7th INTERNATIONAL COLLOQUIUM ON WORKING EQUIDS 2014

World Horse Welfare is to host the 7th International Colloquium on Working Equids at Royal Holloway, University of London from 1 to 3 July 2014.

The Colloquium on Working Equids was established in 1991 and has been held every four years as a pivotal event for those involved in helping the world’s 100 million working horses, donkeys and mules.

Bringing together development professionals, veterinary surgeons, academics, researchers and aid and welfare organisations, this Colloquium will focus on the emerging awareness of the link between the welfare of working equids and international development. As such, next year’s event would be of interest to those who help people in developing communities, in addition to those who help working equids.

Please find enclosed the preliminary announcement for the event and a call for abstracts of research pertaining to the theme and three key sections of the event. Abstracts can be submitted until 22 November 2013; formal registration for the event opened on 2 October 2013 at www.colloquium2014.com. A bursary scheme to attend the event is also available. Further information and registration can be found on the Colloquium website.
