

Dear Permitted Treating Veterinarian,

The FEI Veterinary Department would like to update you with some information relevant to your role:

European Equine Health & Nutrition Congress

On Friday, February 15, 2019, the 9th European Equine Health and Nutrition Congress will take place at the Department of Equine Health of the Faculty of Veterinary Medicine at Utrecht University. In addition to an extensive workshop programme, a mini-symposium on "Nutritional causes of positive doping testing" organised by the EEHNNC will take place in relation to FEI 'Clean Sport Initiative'. Delegates will also be able to sign up for a faculty tour focusing on equine research and education facilities.

More detailed information is available on the EEHNC website www.equine-congress.com and in the attached press release.

FEI Equine Prohibited Substances List: Call for suggestions by List Group

The 2019 Equine Prohibited Substances List became effective on 1 January 2019 and is available for download [here](#). The review process for the 2020 Equine Prohibited Substances List changes is now underway and we would like to invite veterinarians and other interested parties to submit their suggestions for change for consideration by the List Group.

Please submit suggestions, using the [FEI Prohibited Substances List Suggestion Form](#), no later than 15 March 2019. Submissions received after this date will be evaluated during 2020.

We thank you for your continued contribution and send you our very best wishes for the New Year.
