## 1. Introduction

This document is the official guideline regarding the FEI Endurance World Championship at Butheeb. It is recommended to be followed by all event participants. It provides guidance regarding the transport process, required documentation for health and customs purposes as well as all necessary operational contacts for a smooth transport experience.

The organizing committee of the event has appointed EquiSky Logistics as the designated shipping agents.

Therefore, EquiSky Logistics is globally responsible for the organization of the horse transport to the event and all transport-related documentation and health processes.

We hope that the event will be a great experience for you. If you have questions regarding the transport process, feel free to contact us at any time.

## 2. Operational Contacts

In case of any questions, you can always reach out to the contacts below:

Name: Mr. Abdul Salam Tel.:+971 50 6711995 ( for GCC, South & North American Horses)  
Mr. Mr. Christian Nagel : +49 175 4388963 (for EU horses)  
E-Mail: abdul.salam@equisky.com  
c.nagel@agricon-logistic.com

## 3. Required Legal Documentation

The preparation of the below documentation is in the responsibility of the respective federations / riders. In case of any questions, you can always reach out to the representatives of EquiSky.

### 3.1 Equine Sanitary requirements

1. During the 90 days immediately prior to export, but not within 14 days of export, the horse received either:

- (a) at least two primary vaccinations against Equine Influenza, given between 21 and 42 days apart.

**OR**

(b) a booster vaccination against equine influenza which was given within 12 months of a certified primary course, or within 12 months of a certified booster vaccination where it, and any other previous booster vaccinations, had been administered annually within a regular 12 months period since the primary course.

2. Private vet to take **blood samples** (Coggin test for Equine Infectious Anemia (EIA), carried out on a sample collected **within 30 days of export** and, if the horses have been imported in to the **EU, at least 14 days** after the date of entry.
3. Samples courier to the lab
4. Local district ministry vet officer to inspect horse and certify health certificates
5. Organize traces health certificate from local district ministry vet office which is essential to travel inside EU with border crossing
6. Provide movement record of previous trips to EquiSky with the following applicable conditions:
  1. **For EU Horses:** horses must be certified as having been **resident in the EU** for the **21 days** immediately prior to export and as having been on premises under veterinary supervision during the **15 days immediately prior to export**.
  2. **For South & North American Horses:** During the **40 days** immediately preceding the **exportation** it has been resident on holdings under veterinary supervision in the **country of dispatch**
7. Provide to EquiSky clear copies of horse passports with following information:
  1. Passport number
  2. Microchip number
  3. Name
  4. Sex
  5. Color
  6. Date of birth
