Remarks

An overview of the training/warm-up timetable for the entire Event should always be distributed, but make it clear that there is a possibility of updates on a daily basis.

Indication of footing breaks should always be included in timetables.

It is important to liaise with the person responsible for any displays or shows that might be planned in order to ensure that they are also allocated exercise times, and that they do not enter the warm-up arena or any other arena while it is being used by competition Horses either during training or classes.
