Introduction

On behalf of the Organizing Committee of the Lima 2019 XVIII Pan American Games and Sixth Parapan American Games, I would like to thank all the Pan American family, especially the National Olympic Committees, for their work in favor of sports in the continent.

I am pleased to introduce the competition technical manuals of each sport, which will be used during the Lima 2019 Pan American Games.

Each manual has been developed by the functional areas of the Lima 2019 Organizing Committee with the help of technical delegates from the different international federations and Panam Sports experts. This document will contribute to the success of the biggest sports event that has ever taken place in Peru.

In this document there is relevant information about every sport and discipline on the activity calendar of the XVIII Pan American Games.

You will also find the competition schedule, competition format and system, qualification system, information about delegation training sessions, accreditation, the Athletes' Village (accommodation venue), medical services, among others. This will be the best guide for competing in the Lima 2019 Games, where we are waiting for you with open arms.

Lima 2019 is an opportunity to transform and forge a better country based on sports' values (excellency, friendship, respect, courage, determination, equality and inspiration). Lima and all of Peru are getting ready to welcome you with the affection and hospitality we are known for.

We are sure that you will take home the best memories of your stay in our country during the largest sports event in the continent, which will be held in Peru for the first time.

2. ABOUT LIMA AND PERU

2.1. THE CITY OF LIMA

Before becoming a colonial capital, Lima was formerly populated by the Lima and Wari cultures. Later on, it became the capital of the Viceroyalty of Peru. The huacas and colonial houses of the city are an example of its historical greatness. Today, Lima is a cosmopolitan center that offers a variety of cultural and artistic options.

It overlooks the Pacific Ocean from a natural balcony that holds nearly 10 million people with thousands of stories and origins. Lima is a city with a past and a future, with innovators and entrepreneurs, and of art, craftsmanship and industry. A glorious city that knows how to celebrate life.

This city full of opportunities is located on the central coast of South America. It gathers all of Peru's diversity and complexity in a vibrant and captivating metropolis. Also, it is the only city in America that stretches from the Andes to the ocean. It has the privilege of being the only capital city of South America located on the shores of the Pacific Ocean.

Lima can refer to a region, a province and a city (Lima Metropolitan Area) as well as a district. It comprises 43 districts (divided into Northern, Southern, Eastern and Central Lima), in addition to the other seven districts that are a part of the province of Callao.

Throughout its history, Lima has been bolstered by immigrants from other provinces of the country and other regions of the world. It has the largest ethnic Chinese community and the second largest Nikkei community in Latin America. It is safe to

say it is a diverse city and that multiculturalism is its main resource.

When walking the streets of Lima, you can admire its churches, archaeological sites and colonial houses coexisting with modern buildings. Lima also offers a wide variety of cultural events and is recognized worldwide as the gastronomical capital of Latin America.

2.2. LIMA'S CUISINE

Lima is Peru's meeting point and, as such, it is a melting pot of cuisines enriched by the historic influx of migrants and products from other regions of Peru and the world. It is a huge pantry of fresh products, some of which are impossible to get elsewhere. This wide range of products is the secret to success of the current Gastronomical Capital of the Americas.

Lima gathers all of Peru's rich biodiversity in an exquisite metropolis: limes from the north that are used in cebiche, corn from Cuzco as a side dish for anticuchos and countless native potatoes of every color and texture. Also, Peru's main sources of flavor are its chili peppers; its popular and highly nutritious grains, like quinoa and kiwicha; and its coffee and cacao, which make city life sweeter and more enjoyable. Lastly, Peru is also known for its exotic Amazonian fruits, its aromatic spices from the Andes and its delicious pisco.

And, of course, its seafood. What would Lima's cuisine be without fish and traditional fishermen? But, also, what would Peru's cuisine be without its chefs, the guardians and creators of taste? They are the greatest collectors of historical and ancestral culinary knowledge, creators of new trends and flavors, innovative revolutionaries capable of bringing everyone together at the same table. Thus, Lima combines the knowledge and flavor of an entire country.

There are approximately 220 thousand restaurants in Lima, with several options inspired by the world's flavors and expertise.

Peruvian cuisine was declared "Cultural Heritage of the Americas" by the Organization of American States (OAS) in 2011.

Peru loves fusion cuisine, the abundance of its fields and the fruits of the sea. Its gastronomy is a fascinating combination of splendid climate, exotic —and sometimes spicy— products and a generation of chefs that are the best ambassadors of their cuisine around the world.

Peru has ten products with protected designation of origin such as pisco, Villa Rica coffee, Cuzco's giant white corn and Ica's lima bean. Moreover, it has over 3000 varieties of domesticated potato.

2.3. INFORMATION ABOUT PERU

Peru is located on the west side of South America and covers 1,285,215 km² of land and 200 nautical miles of the Pacific Ocean. With over 10 thousand years of history, it boasts great cultural richness, a delicious and award-winning cuisine, impressive archaeological sites, UNESCO World Heritage sites and vast nature reserves.

Peru has more than 31.5 million inhabitants. It can be divided into three major regions: coast, highlands and jungle, giving the country an immense multiplicity of landscapes. These regions comprise 11 ecoregions and 84 life zones of 117 that exist in the world. Due to its diverse geography, Peru has a wide variety of natural resources.

It has abundant forests, generous distances and ancient cultures. It is the third most megadiverse country on the planet thanks to its wide variety of orchids, birds and butterflies, and a lush Amazon, which has been recognized and awarded as one of the Seven Natural Wonders of the World.

Peru is also home to one of the seven wonders of the modern world: the citadel of Machu Picchu. In the region of Puno, over 3800 meters above sea level, you can visit the enchanting islands of Titicaca, the highest navigable lake in the world.

Peru has 12 World Heritage Sites and eight Intangible Cultural Heritage sites, awarded by UNESCO.

More than sixty native languages are spoken in the country, such as Aymara and Quechua. Also, it still preserves a musical scenery with native instruments like the quena and siku, melodies that feature joyful Afro-Peruvian beats and Andean music such as huayno and harawi.

Furthermore, it placed 9th in global entrepreneurship according to the 2015 Global Entrepreneurship Monitor report (GEM). Finally, it also won the World's Leading Meetings & Conference Destination in 2015 at the World Travel Awards (WTA).

Ancient Peruvians were skilled metalsmiths who turned silver and gold into precious jewels over 3000 years ago. They were also amazing craftsmen, who showed their vision of the world in clay pots and carved gourds. Their ancestral techniques were inherited by local entrepreneurs who now sell their products in the most demanding international markets.

Peru is a destination that shares its customs. Close to 3000 traditional festivals are celebrated nationally every year. Peruvian cities such as Lima, Cuzco and Arequipa were listed as UNESCO World Cultural Heritage Sites. Also, Peru was the home of ancient civilizations that grew cherishing the sand of the desert, the heavy rains of the Andes or the humid forests of the mountains.

Peru currently produces 80% of the world's alpaca clothing, an excellent Andean fiber that has become a symbol of elegance and exclusivity. Over 120 thousand families are involved in the supply chain of this valuable camelid fiber.

2.4. PERU AS HOST OF MAJOR EVENTS

Peru has organized several sports events and international sports meetings over the years. The 2012, 2013 and 2018 editions of the Rally Dakar and the 131st International Olympic Committee (IOC) Session in 2017 are some examples that it is ready to house world-class events, considering it has both infrastructure and security.

Hosting the 2019 Pan American and Parapan American Games is very important for a city that is committed to promoting sports among its citizens. Lima is getting ready to welcome 6680 athletes from 41 countries of the Americas during the Pan American Games.

The Peruvian capital hosted the I Beach Bolivarian Games (from November 1 to 11 in 2012). A year later, the XVII Bolivarian Games took place in Lima and Trujillo between November 16 and 30, featuring close to 5000 athletes from 11 countries.

Peru has also hosted the "Copa América" on six occasions: 1927, 1935, 1939, 1953, 1957 and 2004. It was also the official venue of the FIFA U-17 World Cup in 2005 and the final was held at the National Stadium of Lima.

Furthermore, Peru had the privilege of hosting the FIVB Volleyball World Championship at the Coliseo Amauta (Lima), the Coliseo Gran Chimú (Trujillo) and the Coliseo Cerrado de Ica (Ica), between September 12 and 25, 1982. Additionally, the FIVB Volleyball Women's U-20 World Championship took place in Lima and Trujillo in 2011.

The South American Games were also held in Lima (from December 1 to 10, 1990). Later on, our country hosted the I South American Youth Games from September 20 to 29, 2013.

As mentioned previously, Peru was part of the Dakar Rally in 2012, 2013 and 2018. Four stages took place during the first year and the race ended in Lima. In 2013, five stages of the world's largest rally were contested in the Peruvian capital. In 2018, six and a half stages of the competition were contested in Peru, starting in Lima and passing through Puno to its final stop in Bolivia.

Moreover, the 131st IOC Session was held in September 2017 at the Lima Convention Center in Peru, with the presence of leaders of the National Olympic Committees. During this meeting, Paris and Los Angeles were chosen as host cities of the 2024 and 2028 Olympic Games, respectively.

In 2011, the 3rd FINA World Junior Swimming Championships was held in Peru. The competition venue was Campo de Marte.

A variety of sports events can be hosted in Peru due to its natural areas and its infrastructure. Off-road races across dunes and mountains, ultramarathons through the desert, triathlons on the shores of the Pacific Ocean and multi-sports games on different sports stages are some examples that show that Peru is an attractive place to organize high-impact competitions.

2.5. CURRENCY

The national currency is the sol (PEN), but the American dollar (USD) and the euro (EUR) are also accepted.

2.6. LANGUAGE

Spanish, the official language of Peru, is spoken by 84% of the population. In addition, 47 indigenous languages, including Quechua and Aymara, are spoken in the country.

3.1. MILCO, LIMA 2019 OFFICIAL MASCOT

Milco is a very cheerful, optimistic and friendly mascot, whose arms are always open, ready to welcome all visitors who arrive to the Lima 2019 Games.

Lima has a cultural background that makes us proud, and that is what our mascot highlights. One of Milco's favorite colors is red —also the color of our flag— because it represents passion! He wants to transmit this passion to all Lima 2019 participants, so that they give their best in each competition.

Milco is based on cuchimilcos, statuettes from the pre-Hispanic cultures of mid-western Peru such as Lima, Chancay and Chincha. This mascot was chosen by popular vote, when he obtained 19,895 votes. He beat two other candidates: Amantis, which represents the amancaes flower, and Wayqi, a gecko from the huacas of Lima.

A total of 44,514 people from Peru and abroad participated in selecting the Pan American and Parapan American Games mascot. With this number a new voting record was set, breaking that of Guadalajara 2011 and Toronto 2015.

Initially, over 1000 design proposals from across the country were submitted. From there, a specialized jury selected three finalists. They then entered an online popular vote on the Games' official website (www.lima2019.pe).

FIRST COMPETITION DAY: FIRST QUALIFYING COMPETITION (INDIVIDUAL AND TEAM)

Conduct, table, speed

The first individual qualifying competition is run over a Table A course judged under Table C (FEI Jumping Rules Articles 239 and 263) and without a jump-off in the event of equality for the first place.

This competition will count as a qualification for the individual final competition and will establish the starting order for the team competition. The scores of the best three combinations in each team will be added together. Teams will start in the first round of the team competition in the reverse order of the penalties obtained during the competition.

Obstacles, length of course

The course will comprise from 12 to 14 obstacles that include a double and a triple or three doubles. The maximum height for the obstacles will be 1.50 meters with a proportionate spread that does not exceed 2.00 meters (2.20 meters for the triple bar). There must be two vertical obstacles measuring 1.50 meters. Sloping walls will not count as compulsory vertical obstacles. A maximum of two obstacles with a spread of one meter or less may be used. It will not be compulsory to have a water jump (ditch). If a water jump is used, it must measure 4.00 meters (including the take-off element).

Length of course: a minimum of 500 meters and a maximum of 600 meters.

Participation

Riders and horses included in the declaration of starters for the individual and team championships may participate in this first competition.

Starting order

The starting order in this competition will be determined by a draw in the presence of the ground jury, foreign technical delegate and chefs d'equipe, after the training session, at a time established by the president of the jury in agreement with COPAL. The starting order of individuals and teams will be drawn under the procedures established in the FEI Jumping Rules Art. 252.

First, a draw for the individual starting places will take place, followed by a draw to decide the starting position of each team. The starting order of team members will be established by the chefs d'equipe. The chefs d'equipe of teams with only three combinations may determine in which of the three places out of four they will start their combinations.

Penalty points As per article 10.5 of the Pan-American Regulations

The Score obtained by each Athlete in the first Competition will be converted into Penalties according to the following method. Each Athlete's time will be multiplied by the coefficient 0.50 and converted into points; the points must be rounded to two

decimal places. The second decimal place will be rounded up from .005 and rounded down from .004. The Athlete with the lowest number of points after this conversion will be given zero Penalties, the other Athletes being credited with the number of Penalties representing the difference in points between each of them and the leading Athlete. If an Athlete is eliminated or retires, he will be penalised with 20 Penalties more than the Athlete who has been the most severely penalised after the times of all Athletes who completed the Competition have been converted into Penalties.

SECOND COMPETITION DAY: TEAM COMPETITION (ALSO THE SECOND AND THIRD INDIVIDUAL QUALIFYING COMPETITIONS)

Conduct, table, speed

This competition will be conducted in accordance with the Nations Cup rules, except where modified as follows:

This competition will take place over two rounds (qualifying and final round) on the same day and over the same course.

It will be judged under table A, not against the clock, with a time allowed at a speed of 375 meters per minute.

Obstacles, length of course

The competition will include 12 to 14 obstacles, including one double and one treble or three doubles. The maximum height for the obstacles will be 1.60 meters with a proportionate spread that does not exceed 2.00 meters (2.20 meters for the triple bar). A maximum of two obstacles with a spread of one meter or less may be used. There must be at least two vertical obstacles measuring 1.60 meters in height and at least six other obstacles measuring 1.40 meters in height. Sloping walls will not count as compulsory vertical obstacles. A water jump (ditch) with a spread of 4.00 meters (including the take-off element) will be included in the first round. The water jump is optional in the second round.

Length of course: a minimum of 500 meters and a maximum of 700 meters.

Team qualification

The team qualification for the 10 best teams and those with an equal number of penalties for 10th place will be decided by adding the penalties of the three best-placed combinations of each team in the first competition and in rounds 1 and 2 (qualifying and final round) of the team competition. Teams that do not qualify for round 2 of the team competition will be placed by adding the penalties incurred by the three best athletes in each team in the first competition and in round 1 of the team competition.

Jump-off

In the event of equality of penalties for first, second or third place, there will be a jump-off against the clock in which all team members may participate.

If more than one jump-off is required to determine the medal placing, the jump-off for third place will take place before the jump-off for first and second place.

The jump-off course will consist of at least six obstacles that may be increased in height and spread, including a combination run at a speed of 375 meters per minute.

The score in the jump-off will be obtained by adding the penalties incurred by the three best athletes in each team. In the event of further equality of penalties, the times of these three combinations in the jump-off added together will decide the winning team as well as the teams in second and third place.

The score of this jump-off is only to determine the placing of the teams and will not count towards the qualification for the individual final competition.

In the event of equality of penalties between various teams for an Olympic team qualification place, the same jump-off process will be applied for the allocation of 2020 Olympic Games quota places.

For individuals and members of teams not qualified for the second round of the team Competition their score in the second round qualifier will count. Participants must have taken part in the first qualifying Competition (completed or not) and have completed both rounds of the Team Competition (without having been eliminated or having retired). If for any reason one or more of these 35 best placed Athletes are unable to start, they are replaced by participants from the reserve list of Athletes. Not more than three Athletes from any one nation may take part in this Competition. In case four Athletes from one nation are within the top 35 Athletes, the three best placed Athletes from the nation(s) in question will participate in the Individual Final. If two Athletes tie for third place the Chef d'Equipe decides of the two Athletes will participate in this Competition. The fourth Athlete cannot be added to the reserve list. Round B

Round B of this Competition is open to the 20 best placed Athletes from Round A, including those with equality of Penalties for 20th place.

Inspecting the Course B

Athletes will be invited to inspect the course for Round B at the conclusion of Round A.

Starting order: round A

The starting order for Round A follows the reverse order of Penalties incurred in the first, second and third qualifying Competitions of the Games. In the event of equality of Penalties, the same starting order as in the second round of the Team Competition (third Individual Qualifying Competition) is used to decide the order of go for those Athletes. The 35th qualified participant will, therefore, start as number one.

Starting order: round B

The starting order for Round B follows the reverse order of the Penalties and time incurred in Round A. The Athlete with the most Penalties and slowest time starts first, the Athlete with the least Penalties and fastest time starts last. Athletes with equality of Penalties and time retain the same starting order as in Round A.

Jump-off

Athletes tied on penalties only for a medal placing shall compete in a jump-off. The starting order in the jump-off is according to the same order as Round B. If more than one jump-off is required to decide medal placing, the jump-off for the third place takes place before the jump-off for the first and the second place. In case of equality of Penalties and time for any of the medal placing after the first jump-off, there is a second jump-off over the same course. In case of equality of Penalties and time after the second jump-off, the Athletes concerned are placed equal.

Individual Placing

The classification will be established according to the Penalties and time in the jump-off. Classification of Athletes not taking part in the jump-off will be according to aggregate Penalties over both rounds and the time incurred in the second round. Classification of Athletes not taking part in the second round will be according to Penalties and time in the first round.

In case of a tie on penalties and time for Olympic Individual qualification, the procedure outlined in Article 14 applies.

PAN-AMERICAN GAMES MEDALS

Gold, silver and bronze medals will be awarded to each member of the three best placed teams in the Team Final and to the individuals placed first, second and third in the Individual Final Competition.
