

FEI COMMUNICATION V Self-Testing Kits - Information 28 June 2021

Dear FEI Tokyo Olympic Games Delegation,

Further to our communication of Friday 25 June, please find below instructions on how to receive your self-testing pre-travel kits and proceed with the testing process.

Step 1. URGENT - Registration of the address where you would like to receive your testing kits.

You will be receiving (or may have already received) an email(s) from Meenta, our testing kits supplier (no-reply@meenta.io), inviting you to "Accept Test". Please click on one email to set-up your account. You will be required to provide the address where the kits should be sent to you. **Please complete this information as soon as you receive Meenta's email** to ensure your test kits are received in a timely manner.

You will be receiving your tests via FedEx. While only two pre-Games tests are required, we are sending you a total of three to four tests (depending on your country requirements) to ensure account for any error. Please be sure to store your testing kits at room temperature and out of direct sunlight.

Step 2. Creating your Meenta account to claim your tests and retrieve your result certificate.

Please find attached detailed instructions from Meenta for your pre-travel Covid-19 tests for Tokyo.

When you are ready to take your test, please visit: <https://testing.meenta.io/covid> to login to your account. Upon login, follow the test claiming instructions and ensure you complete all of the required forms. *You will need to complete these same forms each time you take a test.*

Testing instructions have been included in this email, along with Online Registration Information. Hard copies of the instructions will also be provided with your testing kits.

Should you have any questions regarding your tests, please contact covid.tokyo@fei.org or Meenta directly at support@meenta.io.
