport” element is the file’s root XML element.

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
Generated	Yes	1	1	See below	Element containing information about the generated file
ShowEntries	Yes	1	1	See part III.A.2	Element containing complete information about the show’s entries

“Generated” attributes

Name	Mandatory	Type	Description
Date	Yes	Date time	Date and time when the file was generated
Software	Yes	String	Name of the software which generated the file
SoftwareVersion	Yes	String	Software version
Organization	Yes	String	Name of the organization which made the file

2. “ShowEntries” element

The “ShowEntries” element contains complete information about the show’s entries.

Parent element: “HorseSport” (see part III.A.1 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
EnteringCountry	Yes	1	1	See part III.A.3	Country of the entering NF
Show	Yes	1	1	See part III.A.4	Element containing show information
Athlete	Yes	1	No limit	See part III.A.5	Element containing athlete information
Horse	Yes	1	No limit	See part III.A.6	Element containing horse information
Event	Yes	1	No limit	See part III.A.7	Element containing event information

3. “EnteringCountry” element

The “EnteringCountry” element contains information about the entering NF.

Parent element: “ShowEntries” (see part III.A.2 above).

Attributes

Name	Mandatory	Type	Description
NF	Yes	String	Entering NF’s NOC code

4. “Show” element

The “Show” element contains information about the show.

Parent element: “ShowEntries” (see part III.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Show ID

5. “Athlete” element

The “Athlete” element contains information about an athlete.

Parent element: “ShowEntries” (see part III.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
ContactPerson	No	0	1	See below	Athlete's contact person
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	Positive integer	Athlete's FEI ID
NFID	No	String	Athlete's National ID

“ContactPerson” attributes

Name	Mandatory	Type	Description
Name	Yes	String	Contact person name
Quality	No	String	Contact person quality
MobilePhone	No	String	Contact person mobile phone
Email	No	String	Contact person email address

6. “Horse” element

The “Horse” element contains information about a horse.

Parent element: “ShowEntries” (see part III.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Horse's FEI ID
NFID	No	String	Horse's National ID
Stallion	No	Boolean	Indicates if horse is a stallion or not
Bedding	No	String	Bedding type

7. “Event” element

The “Event” element contains information about an event.

Parent element: “ShowEntries” (see part III.A.2 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information
Team	No	0	No limit	See part III.A.8	Team associated to the event
AthleteEntry	No	0	No limit	See part III.A.9	Athlete entries for the event

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Event ID

8. “Team” element

The “Team” element contains information about a team of an event.

Parent element: “Event” (see part III.A.7 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information

Attributes

Name	Mandatory	Type	Description
Name	Yes	String	Team's name
Veterinarian	No	String	Team's veterinarian
ChefEquipe	No	String	Team's chef d'équipe

9. "AthleteEntry" element

The "AthleteEntry" element contains information about entries of an athlete for an event.

Parent element: "Event" (see part III.A.7 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information
HorseEntry	No	0	No limit	See part III.A.10	Horse entry associated to the athlete

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	Positive integer	Athlete's FEI ID
Carriage	No	Positive integer	Carriage number. Only used for Driving
Team	No	String	Team name
NFComment	No	String	NF comment

10. "HorseEntry" element

The "HorseEntry" element contains information about a horse entry for an athlete.

Parent element: "AthleteEntry" (see part III.A.9 above).

Child elements

Name	Mandatory	Min occurrences	Max occurrences	Type	Description
AdditionalInfo	No	0	No limit	See part III.A.11	Additional information

Attributes

Name	Mandatory	Type	Description
FEIID	Yes	String	Horse's FEI ID
NFComment	No	String	NF comment
CompetitionsCode	No	String	Competitions code list. Comma separated values format
TrainerFEIID	No	Positive integer	Trainer's FEI ID

11. "AdditionalInfo" element

The "AdditionalInfo" element contains an arbitrary piece of information about the parent element. This information can only be defined by Host NF users through XML upload.

Element structure

	Mandatory	Type	Min length	Min length	Description
"Name" attribute	Yes	String	1	128	Name of the additional information
element's value	Yes	String	1	256	Value of the additional information

Example:

```
<AdditionalInfo Name="InfoName">InfoValue</AdditionalInfo>
```

Possible parent elements

Name	Description
Show	See part III.A.4
Athlete	See part III.A.5
Horse	See part III.A.6
Event	See part III.A.7
Team	See part III.A.8
AthleteEntry	See part III.A.9
HorseEntry	See part III.A.10

B. Upload entry file (CSV format)

Some data cannot be specified through CSV upload, such as additional information for example.

Each line of the file must have the following structure:

Name	Mandatory	Type
Country	Yes	String
Show ID	Yes	String
Event ID	Yes	String
Athlete FEI ID	Yes	Positive integer
Athlete contact person name	No	String
Athlete contact person quality	No	String
Athlete contact person mobile phone	No	String
Athlete contact person email address	No	String
Athlete NF comment	No	String
Team name	No	String
Horse FEI ID	Yes	String
Stallion	No	Boolean
Horse bedding	No	String
Horse NF comment	No	String
Driving number	No	Positive Integer
Competitions code	No	String
Trainer FEI ID	No	Positive Integer

Remarks:

Each piece of information must be separated by a comma (,).

'Trainer FEI ID' field is used for Endurance Events.

'Competitions code' field is used for Dressage Events. This field list all competitions code with a comma as a separator. This field must be surrounded with String delimiter (" character)

'Driving number field' is used for Driving Events. Default value is 1.
