## Key Event Requirements (KERs) System

We are happy to inform you that the much talked about FEI Key Event Requirements (KERs) System will be launched to cover all FEI events from 1 January 2024.

The initial 14 KERs that have been identified, cover aspects such as biosecurity, veterinary services, field of play and training provision, as well as multiple aspects of stable provision, including security, stable size, ventilation, fire precautions and stable cleanliness.

All KERs are covered by FEI rules, and monitoring of their compliance is conducted by FEI officials on-event and through established post event reporting mechanisms.

All information outlining the KERs, how they are monitored and followed-up on is available on **Inside.FEI.org**.

Thank you very much for your support and participation in the success of the Key Event Requirements System.
