**INFORMATION TECHNOLOGY (IT)**

**Web Services System**

The FEI IT Department is pleased to present the Web Services system to you.

This system is designed to facilitate the work of NF members and the exchange of data between the FEI and NFs.

The system has several advantages, including:

- allowing NFs to retrieve international results in order to show them on their national records; and
- avoiding extra work related to annual registrations for Athletes and Horses.

Please consult our Web Services page for more details.

If you are interested in Web Services, please contact: Laurianne Cordey.
