10.4 Acne treatment .....	31
10.5 Paracidal and scabicial preparations .....	31
10.6 Keratolytics .....	31
10.7 Emollient, barrier and sun protection preparations .....	32
11. ANTISEPTICS AND DISINFECTANTS .....	32
11.1 Antiseptics .....	32
11.2 Disinfectants .....	33
12. GASTROINTESTINAL MEDICINES .....	34
12.1 Anti-secretory medicines .....	34
12.2 Antacids .....	35
12.3 Antiemetic and antispasmodic medicines .....	35
12.4 Laxatives .....	36
12.5 Medicines for diarrhea .....	37
12.6 Probiotics .....	37
13. HORMONES, ENDOCRINE MEDICINES, AND CONTRACEPTIVES .....	38
13.1 Contraceptives .....	38
13.2 Progestogens .....	39
13.3 Insulins and other medicines used for diabetes or blood sugar control .....	39
13.4 Thyroid hormones .....	40
14. OPHTHALMOLOGICAL PREPARATIONS .....	40
14.1 Anti-infective agents .....	40
14.2 Artificial tears .....	41
14.3 Hay fever symptom relief .....	41
14.4 Anti-inflammatory agents .....	41
14.5 Local anaesthetics .....	42
14.6 Mydriatics .....	42
14.7 Glaucoma .....	43
14.8 Diagnostic agents .....	43
15. MEDICINES FOR MENTAL HEALTH AND BEHAVIOURAL DISORDERS .....	43
15.1 Medicines for depressive disorders .....	43

15.2 Medicines for anxiety disorders .....	44
16. MEDICINES FOR SLEEP DISORDERS .....	45
17. MEDICINES ACTING ON THE RESPIRATORY TRACT .....	45
17.1 Anti-asthmatic agents and medicines for chronic obstructive pulmonary disease .....	45
17.2 Antitussive medicines .....	47
18. DILUENTS FOR INJECTION & STERILE CLEANING .....	47
19. EAR, NOSE AND THROAT MEDICINES .....	50
20. MEDICINES FOR TREATMENT OF ORAL CONDITIONS .....	52
21. MEDICINES FOR HAEMORRHOIDS AND PRURITUS ANI .....	53
22. EMERGENCY & PRE-HOSPITAL CARE MEDICINES .....	53
22.1 General anaesthetics .....	53
22.2 Preoperative medication and sedation for short-term procedures .....	54
22.3 Medicines used in anaphylaxis .....	55
22.4 Antiarrhythmic and cardiac arrest medicines .....	56
22.5 Muscle relaxants (peripherally acting) .....	57
<b>Index of medicines</b> .....	<b>58</b>

## About the Pharmacy Guide

All information contained in this Pharmacy Guide was correct at the time of publication in June 2019. However, please note that these details should be subject to change between now and the Games. Tokyo 2020 assumes no responsibility for any aspect of healthcare administered with the aid of this information or any other use of this information. Please refer to complete and correct information.

All updates to this guide will be posted on Tokyo 2020 Connect where they should be downloaded by NPCs. This first edition of the Pharmacy Guide is being published in electronic form only. Printed versions will be distributed to NPC medical teams upon arrival at the Paralympic Village at Games time.

## Drug Information

The information in this guide is based on Japanese licensed drug indications and has been adapted from either approved package inserts of each product or “Kusuri-no-Shiori”, both of which are information sheets made by each pharmaceutical company.

For more comprehensive prescribing and drug information for each medication presented in this Pharmacy Guide, please refer to the complete package inserts available in Japanese online at Pharmaceuticals and Medical Devices Agency (PMDA).

<http://www.pmda.go.jp/PmdaSearch/iyakuSearch/>

For further information in English, please refer to “Kusuri-no-Shiori”, which is a drug information sheet written in English informed by RAD-AR Council Japan. The complete current edition of “Kusuri-no-Shiori” is available online.

<http://www.rad-ar.or.jp/siori/english/index.html>

“Kusuri-no-Shiori” is designed as a digest for rapid reference and it should not always include all information necessary for prescribing or dispensing. If you require any further information, please contact the Polyclinic Pharmacy.

# Welcome

The Tokyo Organising Committee of the Olympic and Paralympic Games (Tokyo 2020) has developed a medical services programme dedicated to providing comprehensive medical care during the Olympic and Paralympic Games Tokyo 2020. This Pharmacy Guide contains the definitive list of medicines available from the Polyclinic Pharmacy, with comprehensive prescribing information for each drug, and details of the procedures for the prescribing and supply of medicines to individuals requiring medical treatment.

The medicines listed in this guide will be provided to athletes and other accredited individuals free of charge. Medicines should be prescribed in quantities required for immediate and necessary care for the duration of the Games - the Tokyo 2020 Chief Medical Officer reserves the right to review each prescription with regard to an appropriate quantity. Any individual with an existing medical condition is advised to bring a sufficient amount of medicine with them to cover the duration of their visit to Japan and their travel home. If a National Paralympic Committee (NPC) team doctor wishes to prescribe a medicine not included in this Pharmacy Guide, every effort will be made to facilitate the availability of the medicine. However, the prescription will be at the cost of the NPC.

The medicines listed in this guide are classified according to the World Anti-Doping Agency (WADA) 2020 Prohibited List for use in-competition as either “Not Prohibited”, “PROHIBITED”, or “Prohibited in particular sports”. Special procedures are in place at the Games for the prescribing of medicines to athletes that are classified as “Prohibited”. All athletes and healthcare professionals involved in prescribing or administering medicines should familiarise themselves with the World Anti-Doping Code and the WADA 2020 Prohibited List.

Particular care should be taken when a prescription is written for a prohibited substance. This requires a Therapeutic Use Exemption (TUE), which must be approved first by the Therapeutic Use Exemption Committee (TUEC). Information on the prohibited status of any particular medicine purchased in Japan can also be found on the Global Drug Reference Online (Global DRO) website at [www.globaldro.com](http://www.globaldro.com)

Due to the nature of temporary registration, NPC team doctors are restricted to caring for members of their own delegation, or to members of other specified delegations where a prior agreement in writing has been submitted to Tokyo 2020.

We look forward to welcoming you to Tokyo and wish you a safe and enjoyable Tokyo 2020 Games.

Yours Sincerely,

**Takao Akama**

Chief Medical Officer,  
Tokyo 2020

**Tetsuya Miyamoto**

Deputy Chief Medical Officer,  
Tokyo 2020

**Kumiko Kasashi**

Chief Pharmacist,  
Tokyo 2020

## Essential information

Tokyo 2020 will provide pharmacy services at the Paralympic Village only. At other sites, necessary medical supplies will be prescribed upon medical examination by the Tokyo 2020 doctors at the medical stations.

## Village polyclinic pharmacy

A pharmacy will be located within the Paralympic Village. The pharmacy will be open from 7:00 to 23:00 daily. Outside of these hours, medicines for immediate and necessary care will be provided by the emergency doctor.

The pharmacy will provide the medicines listed in this Pharmacy Guide free of charge to individuals as part of the medical treatment for acute or the acute exacerbation of chronic medical conditions. Medicines will be dispensed on an immediate and necessary basis, by prescription only. Any individual with an existing medical condition is advised to bring a sufficient amount of medicine with them to cover the duration of their visit to Japan and their travel home.

A comprehensive medicines information service will be provided at the Polyclinic Pharmacy. Athletes and team officials in the Paralympic Village will have access to the Polyclinic Pharmacy. The medicines information service should be accessed in person, and will offer information on topics such as:

- clinical drug information
- international or foreign medicines
- poisons and toxicology information
- prohibited status of drugs in sport
- prescribing procedures

## Registration of team doctors

NPC team doctors must register in advance with Tokyo 2020 to provide medical services to members of their delegation during the Games. Registration is free of charge. Full details of the registration process will be sent to NPCs in September 2019.

Team doctors who are registered with Tokyo 2020 should write prescriptions for members of their own delegation, or members of other specified delegations where a prior written agreement between NPCs has been submitted to Tokyo 2020. These medicines prescribed by NPCs are provided at the Polyclinic Pharmacy free of charge.

Tokyo 2020 assumes no responsibility for any healthcare provided by NPC healthcare personnel to NPC team members and delegates. Tokyo 2020 will not provide malpractice or liability insurance for NPC healthcare personnel. It is recommended that NPC healthcare professionals inform their insurance company that they are travelling abroad with a sports team and check whether their malpractice insurance covers this activity.

## Import and export of medicines

Prior application through Tokyo 2020 is required to the Ministry of Health, Labour and Welfare's Regional Bureau of Health and Welfare that has jurisdiction for the port of entry at which the medicines will be imported into Japan. This will enable the NPC team doctors to bring in medicines and medical equipment for their team members.

The medicines and medical devices to be brought into Japan for a team's use should be imported as accompanied luggage with the team doctor or sent as unaccompanied luggage. (Over-the-counter drugs, prescription medicines, and cosmetic products to be used by individual members must be carried by the individual; a separate application may be required in order to bring over a certain amount. For details, please check the Tokyo 2020 Customs and Freight Forwarding Guide.)

All medicines and medical devices imported into Japan according to the application form must be appropriately utilized and managed under the care of the team doctor, during the team doctor's stay. All items, except for those consumed during the time spent in Japan, must be carried out of Japan with the registered team doctor.

The import into Japan of psychoactive drugs and narcotics for medicinal use by a delegation is not permitted. A separate application for personal use is required. For details, please check the Tokyo 2020 Customs and Freight Forwarding Guide. The import into Japan of medical cannabis and stimulants (including raw materials) is not permitted under any circumstances.

## Storage and safe use of team medicines

NPC healthcare personnel are responsible for the storage and safekeeping of their delegation's medicines and supplies. Tokyo 2020 is not responsible for, and shall bear no liability relating to or arising out of, the storage or monitoring of the supplies and medicines by the NPC.

Medicines should be stored in a secure locked receptacle and kept in the original packaging until used, and should only be administered to members of the prescribing NPC doctor's delegation (unless a written agreement exists between two NPCs). NPC doctors should ensure that robust systems are in place to ensure the safe and secure handling of medicines in their possession.

## Prescriptions prescribed by NPC team doctors

Prescription forms must be collected in person by the doctor who will use them. Prescription forms will be available from the Polyclinic Pharmacy in the Paralympic Village. Prescription forms will only be issued to doctors who are registered with Tokyo 2020. NPC team doctors are only permitted to prescribe medicines to members of their own delegation, unless a prior written agreement exists between NPCs and has been submitted in writing to Tokyo 2020.

Medicines will be provided by the Polyclinic Pharmacy when the details have been written on official Tokyo 2020 prescription forms by accredited NPC team doctors registered to prescribe in Japan. All prescriptions must be written in English. Up to seven (7) days supply, or a small complete pack of medicine, will generally be provided with a single prescription. Further supplies will normally require a subsequent prescription. Antibiotics should be prescribed in sufficient quantities to treat the medical condition. Pharmacists will call the prescriber if any concerns arise – including prescriptions for more than seven (7) days. The original prescription will be kept in the pharmacy.

All information on prescriptions must be clearly and legibly printed. Please avoid Latin and abbreviations.

The following information must be included on the prescription (TBD)

- date of issue
- patient's information;  
(name, date of birth, gender, accreditation number, sport, athlete or not, NPC)
- prescriber's information;  
(name, accreditation number, registration number, contact number)
- name of medicine, dosage form and unit strength  
(for example: Paracetamol tablets 500mg)
- quantity (for example: TBD)
- directions for use (for example: TBD)
- prohibited substances declaration where applicable (see below)

## Narcotics, cannabis and stimulants

Narcotic drugs, such as morphine and ketamine, should be prescribed by Tokyo 2020 doctors with the necessary qualifications. If a NPC team doctor wishes to prescribe narcotic drugs, they are required to consult with a qualified Tokyo 2020 doctor.

Please also note that medical cannabis and stimulants (including raw materials) should not be imported into Japan even if athletes hold a valid Therapeutic Use Exemption (TUE).

## Prescribing a prohibited substance and TUEs

Prohibited substances are drugs that, according to the WADA 2020 Prohibited List, should not be used by athletes who will be competing in the Paralympic Games, unless a Therapeutic Use Exemption (TUE) has been granted by an appropriate Therapeutic Use Exemption Committee (TUEC) or, in the case of an emergency during the Games period, a retroactive TUE application has been submitted to the TUEC following the necessary treatment.

Prescribing prohibited substances for athletes should be avoided unless a TUE is obtained in advance, or in medical emergencies when an athlete's health takes absolute priority and a retroactive TUE should be obtained (for example, for opiates for pain relief, or adrenaline (epinephrine) for anaphylaxis).

If a TUE has already been obtained from the TUEC before the prescription has been written, a copy of the TUE documentation should be presented to the dispensing pharmacist, who will then dispense the medicine for the athlete.

If a prohibited medicine is administered at a venue, the Chief Medical Officer will notify the chair of the IPC Medical Committee.

## Prescribing procedure for prohibited substances

- In an emergency, a doctor must administer all necessary treatment to an athlete, including using prohibited substances and methods if clinically required, and must apply for a retroactive TUE afterwards.
- If it is not an emergency, the prescribing doctor must explain to the athlete that a prohibited substance is being prescribed and must explain that a TUE must be applied for and approved before the athlete can start using the medication.
- The prescribing doctor and the athlete who is receiving the medication must sign the prescription to confirm that they are aware of the status of the substance.
- The dispensing pharmacist must confirm with the prescribing doctor that the substance is a prohibited substance and must also confirm that they wish to proceed to prescribe the substance.
- The pharmacist should sign the prescription to verify that he/she has informed the prescribing doctor and the athlete that the substance is prohibited.

More detail on the IPC TUE management during the Tokyo 2020 Paralympic Games is available from the Tokyo 2020 Paralympic Games Doping Control Guide.

# Available Medicines

Please note that intravenous infusions and/or injections which exceed a total of 100 mL per 12 hour period are PROHIBITED, except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations.

The information in this list is based on the World Anti-Doping Agency (WADA) 2019 Prohibited List. This list will be updated in accordance with WADA 2020 Prohibited List in time for the Tokyo 2020 Games.

## 1. MEDICINES FOR PAIN AND INFLAMMATION

### 1.1 Non-opioids and non-steroidal anti-inflammatory drugs (NSAIDs)

Generic drug name	<b>Aspirin, Dihydroxyaluminum Aminoacetate, Magnesium Carbonate</b>
Dosage form	Tablet
Strength	330mg, 50mg, 100mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Celecoxib</b>
Dosage form	Tablet
Strength	200mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Ibuprofen</b>
Dosage form	Tablet
Strength	200mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Naproxen</b>
Dosage form	Tablet
Strength	100mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Loxoprofen Sodium Hydrate</b>
Dosage form	Tablet
Strength	60mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Loxoprofen Sodium Hydrate</b>
Dosage form	Cataplasm
Strength	100mg (10cm×14cm)
Route	Transdermal
WADA status	Not Prohibited

Generic drug name	<b>Acetaminophen (Paracetamol)</b>
Dosage form	Fine Grain
Strength	20%/1g
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Acetaminophen (Paracetamol)</b>
Dosage form	Suppository
Strength	200mg
Route	Rectal
WADA status	Not Prohibited

Generic drug name	<b>Acetaminophen (Paracetamol)</b>
Dosage form	Tablet
Strength	500mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Flurbiprofen Axetil</b>
Dosage form	Injection
Strength	50mg/5mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Diclofenac Sodium</b>
Dosage form	Gel
Strength	1%/25g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Diclofenac Sodium</b>
Dosage form	Tablet
Strength	25mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Diclofenac Sodium</b>
Dosage form	Suppository
Strength	50mg
Route	Rectal
WADA status	Not Prohibited

Generic drug name	<b>Diclofenac Sodium</b>
Dosage form	Patch
Strength	15mg (7cm×10cm)
Route	Transdermal
WADA status	Not Prohibited

## 1.2 Opioid analgesics

Generic drug name	<b>Codeine Phosphate Hydrate</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Tramadol Hydrochloride, Acetaminophen (Paracetamol)</b>
Dosage form	Tablet
Strength	37.5mg, 325mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Morphine Hydrochloride Hydrate</b>
Dosage form	Injection
Strength	10mg/1mL
Route	Intravenous, Subcutaneous
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Tramadol Hydrochloride</b>
Dosage form	Tablet
Strength	50mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Tramadol Hydrochloride</b>
Dosage form	Injection
Strength	100mg/2mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Buprenorphine Hydrochloride</b>
Dosage form	Injection
Strength	0.2mg/1 mL
Route	Intravenous, Intramuscular
WADA status	<b>PROHIBITED</b>

### 1.3 Medicines for neuropathic pain

Generic drug name	<b>Amitriptyline Hydrochloride</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Pregabalin</b>
Dosage form	Tablet
Strength	75mg
Route	Oral
WADA status	Not Prohibited

## 1.4 Corticosteroids and other medicines for intra-articular use

Generic drug name	<b>Triamcinolone Acetonide</b>
Dosage form	Injection
Strength	40mg/1mL
Route	Intra-articular, Intramuscular
WADA status	Not Prohibited by intra-articular routes but <b>PROHIBITED</b> by IV and IM routes

Generic drug name	<b>Prednisolone Sodium Succinate</b>
Dosage form	Injection
Strength	10mg
Route	Intra-articular, Intramuscular, Intravenous
WADA status	Not Prohibited by intra-articular routes but <b>PROHIBITED</b> by IV and IM routes

Generic drug name	<b>Sodium Hyaluronate</b>
Dosage form	Injection
Strength	25mg/2.5mL
Route	Intra-articular
WADA status	Not Prohibited

## 1.5 Local anaesthetics

Generic drug name	<b>Lidocaine</b>
Dosage form	Injection
Strength	1%; 10mg/1mL
Route	Subcutaneous
WADA status	Not Prohibited

Generic drug name	<b>Lidocaine</b>
Dosage form	Jelly
Strength	2%/30mL
Route	Transdermal
WADA status	Not Prohibited

Generic drug name	<b>Lidocaine and Adrenaline</b>
Dosage form	Injection
Strength	10mg, 0.01mg/1mL
Route	Subcutaneous
WADA status	Not Prohibited (adrenaline in co-administration with local anaesthetic agents)

## 2. ANTI-ALLERGIC MEDICINES

Generic drug name	<b>Loratadine</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>d-Chlorpheniramine Maleate</b>
Dosage form	Tablet
Strength	2mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Fexofenadine Hydrochloride</b>
Dosage form	Tablet
Strength	60mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Montelukast Sodium</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Prednisolone</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	<b>PROHIBITED</b>

### 3. ANTICONVULSANTS & ANTISPASMODICS

Generic drug name	<b>Diazepam</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Diazepam</b>
Dosage form	Injection
Strength	10mg/2mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Diazepam</b>
Dosage form	Suppository
Strength	10mg
Route	Rectal
WADA status	Not Prohibited

Generic drug name	<b>Phenytoin</b>
Dosage form	Injection
Strength	250mg/5mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Baclofen</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Tizanidine Hydrochloride</b>
Dosage form	Tablet
Strength	1 mg
Route	Oral
WADA status	Not Prohibited

## 4. ANTI-INFECTIVE MEDICINES

### 4.1 Antibacterials

Generic drug name	<b>Amoxicillin Hydrate</b>
Dosage form	Tablet
Strength	250mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Potassium Clavulanate, Amoxicillin Hydrate</b>
Dosage form	Tablet
Strength	250mg, 125mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Benzylpenicillin</b>
Dosage form	Injection
Strength	200,000 units
Route	Intravenous, Intramuscular
WADA status	Not Prohibited

Generic drug name	<b>Cefaclor</b>
Dosage form	Capsule
Strength	250mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Ceftriaxone Sodium Hydrate</b>
Dosage form	Injection
Strength	1g
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Clindamycin Hydrochloride</b>
Dosage form	Capsule
Strength	150mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Doxycycline Hydrochloride Hydrate</b>
Dosage form	Tablet
Strength	50mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Azithromycin Hydrate</b>
Dosage form	Tablet
Strength	250mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Levofloxacin Hydrate</b>
Dosage form	Tablet
Strength	500mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Clarithromycin</b>
Dosage form	Tablet
Strength	200mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Metronidazole</b>
Dosage form	Tablet
Strength	250mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Sulfamethoxazole, Trimethoprim</b>
Dosage form	Tablet
Strength	400mg, 80mg
Route	Oral
WADA status	Not Prohibited

## 4.2 Antifungal medicines

Generic drug name	<b>Clotrimazole</b>
Dosage form	Vaginal Tablet
Strength	100mg
Route	Vaginal
WADA status	Not Prohibited

Generic drug name	<b>Isoconazole nitrate</b>
Dosage form	Vaginal Cream
Strength	1%/10g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Fluconazole</b>
Dosage form	Capsule
Strength	100mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Amphotericin B</b>
Dosage form	Syrup
Strength	100mg/mL; 24mL
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Itraconazole</b>
Dosage form	Capsule
Strength	50mg
Route	Oral
WADA status	Not Prohibited

### 4.3 Antiviral medicines

Generic drug name	<b>Valaciclovir Hydrochloride</b>
Dosage form	Tablet
Strength	500mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Oseltamivir Phosphate</b>
Dosage form	Capsule
Strength	75mg
Route	Oral
WADA status	Not Prohibited

## 5. ANTIMIGRAINE MEDICINES

Generic drug name	<b>Sumatriptan Succinate</b>
Dosage form	Tablet
Strength	50mg
Route	Oral
WADA status	Not Prohibited

## 6. IRON SUPPLEMENTS

Generic drug name	<b>Sodium Ferrous Citrate</b>
Dosage form	Tablet
Strength	50mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Saccharated Ferric Oxide</b>
Dosage form	Injection
Strength	40mg/2mL
Route	Intravenous
WADA status	Not Prohibited

## 7. MEDICINES AFFECTING COAGULATION

Generic drug name	<b>Heparin Sodium</b>
Dosage form	Injection
Strength	5,000 units/5mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Tranexamic Acid</b>
Dosage form	Tablet
Strength	250mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Tranexamic Acid</b>
Dosage form	Injection
Strength	10%; 250mg/2.5mL
Route	Intravenous, Intramuscular
WADA status	Not Prohibited

## 8. CARDIOVASCULAR MEDICINES

### 8.1 Antianginal medicines

Generic drug name	<b>Nitroglycerin</b>
Dosage form	Spray
Strength	0.3mg
Route	Sublingual
WADA status	Not Prohibited

Generic drug name	<b>Verapamil Hydrochloride</b>
Dosage form	Tablet
Strength	40mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Verapamil Hydrochloride</b>
Dosage form	Injection
Strength	5mg/2mL
Route	Intravenous
WADA status	Not Prohibited

## 8.2 Antihypertensive/heart failure medicines

Generic drug name	<b>Amlodipine Besilate</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Nicardipine Hydrochloride</b>
Dosage form	Injection
Strength	10mg/10mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Bisoprolol Fumarate</b>
Dosage form	Tablet
Strength	2.5mg
Route	Oral
WADA status	<b>PROHIBITED</b> in particular sports including Archery, Shooting and Golf (refer to WADA Prohibited List)

Generic drug name	<b>Captopril</b>
Dosage form	Tablet
Strength	25mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Enalapril Maleate</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Candesartan Cilexetil</b>
Dosage form	Tablet
Strength	4mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Digoxin</b>
Dosage form	Tablet
Strength	0.125mg
Route	Oral
WADA status	Not Prohibited

### 8.3 Antithrombotic medicines

Generic drug name	<b>Aspirin</b>
Dosage form	Tablet
Strength	100mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Clopidogrel Sulfate</b>
Dosage form	Tablet
Strength	75mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Warfarin Potassium</b>
Dosage form	Tablet
Strength	1 mg
Route	Oral
WADA status	Not Prohibited

## 8.4 Lipid-lowering medicines

Generic drug name	<b>Atorvastatin Calcium Hydrate</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

## 9. DIURETICS

Generic drug name	<b>Furosemide</b>
Dosage form	Tablet
Strength	20mg
Route	Oral
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Furosemide</b>
Dosage form	Injection
Strength	20mg/2mL
Route	Intravenous, Intramuscular
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Hydrochlorothiazide</b>
Dosage form	Tablet
Strength	25mg
Route	Oral
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Spirolactone</b>
Dosage form	Tablet
Strength	25mg
Route	Oral
WADA status	<b>PROHIBITED</b>

## 10. DERMATOLOGICAL MEDICINES, TOPICAL

### 10.1 Antifungal medicines

Generic drug name	<b>Bifonazole</b>
Dosage form	Cream
Strength	1%/10g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Terbinafine Hydrochloride</b>
Dosage form	Solution
Strength	1%/10g
Route	Topical
WADA status	Not Prohibited

## 10.2 Anti-infective medicines

Generic drug name	<b>Aciclovir</b>
Dosage form	Ointment
Strength	5%/5g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Bacitracin, Fradiomycin Sulfate</b>
Dosage form	Ointment
Strength	250 units, 2mg/g; 10g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Sulfadiazine Silver</b>
Dosage form	Cream
Strength	1%/50g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Sodium Fusidate</b>
Dosage form	Ointment
Strength	2%/10g
Route	Topical
WADA status	Not Prohibited

### 10.3 Anti-inflammatory and antipruritic medicines

Generic drug name	<b>Betamethasone Valerate</b>
Dosage form	Ointment
Strength	0.12%/5g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Hydrocortisone Butyrate</b>
Dosage form	Cream
Strength	0.1%/5g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Fluocinonide</b>
Dosage form	Spray
Strength	0.0143%/28g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Crotamiton</b>
Dosage form	Cream
Strength	10%/10g
Route	Topical
WADA status	Not Prohibited

## 10.4 Acne treatment

Generic drug name	<b>Adapalene</b>
Dosage form	Gel
Strength	0.1%/15g
Route	Topical
WADA status	Not Prohibited

## 10.5 Paracidal and scabicial preparations

Generic drug name	<b>Phenothrin</b>
Dosage form	Lotion
Strength	5%/30g
Route	Topical
WADA status	Not Prohibited

★Phenothrin shampoos for eradication of head lice are available at the Polyclinic Pharmacy.

## 10.6 Keratolytics

Generic drug name	<b>Salicylic Acid</b>
Dosage form	Patch
Strength	50%/25m <sup>2</sup>
Route	Transdermal
WADA status	Not Prohibited

## 10.7 Emollient, barrier and sun protection preparations

Generic drug name	<b>Hydrophilic Ointment</b> (White Vaseline, Stearyl Alcohol, Propylene Glycol, Polyoxyethylene 60 Hydrogenated Castor Oil, Monostearic Acid Glycerin, Methyl Parahydroxybenzoate, Propyl Parahydroxybenzoate, Purified Water)
Dosage form	Ointment
Strength	500g (25g, 20g, 12g, 4g, 1g, 0.1g, 0.1g, suitable amount/100g)
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>White Petroleum</b>
Dosage form	Ointment
Strength	100g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Heparinoid</b>
Dosage form	Cream
Strength	0.3%/25g
Route	Topical
WADA status	Not Prohibited

## 11. ANTISEPTICS AND DISINFECTANTS

### 11.1 Antiseptics

Generic drug name	<b>Chlorhexidine Gluconate</b>
Dosage form	Solution
Strength	5%/500mL
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Chlorhexidine Gluconate</b>
Dosage form	Solution
Strength	0.5%/500mL
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Ethanol</b>
Dosage form	Solution
Strength	83mL/100mL; 500mL
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Povidone-Iodine</b>
Dosage form	Solution
Strength	10%/250mL
Route	Topical
WADA status	Not Prohibited

## 11.2 Disinfectants

Generic drug name	<b>Isopropanol</b>
Dosage form	Solution
Strength	70%/500mL
Route	Topical
WADA status	Not Prohibited

## 12. GASTROINTESTINAL MEDICINES

### 12.1 Anti-secretory medicines

Generic drug name	<b>Lansoprazole</b>
Dosage form	Tablet
Strength	15mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Famotidine</b>
Dosage form	Tablet
Strength	20mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Rebamipide</b>
Dosage form	Tablet
Strength	100mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Scopolamine Butylbromide</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

## 12.2 Antacids

Generic drug name	<b>Dried Aluminum Hydroxide Gel, Magnesium Hydroxide</b>
Dosage form	Granule for Suspension
Strength	268.8mg, 480mg/1.2g
Route	Oral
WADA status	Not Prohibited

## 12.3 Antiemetic and antispasmodic medicines

Generic drug name	<b>Prochlorperazine Maleate</b>
Dosage form	Injection
Strength	5mg/1mL
Route	Intramuscular
WADA status	Not Prohibited

Generic drug name	<b>Domperidone</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Metoclopramide</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Metoclopramide Hydrochloride</b>
Dosage form	Injection
Strength	10mg/2mL
Route	Intravenous, Intramuscular
WADA status	Not Prohibited

Generic drug name	<b>Betahistine Mesilate</b>
Dosage form	Tablet
Strength	6mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Trimebutine Maleate</b>
Dosage form	Tablet
Strength	100mg
Route	Oral
WADA status	Not Prohibited

## 12.4 Laxatives

Generic drug name	<b>Sennoside A, B</b>
Dosage form	Tablet
Strength	12mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Magnesium Oxide</b>
Dosage form	Tablet
Strength	330mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Glycerin</b>
Dosage form	Enema
Strength	50%/120mL
Route	Rectal
WADA status	Not Prohibited

## 12.5 Medicines for diarrhea

Generic drug name	<b>Loperamide Hydrochloride</b>
Dosage form	Capsule
Strength	1 mg
Route	Oral
WADA status	Not Prohibited

## 12.6 Probiotics

Generic drug name	<b>Antibiotics-resistant Lactic Acid Bacteriae</b>
Dosage form	Tablet
Strength	6mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Oral Rehydration Salts</b>
Dosage form	Granules
Strength	Na <sup>+</sup> :35, K <sup>+</sup> :20, Mg <sup>2+</sup> :3, Cl <sup>-</sup> :30, Citrate <sup>3-</sup> :20 (mEq/L), Phosphate:5 (mmol/L); 4g
Route	Oral
WADA status	Not Prohibited

## 13. HORMONES, ENDOCRINE MEDICINES, AND CONTRACEPTIVES

### 13.1 Contraceptives

Generic drug name	<b>Levonorgestrel, Ethinylestradiol</b>
Dosage form	Tablet
Strength	0.3mg, 0.15mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Ethinylestradiol, Norethisterone</b>
Dosage form	Tablet
Strength	0.035mg, 1mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Desogestrel, Ethinylestradiol</b>
Dosage form	Tablet
Strength	0.15mg, 0.03mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Levonorgestrel</b>
Dosage form	Tablet
Strength	1.5mg
Route	Oral
WADA status	Not Prohibited

## 13.2 Progestogens

Generic drug name	<b>Norgestrel, Ethinylestradiol</b>
Dosage form	Tablet
Strength	0.5mg, 0.05mg
Route	Oral
WADA status	Not Prohibited

## 13.3 Insulins and other medicines used for diabetes or blood sugar control

Generic drug name	<b>Glimepiride</b>
Dosage form	Tablet
Strength	1 mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Insulin Human (Genetical Recombination)</b>
Dosage form	Injection
Strength	100 units/mL; 10mL
Route	Subcutaneous, Intravenous, Intramuscular
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Metformin Hydrochloride</b>
Dosage form	Tablet
Strength	250mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Glucose</b>
Dosage form	Injection
Strength	50%/20mL
Route	Intravenous
WADA status	Not Prohibited

★Glucose Tablets are available at the Polyclinic Pharmacy.

### 13.4 Thyroid hormones

Generic drug name	<b>Levothyroxine Sodium Hydrate</b>
Dosage form	Tablet
Strength	25mcg
Route	Oral
WADA status	Not Prohibited

## 14. OPHTHALMOLOGICAL PREPARATIONS

### 14.1 Anti-infective agents

Generic drug name	<b>Aciclovir</b>
Dosage form	Ophthalmic Ointment
Strength	3%/5g
Route	Ocular
WADA status	Not Prohibited

Generic drug name	<b>Levofloxacin Hydrate</b>
Dosage form	Ophthalmic Solution
Strength	0.5%/5mL
Route	Ocular
WADA status	Not Prohibited

Generic drug name	<b>Betamethasone Sodium Phosphate, Fradiomycin Sulfate</b>
Dosage form	Ophthalmic Solution
Strength	5mg, 17.5mg/5mL
Route	Ocular, Nasal
WADA status	Not Prohibited

## 14.2 Artificial tears

Generic drug name	<b>Purified Sodium Hyaluronate</b>
Dosage form	Ophthalmic Solution
Strength	0.3%/5mL
Route	Ocular
WADA status	Not Prohibited

## 14.3 Hay fever symptom relief

Generic drug name	<b>Epinastine Hydrochloride</b>
Dosage form	Ophthalmic Solution
Strength	0.05%/5mL
Route	Ocular
WADA status	Not Prohibited

## 14.4 Anti-inflammatory agents

Generic drug name	<b>Fradiomycin Sulfate, Methylprednisolone</b>
Dosage form	Ophthalmic Ointment
Strength	10.5mg, 3mg/3g
Route	Ocular
WADA status	Not Prohibited

Generic drug name	<b>Bromfenac Sodium Hydrate</b>
Dosage form	Ophthalmic Solution
Strength	0.1%/5mL
Route	Ocular
WADA status	Not Prohibited

Generic drug name	<b>Fluorometholone</b>
Dosage form	Ophthalmic Solution
Strength	0.1%/5mL
Route	Ocular
WADA status	Not Prohibited

## 14.5 Local anaesthetics

Generic drug name	<b>Oxybuprocaine Hydrochloride</b>
Dosage form	Ophthalmic Solution
Strength	0.4%/5mL
Route	Ocular
WADA status	Not Prohibited

## 14.6 Mydriatics

Generic drug name	<b>Atropine Sulfate Hydrate</b>
Dosage form	Ophthalmic Solution
Strength	1%/5mL
Route	Ocular
WADA status	Not Prohibited

## 14.7 Glaucoma

Generic drug name	<b>Latanoprost</b>
Dosage form	Ophthalmic Solution
Strength	0.005%/2.5mL
Route	Ocular
WADA status	Not Prohibited

## 14.8 Diagnostic agents

Generic drug name	<b>Fluorescein Sodium</b>
Dosage form	Ocular Examination Test Paper
Strength	0.7mg
Route	Ocular
WADA status	Not Prohibited

Generic drug name	<b>Tropicamide</b>
Dosage form	Ophthalmic Solution
Strength	0.4%/5mL
Route	Ocular
WADA status	Not Prohibited

# 15. MEDICINES FOR MENTAL HEALTH AND BEHAVIOURAL DISORDERS

## 15.1 Medicines for depressive disorders

Generic drug name	<b>Paroxetine Hydrochloride Hydrate</b>
Dosage form	Tablet
Strength	10mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Mirtazapine</b>
Dosage form	Tablet
Strength	15mg
Route	Oral
WADA status	Not Prohibited

## 15.2 Medicines for anxiety disorders

Generic drug name	<b>Risperidone</b>
Dosage form	Oral Solution
Strength	0.5mg/0.5mL
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Olanzapine</b>
Dosage form	Injection
Strength	10mg
Route	Intramuscular
WADA status	Not Prohibited

Generic drug name	<b>Lorazepam</b>
Dosage form	Tablet
Strength	0.5mg
Route	Oral
WADA status	Not Prohibited

## 16. MEDICINES FOR SLEEP DISORDERS

Generic drug name	<b>Zolpidem Tartrate</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Promethazine Hydrochloride</b>
Dosage form	Tablet
Strength	5mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>Ramelteon</b>
Dosage form	Tablet
Strength	8mg
Route	Oral
WADA status	Not Prohibited

## 17. MEDICINES ACTING ON THE RESPIRATORY TRACT

### 17.1 Anti-asthmatic agents and medicines for chronic obstructive pulmonary disease

Generic drug name	<b>Beclometasone Dipropionate</b>
Dosage form	Aerosol
Strength	100mcg
Route	Inhalation
WADA status	Not Prohibited

Generic drug name	<b>Budesonide, Formoterol Fumarate Hydrate</b>
Dosage form	Inhaler
Strength	160mcg, 4.5mcg; 30 puffs
Route	Inhalation
WADA status	Inhaled Formoterol is only permitted up to a maximum delivered dose of 54 micrograms over 24 hours; otherwise <b>PROHIBITED</b>

Generic drug name	<b>Tiotropium Bromide Hydrate</b>
Dosage form	Inhaler
Strength	2.5mcg; 60 puffs
Route	Inhalation
WADA status	Not Prohibited

Generic drug name	<b>Salbutamol Sulfate</b>
Dosage form	Aerosol
Strength	100mcg
Route	Inhalation
WADA status	Inhaled Salbutamol is only permitted up to a maximum 1600 micrograms over 24 hours in divided doses not to exceed 800 micrograms over 12 hours starting from any dose; otherwise <b>PROHIBITED</b>

Generic drug name	<b>Salbutamol Sulfate</b>
Dosage form	Solution for Nebulisers
Strength	0.5%; 5mg/mL; 30mL
Route	Inhalation
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Salmeterol Xinafoate</b>
Dosage form	Inhaler
Strength	50mcg; 60 inhalations
Route	Inhalation
WADA status	Inhaled Salmeterol is only permitted up to a maximum of 200 micrograms over 24 hours; otherwise <b>PROHIBITED</b>

## 17.2 Antitussive medicines

Generic drug name	<b>Dextromethorphan Hydrobromide Hydrate</b>
Dosage form	Tablet
Strength	15mg
Route	Oral
WADA status	Not Prohibited

Generic drug name	<b>L-Carbocisteine</b>
Dosage form	Tablet
Strength	500mg
Route	Oral
WADA status	Not Prohibited

## 18. DILUENTS FOR INJECTION & STERILE CLEANING

Generic drug name	<b>Distilled Water</b>
Dosage form	Injection
Strength	20mL
Route	For use as diluent
WADA status	Not Prohibited

Generic drug name	<b>Sodium Chloride</b>
Dosage form	Injection
Strength	0.9%/20mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>Sodium Chloride</b>
Dosage form	Injection
Strength	0.9%/50mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>Sodium Chloride</b>
Dosage form	Injection
Strength	0.9%/500mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>Glucose</b>
Dosage form	Injection
Strength	10%/20mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>Glucose</b>
Dosage form	Injection
Strength	5%/100mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>D-Mannitol</b>
Dosage form	Injection
Strength	20%; 60g/300mL
Route	Intravenous
WADA status	<b>PROHIBITED</b>

Generic drug name	<b>Lactate Ringer Solution</b>
Dosage form	Injection
Strength	Na <sup>+</sup> :130, K <sup>+</sup> :4, Ca <sup>2+</sup> :3, Cl <sup>-</sup> :109, L-Lactate:28 (mEq/L); 500mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>Electrolyte Hypotonic Infusion</b>
Dosage form	Injection
Strength	Na <sup>+</sup> :32, K <sup>+</sup> :20, Cl <sup>-</sup> :35, L-Lactate:20 (mEq/L); 500mL
Route	Intravenous
WADA status	<b>PROHIBITED</b> only when intravenous infusions and/or injections exceed a total of 100 mL per 12 hour period except for those legitimately received in the course of hospital treatments, surgical procedures or clinical diagnostic investigations

Generic drug name	<b>Sodium Bicarbonate</b>
Dosage form	Injection
Strength	8.4%; 1.68g/20mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Sodium Chloride</b>
Dosage form	Injection
Strength	10%; 2g/20mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Potassium Chloride</b>
Dosage form	Injection
Strength	20mEq/20mL
Route	Intravenous
WADA status	Not Prohibited

## 19. EAR, NOSE AND THROAT MEDICINES

Generic drug name	<b>Diocetyl Sodium Sulfosuccinate</b>
Dosage form	Otic Solution
Strength	5%/10mL
Route	Otic, Topical
WADA status	Not Prohibited

Generic drug name	<b>Fluticasone Propionate</b>
Dosage form	Nasal Spray
Strength	50mcg; 28 sprays
Route	Nasal
WADA status	Not Prohibited

Generic drug name	<b>Ofloxacin</b>
Dosage form	Otic Solution
Strength	0.3%/5mL
Route	Otic
WADA status	Not Prohibited

Generic drug name	<b>Betamethasone Sodium Phosphate</b>
Dosage form	Ophthalmic Otic Nasal Solution
Strength	0.1%/5mL
Route	Ocular, Otic, Nasal
WADA status	Not Prohibited

Generic drug name	<b>Tetrahydrozoline Hydrochloride, Prednisolone</b>
Dosage form	Nasal Solution
Strength	15mg, 3mg/15mL
Route	Nasal, Topical
WADA status	Not Prohibited

Generic drug name	<b>Tramazoline Hydrochloride</b>
Dosage form	Nasal Solution
Strength	0.118%; 1.18mg/mL; 100mL
Route	Nasal, Topical
WADA status	Not Prohibited

Generic drug name	<b>Salicylamide, Acetaminophen, Anhydrous Caffeine, Promethazine Methylenedisalicylate</b>
Dosage form	Tablet
Strength	135mg, 75mg, 30mg, 6.75mg
Route	Oral
WADA status	Not Prohibited

## 20. MEDICINES FOR TREATMENT OF ORAL CONDITIONS

Generic drug name	<b>Sodium Gualenate Hydrate</b>
Dosage form	Gargle Solution
Strength	4%/5mL
Route	Gargle
WADA status	Not Prohibited

Generic drug name	<b>Benzethonium Chloride</b>
Dosage form	Mouthwash
Strength	0.2%/40mL
Route	Mouthwash
WADA status	Not Prohibited

Generic drug name	<b>Miconazole</b>
Dosage form	Oral Gel
Strength	2%/20g
Route	Topical
WADA status	Not Prohibited

Generic drug name	<b>Dequalinium Chloride</b>
Dosage form	Lozenge
Strength	0.25mg
Route	Oral lozenge
WADA status	Not Prohibited

Generic drug name	<b>Dexamethasone</b>
Dosage form	Oral Ointment
Strength	0.1%/3g
Route	Topical
WADA status	Not Prohibited

## 21. MEDICINES FOR HAEMORRHOIDS AND PRURITUS ANI

Generic drug name	<b>Diflucortolone Valerate, Lidocaine</b>
Dosage form	Rectal Ointment
Strength	0.2g, 40mg/2g
Route	Topical, Rectal
WADA status	Not Prohibited if used topically but <b>PROHIBITED if used rectally</b>

## 22. EMERGENCY & PRE-HOSPITAL CARE MEDICINES

### 22.1 General anaesthetics

Generic drug name	<b>Ketamine Hydrochloride</b>
Dosage form	Injection
Strength	50mg/5mL
Route	Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Propofol</b>
Dosage form	Injection
Strength	1%; 200mg/20mL
Route	Intravenous
WADA status	Not Prohibited

## 22.2 Preoperative medication and sedation for short-term procedures

Generic drug name	<b>Atropine Sulfate Hydrate</b>
Dosage form	Injection
Strength	0.05%; 0.5mg/1mL
Route	Subcutaneous, Intramuscular, Intravenous
WADA status	Not Prohibited

Generic drug name	<b>Midazolam</b>
Dosage form	Injection
Strength	10mg/2mL
Route	Intravenous, Intramuscular
WADA status	Not Prohibited

Generic drug name	<b>Naloxone Hydrochloride</b>
Dosage form	Injection
Strength	0.2mg/1mL
Route	Intravenous
WADA status	Not Prohibited

## 22.3 Medicines used in anaphylaxis

Generic drug name	<b>Dexamethasone Sodium Phosphate</b>
Dosage form	Injection
Strength	4mg/1mL
Route	Intravenous, Intramuscular, Intra-articular
WADA status	<b>PROHIBITED by IV and IM</b> (except in an emergency in which case a Retroactive TUE is required)

Generic drug name	<b>Adrenaline (pre-filled syringe)</b>
Dosage form	Injection
Strength	1mg/1mL
Route	Subcutaneous, Intramuscular, Intravenous
WADA status	<b>PROHIBITED by IV and IM</b> (except in an emergency in which case a Retroactive TUE is required)

Generic drug name	<b>Adrenaline (ampule)</b>
Dosage form	Injection
Strength	1mg/1mL
Route	Subcutaneous, Intramuscular, Intravenous
WADA status	<b>PROHIBITED by IV and IM</b> (except in an emergency in which case a Retroactive TUE is required)

Generic drug name	<b>Hydrocortisone Sodium Succinate</b>
Dosage form	Injection
Strength	100mg
Route	Intravenous, Intramuscular, Intra-articular
WADA status	<b>PROHIBITED by IV and IM</b> (except in an emergency in which case a Retroactive TUE is required)

Generic drug name	<b>Methylprednisolone Sodium Succinate</b>
Dosage form	Injection
Strength	125mg
Route	Intravenous
WADA status	<b>PROHIBITED by IV and IM</b> (except in an emergency in which case a Retroactive TUE is required)

Generic drug name	<b>d-Chlorpheniramine Maleate</b>
Dosage form	Injection
Strength	5mg/1mL
Route	Intravenous, Intramuscular
WADA status	Not Prohibited

## 22.4 Antiarrhythmic and cardiac arrest medicines

Generic drug name	<b>Adenosine Triphosphate Disodium Hydrate</b>
Dosage form	Injection
Strength	10mg/2mL
Route	Intravenous, Subcutaneous, Intramuscular
WADA status	Not Prohibited

Generic drug name	<b>Amiodarone Hydrochloride</b>
Dosage form	Injection
Strength	150mg/3mL
Route	Intravenous
WADA status	Not Prohibited

## 22.5 Muscle relaxants (peripherally acting)

Generic drug name	<b>Rocuronium Bromide</b>
Dosage form	Injection
Strength	50mg/5mL
Route	Intravenous
WADA status	Not Prohibited

Ophthalmic Ointment.....	41	Lorazepam .....	44
Furosemide		Loxoprofen	
Injection .....	28	Cataplasm .....	11
Tablet.....	27	Tablet.....	11
Glimepiride .....	39	Magnesium Oxide.....	36
Glucose		Mannitol .....	49
10%/20mL.....	48	Metformin .....	39
5%/100mL.....	49	Methylprednisolone	
50%/20mL.....	40	Injection .....	56
Tablet.....	40	Methylprednisolone, Fradiomycin	
Glycerin .....	37	Ophthalmic Ointment.....	41
Heparin.....	23	Metoclopramide	

Injection .....	36	Rocuronium.....	57
Tablet.....	35	Saccharated Ferric Oxide .....	23
Metronidazole.....	21	Salbutamol	
Miconazole .....	52	Aerosol.....	46
Midazolam .....	54	Solution for Nebulisers.....	46
Mirtazapine .....	44	Salicylamide, Acetaminophen, Anhydrous Caffeine,	
Montelukast.....	17	Promethazine .....	52
Morphine .....	13	Salicylic Acid.....	31
Naloxone.....	54	Salmeterol .....	47
Naproxen .....	11	Scopolamine .....	34
Nicardipine.....	25	Senoside A, B .....	36
Nitroglycerin .....	24	Sodium Bicarbonate .....	50
Norethisterone, Ethinylestradiol.....	38	Sodium Chloride	
Norgestrel, Ethinylestradiol.....	39	10%/20mL.....	50
Ofloxacin.....	51	20mL.....	48
Olanzapine .....	44	500mL.....	48
Oral Rehydration Salts .....	37	50mL.....	48
Oseltamivir.....	22	Sodium Ferrous Citrate .....	23
Oxybuprocaine .....	42	Sodium Fusidate .....	29
Paracetamol		Sodium Gualenate Hydrate.....	52
Fine Grain.....	11	Sodium Hyaluronate	
Suppository.....	11	Injection .....	15
Tablet.....	12	Ophthalmic Solution .....	41
Paracetamol, Tramadol.....	13	Spirolactone .....	28
Paroxetine .....	43	Sulfadiazine Silver.....	29
Phenothrin .....	31	Sulfamethoxazole, Trimethoprim.....	21
Phenothrin shampoos.....	31	Sumatriptan .....	23
Phenytoin.....	18	Terbinafine .....	29
Potassium Chloride .....	50	Tetrahydrozoline, Prednisolone .....	51
Povidone-Iodine .....	33	Tiotropium .....	46
Prednisolone		Tizanidine .....	18
Injection .....	15	Tramadol	
Tablet.....	17	Injection .....	14
Pregabalin.....	14	Tablet.....	13
Prochlorperazine .....	35	Tramadol, Acetaminophen .....	13
Promethazine .....	45	Tramazoline .....	51
Propofol.....	54	Tranexamic Acid	
Ramelteon .....	45	Injection .....	24
Rebamipide .....	34	Tablet.....	24
Risperidone .....	44	Triamcinolone.....	15

Trimebutine.....	36
Trimethoprim, Sulfamethoxazole.....	21
Tropicamide .....	43
Valaciclovir .....	22
Verapamil	
Injection .....	25
Tablet.....	24
Warfarin.....	27
White Petroleum.....	32
Zolpidem .....	45
