## 1. Introduction

Further to the recent update of our IT system, it is now possible to send the FEI the results in a new excel file allowing us to import directly in XML format. This procedure will hopefully simplify and speed up procedures for the OC, NF and FEI and will furthermore allow the results to be processed more efficiently to the benefit of all involved.

Please find below the description, information and explanations of the result files required in order to correctly and swiftly upload them into the FEI Family database.

An example of a results file is attached to the end of this document.
