

NOC - P ACCREDITATION ACCESS POLICY

1. Introduction

The information below stems from the Accreditation at the Olympic Games – Detailed Specifications published by the IOC in March 2023 and aims to clarify how this concept will apply for Paris 2024.

Following the deletion of the Training Access Passes, the “P” Accreditation concept and quantities have been reviewed to cover persons previously covered by Training Access passes. As such, “P” accreditations will allow persons who are not part of an NOC delegation but are considered essential for athlete preparation for the Olympic Games, to access training venues and/or training areas in competition venues.

2. Operational Rules

As per the rules set forth in the Accreditation at the Olympic Games – Detailed Specifications published in March 2023:

- The “P” category is part of the NOC’s delegation. However, personnel with “P” accreditations will not be considered when calculating the bed allocation in the Olympic Village(s) and will need to make their own provision to obtain a visa to enter French territory.
- “P” accreditations may not be used by non-accredited replacement athletes. Alternate athletes and Training Partners should be accredited as “Ap” Alternate and “P” Training Partner respectively based on individual IF rules.
- “P” accreditations are nominative and non-transferrable.
- “P” accreditations do not grant additional entitlements such as seating, dining, or transport services.
- Inappropriate use of “P” accreditation or inappropriate behaviour of “P” accreditation holders may result in the “P” accreditation being cancelled.
- “P” accreditations can be transferred to “Ao” or “VAA” provided it is within quota. However, “P” quotas cannot be transferred, therefore when transferred to “Ao” or “VAA”, the “P” quota will be lost.

3.P accreditation Holders

As per the rules exposed in the Accreditation at the Olympic Games – Detailed Specifications published in March 2023, “P” accredited persons can be of 3 categories:

- Personal coaches
- Support personnel
- Training partners, for the following sports only:
 - o Boxing
 - o Judo
 - o Taekwondo
 - o Tennis
 - o Wrestling

4.Venue & Zone Access

As per the rules exposed in the Accreditation at the Olympic Games – Detailed Specifications published in March 2023, “P” accreditation gives access to a single sport’s training venues only. Should a sport have multiple training venues, then the “P” accreditation will give access to all the training venues for that sport.

Please see below an overview of general access rights for “P” accredited persons:

Population	Sport/Discipline	Access Entitlements				Quota By Sport
		Standalone Training Venues	Training Areas on Comp Venues	Warm-Up	Rest of Competition Venues	
Personal coaches	All disciplines except GLF	Yes (single sport)	Yes (single sport)	If possible*	No	No quotas for the maximum number by discipline.
Support Personnel						
Personal coaches	GLF	Yes (single sport)	Yes (single sport)	If possible*	No	1 per athlete
Training Partners	BOX	Yes (single sport)	No	No	No	No quotas for the maximum number by discipline. Each venue has a maximum quota for P at one time. Quota to be determined by Paris 2024 and IF.
	JUD			Yes	Yes (single sport)	
	TKW					
	WRE					
	TEN	Yes (single sport)	Yes (single sport)	Yes	Yes (single sport)	
Other disciplines.	No training partners.					

* As a general principle, P accredited persons will not be allowed on warm-up areas, however some exceptions apply for the disciplines named below (details included in 6. Venue Quotas):

- Athletics
- Cycling Track
- Equestrian
- Football
- Fencing
- Artistic Gymnastics
- Rhythmic Gymnastics
- Trampoline
- Judo
- Shooting
- Tennis
- **Table-Tennis**
- Taekwondo
- Wrestling

For the Paris 2024 Olympic Games, should a sport have a training venue at a competition venue, access will only be allowed to the venue in the pre-competition period, unless there is a dedicated training area on the venue, or there are specific times outside of competition that allow for training. If the training area is the competition FOP during specific time slots, then access may be given during those slots.

Privilege	Accessible Areas
Sports/Venues	
CODE	Competition venue(s) and training venue(s) for each discipline – white letters with black background
CODE	Training venue(s) anytime and/or competition venue(s) on training days only – white letters with green background
Zones	
WHITE	General circulation areas
2	Athlete preparation areas

As a standard rule, “P” accredited persons will not be able to access zone BLUE (Field of Play):

- For disciplines where the FOP is used as a training area in the pre-competition period, “P” accredited persons will not need BLUE as the BLUE accreditation zone is not activated on non-competition days/times.
- For disciplines where access to zone BLUE is needed during the competition period, a Supplementary Access Control Device or upgrade pass may be provided, as per access control rules for those disciplines. **Details for distribution will be included in the Team Leaders’ Guides of each sport.**

“P” accredited persons who have access to warm-up areas may only do so during the warm-up slot of the corresponding athlete.

Please note Olympic & Paralympic zoning principles will not apply on standalone training venues.

Paris 2024 will enforce the departure of “P” accredited persons from the training venue premises once the training session is over.

Please note that “P” accredited persons do not have access to the Athletes Lounges.

Please note that “P” accredited persons do not have access to the Same Discipline Athletes tribune.

Please note that “P” accredited persons do not have access to the technical filming positions.

“P” ACCREDITED PERSONS ACCESS TO THE OLYMPIC VILLAGES

“P” accreditation for the following disciplines will give access to the Olympic Village **during their respective training periods and training slots only:**

- Basketball:
 - o “P” accredited persons for Basketball will not have access to the OVL in Lille unless they apply for guest passes.
- Fencing
- Handball:
 - o “P” accredited persons for Handball will not have access to the OVL in Lille unless they apply for guest passes.
- Modern Pentathlon for Fencing training
- Weightlifting
- Wrestling

For these sports, “P” accredited persons will not have to use an Olympic Guest pass to enter the training venues but will not have “OLV” or “R” codes on their accreditation.

“P” accredited persons must leave the training venues and the Olympic Village once the training session is over.

Failure to comply to this rule will be recorded and reported to the IOC and may result sanctions ranging from the “P” accreditation being suspended for the following day to the “P” accreditation being cancelled.

In case of repeated misuse of “P” accreditation by an NOC or individual, further sanctions will be put in place.

“P” accredited persons for any other discipline will not have access to Olympic Villages unless the accredited person uses an Olympic Village Guest pass.

5. NOC Quotas

As per the rules exposed in the Accreditation at the Olympic Games – Detailed Specifications published in March 2023, each NOC will have a maximum allocation of “P” accreditations based on athlete numbers and the number of disciplines in which said NOC has athletes entered:

Number of Athletes	Maximum Number of “P” accreditation
1-49	2 per discipline in which an NOC is entered
50-99	3 per discipline in which an NOC is entered
99-199	4 per discipline in which an NOC is entered
200-299	5 per discipline in which an NOC is entered
300-399	6 per discipline in which an NOC is entered

400-499	7 per discipline in which an NOC is entered
500+	8 per discipline in which an NOC is entered

Each NOC will be free to allocate their “P” accreditation to each sport as it sees fit.

However, in conjunction with each International Federation, Paris 2024 will enforce quotas of “P” accredited persons allowed at any given time on each venue (see 6. Venue Quotas).

For coordination purposes, NOCs are encouraged to use the ETS to inform Paris 2024 of the allocation of “P”.

6. Venue Quotas

As per the IOC Accreditation Guide, Paris 2024 and the relevant international federations have agreed to the quotas of “P” accredited persons allowed at any given time on venue stated below. Any attempts to circumvent these quotas will be considered inappropriate use of the “P” accreditation (see 2. Operational Rules). “P” accredited persons will have no access to venues not mentioned in this table.
