First of all Saudi Arabian Equestrian Federation would like to thanks FEI solidarity & Mr Mohamed Shafer Khalifa for the support to organize such courses in KSA which we were looking forwarded years ago

Education of the coaches , ridres , owners & officials in the main target for Saudi Arabian Equestrian Federation in their strategy and vision

The course was very helpful for the coaches as they learn the correct rules and information required as basement for them for their training program for horses and this will develop the ways and thinking of coaches in the future in training their horses and educate the riders and owners with the update rules and program in the right way, so I think we reach the aim of the course which is to teach coaches “How to Coach” using adult learning techniques.

We are looking forward to organize more courses in the future with cooperation with FEI solidarity
