VETERINARY

2012 Equine Prohibited Substances list

The FEI Bureau has approved changes to the current FEI Equine Prohibited Substances List to create the 2012 version of the List.

The changes were proposed by the FEI List Expert Group and also as a result of feedback from earlier consultations.

Only a few changes have been made and a summary is provided here. In order to have clarity about the changes, initially only the summary will be published on www.feicleansport.org, on www.fei.org/veterinary/veterinary-updates and at www.fei.org/veterinary/doping-and-controlled-medication. A 2011 version of the List with the 2012 changes added (and highlighted) will be published at a later date.

We urge all National Federations to familiarise themselves and their athletes with these changes well in advance of the 2012 Equine Prohibited Substances List coming into force on 1 January 2012.

If you have any queries regarding this, please contact Graeme Cooke or by tel +4121 310 47 47.

* Access to FEI Family is restricted. If you need any specific information that is mentioned in the FEI Update and is only published on FEI Family, please contact your National Federation.
