

MEDICAL INFORMATION FORM FOR ARMBANDS

Art. 942.6 – FEI Driving & Para Driving Rules

The purpose of this form is to ensure that vital information is available to first aid or medical personnel in case of emergency.

Athletes with medical conditions that may be relevant in the case of a medical emergency are responsible, at every Event when Driving, for wearing a medical data carrier* from a system provider able to communicate information at least in English. Alternatively (and at the minimum) a medical armband of good quality can be used. Athletes who chose to wear an armband should use the present form.

Medical data carrier (also called "medical identification tag"): small emblem or tag worn on a bracelet, neck chain, or on the clothing, intended to alert paramedics/physicians/first responders that the wearer has an important medical condition. Conditions that are relevant include recent head injury, serious past injuries/surgery, chronic health problems such as diabetes, long-term medications and allergies. If in doubt, the Athlete should discuss this with their own treating physician.

1. Athlete personal information

First Name

Last Name

FEI ID

2. Declared medical information

Type of medical condition	Further information
Head injury	
Serious past injury/surgery	
Long term medication	
Allergies
