Media and Communication
Athlete Communications & Interviews

Pre-Event

When in need of fulfilling athlete interview requests from members of the media, we will work with you directly to gain appropriate access to your federations athletes in a timely manner per each request.

We anticipate as we get closer to September, the number of pre-event request access to athletes via the press will increase, most importantly after team selections.

If needed, we can help you prepare information statements about the event and progress of the venue in relation to sport, accommodations, ticketing, if questions arise or become prominent in NF communications with the media.

We will work directly with each NF Press Officer to coordinate specific interview requests pre-event.
Athlete Communications & Interviews

During Event

The FEI Communications Team and the Tryon Communications & Marketing Team will enforce mandated guidelines during the event in regards to media access to athletes outside of official press conferences and NF-organized interviews.

Media will **NOT** be allowed in the stabling area – only on a case by case basis will the Press Operations Team and FEI Communications Team determined if access to stabling will be granted.

If a member of the media requests an in-person interview with a rider, the Press Operations team will coordinate directly with the representing NF Press Officer for direct access to athletes.

There will be a Chill-Out Zone in the Media Center, as well as an I-Zone near the Mixed Zone for more casual interviews with athletes pre and post competition.
Athlete Communications & Interviews

节水 NF Press Officers will be notified prior to any official sport press conference or official communication press conference.

节水 Press Officers will be responsible for coordinating their athletes timely/pre-determined arrival at official press conferences.

节水 It is our goal to make this the most comfortable and efficient FEI World Equestrian Games™ for the media yet – and we need your help to make that possible!

Post Event

节水 Communication and requests via the media post-event will be coordinated through the Press Operations Team and the representing NF Press Officer.
Mixed Zone, Press Conferences and Interviews

All Chefs de Mission, Chefs d’Equipe, Athletes, team personnel and especially medalists and placed athletes are requested to make themselves available for interviews when requested by the FEI World Equestrian Games™ 2018 Tryon Media Team.

In addition, all Athletes will be obliged to pass through the flash interview and mixed zones after competing.

All medalists, placed athletes and the best US athlete of the respective discipline are obliged to attend the Press Conference at the end of the day of competition. Other persons may be requested by media, and their presence would be greatly appreciated upon request of the FEI World Equestrian Games™ 2018 in Tryon Media Team.

Team Kiss & Cry Areas: Each stadium will have a “Team Kiss and Cry” area to which a maximum of 7 persons pertaining to the relevant Athlete currently in the arena will be allowed. Up to 16 persons will be permitted during the vaulting squad competition.
Social Channels & Usages

Social media and the varying platforms will play a major role in global coverage.

Coordinated efforts through sport channels will help propel the reach and exposure of the event.

It is our goal to make this the most innovative and forward-thinking games through the usage of social media.
