Letter of motivation

April, 9th 2024

Dear FEI,

I am writing to express my enthusiastic motivation to re-apply for the position of Chair of the FEI Vaulting Technical Committee. Having served in this role for the past four years, I am deeply committed to the advancement and professionalization of vaulting as an equestrian discipline.

During my previous term as Chair, I am proud to highlight the significant progress we have made in transforming the Vaulting Technical Committee into professional and cohesive unit. By fostering a culture of teamwork, we have established clear competencies and expectations, enabling us to work more efficiently and effectively towards our shared goals.

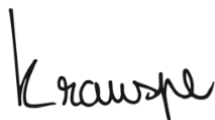

One of our major achievements has been the initiation of several impactful projects aimed at developing and promoting vaulting as a discipline. Additionally, we have taken proactive measures to defend our position within the equestrian community, particularly in light of the growing movement towards Social License to Operate. Rather than simply reacting to external circumstances, we have adopted a proactive approach, which I am keen to continue.

Furthermore, we have meticulously crafted a strategic roadmap outlining our objectives for the next five to ten years. It is imperative that we maintain continuity in our efforts to realize these goals, and I am fully committed to overseeing and actively participating in their implementation.

I am deeply passionate about the sport of vaulting and firmly believe in its potential for growth and development on the international stage. As Chair of the FEI Vaulting Technical Committee, I am eager to continue championing our discipline, fostering innovation, and driving positive change within the vaulting community.

Thank you for considering my application. I am excited about the opportunity to continue serving in this important capacity and contributing to the ongoing success of vaulting worldwide.

Sincerely,

Pavla Krauspe
