

Pre-Arrival Testing - Alltech FEI World Equestrian Games™ 2014

Horses competing in the Alltech FEI World Equestrian Games™ can be tested for FEI Equine Prohibited Substances through the Pre-Arrival Testing service (PAT). Testing will be carried out by LCH, the FEI Reference Laboratory in France. The PAT service is offered on a voluntary basis through the National Federations and for a limited time only before the scheduled arrival dates of horses at the Games' stables.

The PAT service is available exclusively to the equine athletes listed by the National Federation and entered in the Alltech FEI World Equestrian Games™ 2014 - as of 21 July - the day after the closing date for Nominated Entries. The LCH - Laboratoire des Courses Hippiques providing the PAT service, is the same laboratory conducting the A sample analysis during the Games.

The PAT service offers either a full screening programme or the standard Elective Testing programme for up to four nominated Controlled Medication Substances. If the full screening programme is selected, the analysis will be available up to 14 days before the scheduled arrival times of horses at the Games' stables. Alternatively, the Elective Testing programme will be available up to five working days before the scheduled arrival times of horses at the Games' stables.

The nominated substances for Elective Testing must be selected from the 2014 FEI Prohibited Substances List within the category of Controlled Medication.

For further information, please see the documents below. All questions and concerns may be addressed to Miss [Caterina Termine](#).

Alltech FEI 2014 World Equestrian games™ Pre-Arrival Testing (PAT) Conditions and Requirements

Horses competing in the Alltech FEI World Equestrian Games™ can be tested for FEI Equine Prohibited Substances through the Pre-Arrival Testing service (PAT). Testing will be carried out by LCH, the FEI-approved laboratory in France.

The PAT service is offered on a voluntary basis through the National Federations (NFs) and for a limited time only before the scheduled arrival dates of Horses into the Games' stables.

The PAT service will be available exclusively to the NF-listed equine athletes entered for the Alltech FEI World Equestrian Games™ 2014 as of 21 July (the day after the Nominated Entries' closing date), and is only available through the FEI Reference Laboratory LCH (Laboratoire des Courses Hippiques), the same laboratory conducting the A Sample analysis during the Games.

The PAT service offers either a full screening programme or the standard Elective Testing program for up to four nominated Controlled Medication Substances. If the full screening programme is elected, it will be analysed in exactly the same way as the testing during the Games and will be available up to 14 days before the scheduled arrival times, of the horses for each discipline at the stables. Alternatively, the Elective Testing Programme will be available up to five working days before the scheduled arrival times of the horses of each discipline at the Games' stables.

The nominated substances for Elective Testing must be from the 2014 FEI Prohibited Substances List, in the category of Controlled Medication.

See Figure 1 for a summary of the PAT service available. Table 1 provides details of the last submission dates for samples to be accepted by the FEI Reference Laboratory, reporting times, and costs.

Note: on the last day for submission of samples these must be received at the laboratory no later than 1700 (5pm) CET.

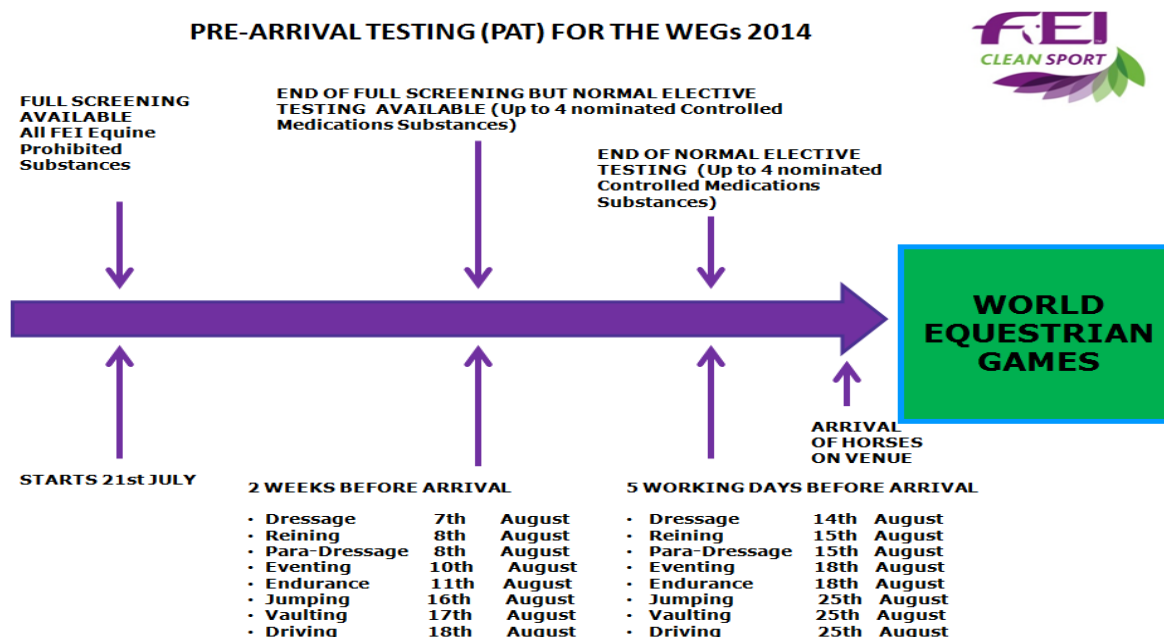

Figure 1: Summary of Pre-Arrival Testing (PAT) service

Sample submission: Conditions and requirements

PAT samples must be submitted with an individual PAT Request Form and will not be accepted otherwise. PAT Request Forms will be sent directly to participating NFs, and are available from the FEI website (www.fei.org/veterinary) or the FEI Veterinary Department. To coordinate the PAT service for horses listed on the Nominated Entries, requests will only be accepted from the NF Secretary General or his or her single appointee, to coordinate the testing of the horses that are on the Nominated Entries of that NF. Both urine and/or blood samples may be submitted using only Berlinger testing kits.

As PAT Full Screen Testing is restricted to horses listed on the Nominated Entries for each discipline within the specified time frame (see table 1), DNA samples may be required in the event that there are concerns about the origin of the samples.

LCH Contact: to purchase kits, please contact LCH at secretariat@lchfrance.fr

Reporting of Results and Payment

This PAT service is voluntary and any results will be a matter solely between the Laboratory and the single appointee of the NF Secretary General. No results from PAT will be reported to the FEI, its Officials, or to any other organisation or entity. The reporting time for the Full Screen from the date of sample submission will be 7 working days and for Elective Testing, 3 working days. **Please note that the Laboratory will be closed on Saturdays and Sundays during this period.** All samples must be sent clearly labelled as '2014 WEG PAT - DISCIPLINE', for example '2014 WEG PAT - JUMPING' along with the other details required as instructed on the PAT Request Form.

Special rates have been negotiated for the cost of this testing and payment for any services incurred in using the PAT service must be made by the NF at the time of the PAT Request Form submission with the samples. **Payment must be made by electronic bank transfer, and only when payment has been received will the testing be undertaken. The LCH must be called on the number on the PAT Testing Form giving the payment confirmation number in order to initiate testing.**

The Payment is to be transferred to the following account

IBAN: FR76 3000 3030 1000 0372 9471 327
BANK NAME: SOCIETE GENERALE
BIC ADDRESS SWIFT CODE: SOGEFRPP

We remind you again that this voluntary program is available **only** for those horses on the Nominated Entries for the World Equestrian Games. Any violation of this stipulation or interference or manipulation with the PAT service and/or its procedures will be treated as a violation of the Equine Anti Doping and Controlled Medication Regulations and/or an integrity rule violation. The decision to take advantage of the PAT offered as a voluntary service is at the user's own risk and neither the FEI nor the Laboratory assumes any liability or responsibility whatsoever for any aspect of the PAT. Further, negative test results arising from the PAT will not constitute a defence to an Equine Anti-Doping and Controlled Medication violation incurred outside of the PAT.

Further Information

Further information and the PAT Request Forms for sample submission are available at: www.fei.org/veterinary.

For any further enquiries please contact caterina.termine@fei.org at the FEI Veterinary Department. The address of the LCH Paris FEI Laboratory is:

Laboratoire des Courses Hippiques (LCH)

PRE-ARRIVAL TESTING (PAT) FOR ALLTECH FEI WORLD EQUESTRIAN GAMES

APPLICATION FORM FOR PRE-ARRIVAL TESTING

PLEASE COMPLETE IN CAPITAL LETTERS as the request for Pre-Arrival Testing (PAT) will be refused if the information cannot be read.

To initiate a request for PAT, this form must be completed and a copy emailed to secretariat@lchfrance.fr

The original must then be sent together with the sample to the FEI Accredited Laboratory, Laboratoire des Courses Hippiques LCH (address below).

Before completing this form, please read carefully the accompanying important "Sample Submission Conditions and Requirements", noting especially the deadlines to send samples for each discipline and the need for a Secretary General Appointee single recipient for all information concerning the PAT program and advance payment

PLEASE INDICATE ON PACKAGING, SAMPLE TYPE AND DISCIPLINE i.e. "PAT SAMPLE-JUMPING" ETC.

Horse's name		Sex	
FEI Passport number		Nationality	
Date of Horse's arrival at WEG stables		Discipline	

Please be advised that the Full Screening Tests and Elective Testing are offered through the PAT program. The Full Screening opportunity ceases to be available 14 days before the date of the Horse's scheduled arrival at the WEG stables. The standard Elective Testing is available up until 5 days before the Horse's scheduled arrival at the WEG stables.

Type of test (please tick the test that is requested)	Tick	Price € (EUR, VAT included) (per urine AND/OR blood sample*)
Pre-WEG Full Screen (available only from 21st July to 14 working days before date of arrival)	<input type="checkbox"/>	265
Elective Testing (ends 5 working days before arrival)	<input type="checkbox"/>	235

PAYMENT MUST BE MADE IN ADVANCE – PLEASE CALL WEG ACCOUNTS RECEIVABLE ON +33 1 69 75 28 28 WITH THE CONFIRMED PAYMENT NUMBER DETAILS TO INITIATE TESTING. YOU WILL ALSO BE REQUIRED TO PROVIDE THE HORSE'S FEI PASSPORT NUMBER.

If Elective Testing is requested, please list the Controlled Medications to be tested for (limited to 4 substances per horse):

1:	2:	3:	4:
-----------	-----------	-----------	-----------

Please provide the details of the one Contact Person appointed by the *National Federation Secretary General* to answer queries and receive results reported by email. **This will be the only person authorised to receive any information relating to the PAT without exception.**

Name:		E Mail:	
Phone:		Fax:	

Sample Information: please indicate whether i) blood, ii) urine or iii) both urine & blood will be submitted			
Date of urine/blood collection		Approximate time of collection	
Date of sample dispatch		Expected date of sample arrival	
Shipping details (courier service), AWB number etc			

Declaration by the **NF appointed Single Representative**: I affirm that this sample is from a horse on the Nominated Entries List for the World Equestrian Games 2014 and acknowledge that all of the information provided above is true, accurate and submitted in good faith. Any violation of this stipulation or interference or manipulation with the PAT procedures will be treated as a violation of the Equine Anti Doping and Controlled Medication Regulations as well as an integrity rule violation. The decision to take advantage of the PAT offered as a voluntary service is at the user's own risk and neither the FEI nor the Laboratory assumes any liability or responsibility whatsoever for any aspect of the PAT. Further, negative test results arising from the PAT will not constitute a defence to an Equine Anti-Doping and Controlled Medication violation incurred outside of the PAT.

Name:		Signature:		Date:	
--------------	--	-------------------	--	--------------	--

***Note: For Full screening the price is the same, regardless of whether only urine, only blood, or urine and blood are submitted.**
